

EuroSciCon

2nd International Conference on

Applied Science and Innovative Engineering

June 24-25, 2019
Tokyo, Japan

Theme:

Exchange of technological advances & modern trends in Applied Science and Innovative Engineering

EuroSciCon

Applied Science

2019

Invitation

Welcome to Tokyo, the capital and one of the 47 prefectures of Japan, has served as the Japanese capital since 1869. EuroSciCon is proud to host the International Conference on Applied Science & Innovative Engineering, June 24-25, 2019 in Tokyo, Japan. This year's theme is 'Exchange of Technological Advances & modern trends in Applied Science and Innovative Engineering'. Applied science conference 2019 will provide an unprecedented opportunity for engineers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite engineers, researchers and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the applied science conference is the perfect venue not only to dive into your particular applied science interests but also to expand the scope of your knowledge. 20 tracks are devoted to subjects such as Advanced Materials and Tools, Aeronautics & Aerospace Engineering, Applied Physics, Artificial Intelligence, Biological Engineering, Biomaterials, Biomedical Engineering, Biotechnology, Chemical Engineering, Computer Applications and Information Sciences, Civil Engineering, Electrical and Electronic Engineering, Environmental Science, Fundamental and Applied Sciences, Material Science and Engineering, Mechanical Engineering, Nano materials, Oil, Gas, Energy & Mining Engineering, Power and Energy Engineering, Robotics. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant applied science forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ engineers and researchers accessing the website, International Conference on Applied Science & Innovative Engineering 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

2nd International conference on Applied Science 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients

June 24-25, 2019
Tokyo, Japan

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Applied Science

2019

Who'd be attending?

International Conference on Applied Science & Innovative Engineering plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Directors, Members of Associations and Societies, Engineering Professionals, Residents, Fellowship holders, Engineering Students, Industries Technicians, Business Entrepreneurs, Scientists, Professors, Academicians, Researchers, Experts and others who stay plunged in learning and practice of the applied science and innovative engineering.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Knowledge through Scientific Gatherings and Networking. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Advanced Materials and Tools
- Aeronautics & Aerospace Engineering
- Applied Physics
- Artificial Intelligence
- Biological Engineering
- Biomaterials
- Biomedical Engineering
- Biotechnology
- Chemical Engineering
- Computer Applications and Information Sciences
- Civil Engineering
- Electrical and Electronic Engineering
- Environmental Science
- Fundamental and Applied Sciences
- Material Science and Engineering
- Mechanical Engineering
- Nano materials
- Oil, Gas, Energy & Mining Engineering
- Power and Energy Engineering
- Robotics

About Destination Tokyo

Tokyo, officially Tokyo Metropolis one of the 47 prefectures of Japan, has served as the Japanese capital since 1869. Tokyo has 39 million residents, 50% more people than any other urban area, Tokyo would have the 8th-largest economy in the world. Tokyo is often referred to as a city but is officially known and governed as a “metropolitan prefecture”, which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo. Tokyo ranks first in the Global Economic Power Index and third in the Global Cities Index. Tokyo has numerous outlying islands, which extend as far as 1,850 km from central Tokyo. Because of the islands’ distance from the administrative headquarters of the Tokyo Metropolitan Government in Shinjuku, local sub prefectural branch offices administer them. Tokyo mixes the ultramodern and the traditional, from neon-lit skyscrapers to historic temples. The opulent Meiji Shinto Shrine is known for its towering gate and surrounding woods. The Imperial Palace sits amid large public gardens. The city’s many museums offer exhibits ranging from classical art to a reconstructed kabuki theater
