

EuroSciCon

International Civil and Architectural Engineering Week

April 22-23, 2019
London, UK

Theme:
The art of modelling materials in Civil and Architectural Engineering

EuroSciCon

Architect Week

2019

Invitation

Welcome to London, the city of arts and science, and experience the science of Architect Week illuminated as never before. EuroSciCon is proud to host the International Civil and Architectural Engineering Week, April 22-23, 2019 in London, UK. Theme of the conference focuses on The art of modelling materials in Civil and Architectural Engineering. Architecture is considered as, a blend of both aesthetics and practicality which conveys a purpose and meaning to the society. Architecture merges with different fields of science and technology, to create spaces that hold true meaning and purpose, which last long after a project has been completed, by communicating the true meaning to its users. Building Technology is the application of technology to the design of buildings. Architecture and Building Technology work side by side, but with recent technological advancements, the dependency of both Architecture and Building Technology on each other has increased exponentially and thus, sometimes they are not viewed as two distinct disciplines. Building Technology helps students and professionals to explore critical topics for the future of the built environment. A good deal of are going on which explores ways to use design and technology to create buildings that contribute to a more humane and environmentally responsible built spaces. Strategies that are employed these days focus primarily on integrated architectural design strategies, resource accounting through material flow analysis and life cycle assessment, building and urban energy modelling and simulation, human comfort analysis, control design and engineering, and other technologically-informed design methods.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges

April 22-23, 2019
London, UK

EuroSciCon

Architect Week

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ analytical chemists and drug analysts accessing the website, Architect Week2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our speakers and committee members fuelling better outreach of the work and profile.

Architect Week2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

April 22-23, 2019
London, UK

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Architect Week

2019

Who'd be attending?

International Civil and Architectural Engineering Week, April 22-23, 2019 in London, UK. Theme of the conference focuses on The art of modelling materials in Civil and Architectural Engineering. Architect Week 2019 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. The primary goal of "International Conference on Architecture, Materials and Construction Techniques" is to bring in researchers, scholars, engineers, practitioners, scientists, and students from all around the world along with leading industry people to attend and/or present research activities which will lead to encourage positive relation between Academics and Industry. The conference will provide the delegates to exchange ideas and knowledge face to face and establish research and/or business relations, with a collective goal to create a better future." International Conference on Architecture, Materials and Construction Techniques" will be promoting research and new ideas relating Architectural Design, new and advanced Building Materials and cutting edge construction techniques. This conference will have the participation of renowned keynote speakers in these areas, along with oral presentations and posters. sessions.

Tracks :

- Architecture
- Design thinking
- Digital architecture
- Applied design
- Green Architecture
- Housing and Settlement System
- Principles of Human Settlements & Urban Design
- Sustainability
- Green Construction
- Advanced Construction Materials
- Structural Design
- Architectural Safety
- Conservation and Heritage Management
- Automated engineering systems in Architecture
- Pre-fabrication & Modular Co-ordination
- Industrial Architecture
- Site Planning & Landscape Architecture

EuroSciCon

Academic Keytopics:

- Architectural design competition
- Architectural drawing
- Architectural firm
- Architectural style
- Architectural technology
- Architectural theory
- Architecture prizes
- Building materials
- Contemporary architecture
- Dravidian architecture
- Guerrilla architecture
- Glossary of architecture
- List of human habitation forms
- Mathematics and architecture
- Metaphoric Architecture
- Organic architecture
- Outline of architecture
- Sociology of architecture
- Sustainable architecture
- Zoomorphic architecture

April 22-23, 2019
London, UK

Business Keytopics:

- Architect Week Europe
- Architect Week Asia
- Architect Week Japan
- Architect Week UK
- Architect Week Canada
- Architect Week USA
- Architect Week Dubai
- Architect Week Germany
- Architect Week Africa
- Business architecture
- Cognitive architecture
- Computer architecture
- Enterprise architecture
- Interior architecture
- Landscape architecture
- Naval architecture
- Network architecture
- Software architecture
- System architecture
- Urban design

2019

About Destination London

London is the capital and most populous city of England and the United Kingdom. Standing on the River Thames in the south east of the island of Great Britain, London has been a major settlement for two millennia. It was founded by the Romans, who named it Londinium. London's ancient core, the City of London, largely retains its 1.12-square-mile (2.9 km^2) medieval boundaries. Since at least the 19th century, "London" has also referred to the metropolis around this core, historically split between Middlesex, Essex, Surrey, Kent and Hertfordshire, which today largely makes up Greater London,a region governed by the Mayor of London and the London Assembly. London is a leading global city in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. It is the world's largest financial centre and has the fifth or sixth largest metropolitan area GDP in the world. London is often regarded as a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport systemmeasured by passenger traffic. It is the world's leading investment destination, hosting more international retailers and ultra high-net-worth individuals than any other city. London's universities form the largest concentration of higher education institutes in Europe. In 2012, London became the first city to have hosted the modern Summer Olympic Games three times.London contains four World Heritage Sites: the Tower of London; Kew Gardens; the site comprising the Palace of Westminster, Westminster Abbey, and St Margaret's Church; and the historic settlement of Greenwich (in which the Royal Observatory, Greenwichdefines the Prime Meridian, 0° longitude, and GMT). Other landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, including the British Museum, National Gallery, Natural History Museum, Tate Modern, British Library and West End theatres. The London Underground is the oldest underground railway network in the world.
