Gene Therapy 2020

Build castles in the air to land at City of Dreams Amsterdam, to explore Cell and Gene Therapy 2018

The most populous municipality Amsterdam is the capital of the Netherlands. Amsterdam has a population of 2,410,960 people. The city is located in the province of North Holland in the west of the country but is not its capital, which is Haarlem. The city square area comprises a part of the Randstad, one of the larger conurbations in Europe, with a population of approximately 7 million. Originating as a small fishing village in the late 12th century, Amsterdam became one of the most important ports in the world during the Dutch Golden Age, a result of its innovative developments in trade.
As the commercial capital of the Netherlands and one of the top financial centers in Europe, Amsterdam is considered an alpha world city by the Globalization and World Cities (GaWC) study group. The city is also the cultural capital of the Netherlands. Many large Dutch institutions have their headquarters there, and seven of the world's 500 largest companies, including Philips and ING, are based in the city. Amsterdam was ranked 2nd best city to live in by the Economist Intelligence Unit and the 12th on quality of living for environment and infrastructure by Mercer. The city was ranked 3rd in innovation by Australian innovation agency 2thinknow in their Innovation Cities Index 2009.The Amsterdam seaport to this day remains the second in the country, and the fifth largest seaport in Europe. Famous peoples of the Amsterdam are the diarist Anne Frank, artists Rembrandt van Rijn and Vincent van Gogh, and philosopher Baruch Spinoza.
