Why with us?

We at EuroSciCon battle to make changing encounters, driving scientists and associations to join and think of noteworthy thoughts accordingly redesigning the nature of innovative work. What's more, we have the uncommon purpose behind picking with our Open Access Journal: We grasp around 700+ Leading-edge Peer-Reviewed Open Access Journals and a 21 Day Quick Review Process with an incredible 50000+ Editorial Board Team, 35000+ Reviewers group and 1000+ Scientific Associations Collaborations. Read by more than 30 Million Patrons and 100000+ Facebook Likes appreciating the High online nearness, our Open Access Journals serve the best mix of substance and worldwide presentation. Our International Scientific Conferences: With more than 3000 Conferences occurring over the globe in the floods of Medical, Pharms, Engineering, Science, Technology, and Business our occasions are authorize with CME/CPD. Besides, you get the opportunity to meet the business' consecrated ministers who originate from everywhere throughout the sphere. You gain from the organizations characterized by their dynamic ethos and dynamic procedures and through the profoundly intuitive sessions and board dialogues. B2B Meetings with advancing collaboration enable working to better organizations, individuals, and the world.

Other salient features comprehend:

It activates the creativeness instinct with the awareness of live experience.

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries.

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend Career guidance for

early career researchers and students Provides insights you need to take your research to the next level.

A huge conclave of high tech and science priests.

EuroSciCon

With over 25000+ oncologists accessing the website, Cancer Research 2019 is the most lucrative platform for researchers, academicians, and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Enrichment Of CANCER RESEARCH 2019 SILENT FEATURES:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

Who'd be attending?

7th Edition of World Congress on Cancer Research, Survivorship, and Management plays host for an environment for scientist, cancer survivors, advocates, program planners, students and public health experts to know about existing and evolving Cancer Research.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Cancer Research
- Cancer Genetics
- Cancer Epigenetics
- Cancer Science
- Cancer diagnostics
- Cancer Therapies & its prevention
- Cancer Stem Cells
- Biomarkers
- Biopsy
- Chemotherapy

About Destination TOKYO

Tokyo was some time ago named Edo when Shōgun Tokugawa Ieyasu made the city as his home office in 1603. It turned into the capital after Emperor Meiji moved his seat to the city from Kyoto in 1868; around then Edo was renamed Tokyo. Tokyo Metropolis was shaped in 1943 from the merger of the previous Tokyo Prefecture. The city of Tokyo has 39 million occupants, half a greater number of individuals than some other urban region, with a $2.5 trillion economy bigger than that of some other city; in the event that it was a nation, Tokyo would be the eighth biggest economy on the planet. Tokyo is frequently alluded to as a city, however, is formally referred to and administered as a “metropolitan prefecture”, which contrasts from and consolidates components of a city and a prefecture. The Tokyo Metropolitan Government directs the 23 Special Wards of Tokyo (each administered as an individual city), which cover the region that was the city of Tokyo before it consolidated and turned into the metropolitan prefecture in 1943, the 30 districts in the western piece of the prefecture, and the two remote island chains. The number of inhabitants in the exceptional wards is more than 9 million individuals, with the aggregate populace of the prefecture surpassing 13 million. Tokyo is positioned first in the Global Economic Power Index and third in the Global Cities Index
