

EuroSciCon

April 18-19, 2019
Paris, France

EuroSciCon Conference on

Advanced Nanotechnology

Theme:

Advancing the Future for Nanotechnology

EuroSciCon

Advanced Nanotechnology

2019

Invitation

Paris has been one of the world's most goal and drawing in urban systems. It is empowering for the open gateways it offers for business and trade, for review, for culture, and for preoccupation; its gastronomy, high outline, painting, forming, and shrewd assembling particularly welcome a blessed notoriety. Its sobriquet "the City of Light" ("la Ville Lumière"), earned amidst the Enlightenment, stays fitting, for Paris has held its centrality as a middle for rule and scholarly premiums.

Paris site at a crossing point of both water and land courses fundamental to France and to Europe has influenced its headway. Under Roman relationship, in the essential century BCE, the principle site on the Île de la Cité was doled out the capital of the Parisii clan and region. Under Hugh Capet (ruled 987– 996) and the Capetian custom the astonishing nature of Paris was determinedly settled, and Paris changed into the political and social center point as present day France worked out not surprisingly. France has for quite a while been to a great degree solidified nation, and Paris has come to be related to a capable focal state, attracting to itself a tremendous bit of the limit and noteworthiness of the zones.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

April 18-19, 2019
Paris, France

EuroSciCon

Advanced Nanotechnology

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Materials scientists and nanotechnologists accessing the website, Advanced Nanotechnology 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Advanced Nanotechnology 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

April 18-19, 2019
Paris, France

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Advanced Nanotechnology

2019

Who'd be attending?

EuroSciCon Conference on Advanced Nanotechnology plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials Scientists/Research Professors/ Nanotechnologists, Physicists/Chemists, Junior/Senior research fellows of Materials Science/ Nanotechnology/ Polymer Science, Materials Science Students, Directors of chemical companies, Materials Engineers, Members of different Materials science associations, Members of different nanotechnology associations.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Nanotechnology
- Nanomaterials
- Materials Science
- Medical Nanotechnology
- Advanced Nanomaterials
- Nanobiotechnology
- Pharmaceutical Nanotechnology
- Cancer Nanotechnology
- Graphene
- Graphene & 2D Materials
- Carbon Nanotechnology
- Nanodevices and Nanosensors
- Nanorobotics
- Nanochemistry
- Molecular Nanotechnology
- Plant Nanotechnology
- Nanoelectronics and Nanophotonics
- Power modules: Nanotechnology Applications
- Nanotechnology in Solar Cells
- Space Nano Technology
- Nano Fibers
- Nano Fluidics
- Nano particles
- Applications of Nanotechnology
- Nano-biomaterials
- Nanotechnology safety and risks
- Future of Nanotechnology

EuroSciCon

Advanced Nanotechnology

2019

About Destination Paris

Paris is the capital and most populous city of France, with an area of 105 square kilometres (41 square miles) and a population of 2,206,488. With 200,000 inhabitants in 1328, Paris, then already the capital of France, was the most populous city of Europe. By comparison, London in 1300 had 80,000 inhabitants. Since the 17th century, Paris has been one of Europe's major centres of finance, commerce, fashion, science, music, and painting. The Paris Region had a GDP of €681 billion (US$850 billion) in 2016, accounting for 31 per cent of the GDP of France. In 2013–2014, the Paris Region had the third-highest GDP in the world and the largest regional GDP in the EU. According to the Economist Intelligence Unit Worldwide Cost of Living Survey in 2018, Paris was the second-most expensive city in the world, behind Singapore and ahead of Zurich, Hong Kong, Oslo and Geneva.

Paris is especially known for its museums and architectural landmarks: the Louvre was the most visited art museum in the world in 2017, with 8.1 million visitors. The Musée d'Orsay and Musée de l'Orangerie are noted for their collections of French Impressionist art, and the Pompidou Centre Musée National d'Art Moderne has the largest collection of modern and contemporary art in Europe. The historical district along the Seine in the city centre is classified as a UNESCO Heritage Site. Popular landmarks in the centre of the city include the Cathedral of Notre Dame de Paris and the Gothic royal chapel of Sainte-Chapelle, both on the Île de la Cité; the Eiffel Tower, constructed for the Paris Universal Exposition of 1889; the Grand Palais and Petit Palais, built for the Paris Universal Exposition of 1900; the Arc de Triomphe on the Champs-Élysées, and the Basilica of Sacré-Coeur on the hill of Montmartre. Paris received 23 million visitors in 2017, measured by hotel stays, with the largest numbers of foreign visitors coming from the United States, the UK, Germany and China. It was ranked as the third most visited travel destination in the world in 2017, after Bangkok and London.
