Advancements in Cell and Gene Therapy : Making a dead cell work

EuroSciCon

Cell and Gene Therapy

2018

Invitation

Welcome to Amsterdam, the City of Arts and Science, and experience the science of Cell and Gene Therapy illuminated as never before. EuroSciCon is proud to host the EuroSciCon Conference on Cell and Gene Therapy, August 20-21, 2018 in Amsterdam, Netherlands. This year's theme is Advancements in Cell and Gene Therapy : Making a dead cell work. Cell and Gene Therapy 2018 will provide an unprecedented opportunity for professionals of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite academics, human genetics students, scientists, genetics researchers, human genetics faculty, human genetics associations and societies, human genetics physicians, human genetics advanced practice registered nurses, allied health professionals in the fields of human genetics, training institutes, counsellors, clinicians, educators, dieticians, exercise therapists, family physicians, family therapists, general practitioners, health educators/promoters, healthcare policy makers in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Cell and Gene Therapy Conference is the perfect venue not only to dive into your particular eating disorder interests but also to expand the scope of your knowledge. 21 tracks are devoted to subjects such as the cell science research, cell & gene therapy, regenerative medicine, immunotherapy, genetics and stem cell biology, epigenetics, human genomics, next generation sequencing, gene editing and CRISPR based technologies, proteomics, viral gene therapy, cell therapy of cardiovascular disorders, regulatory and safety aspects of cell and gene therapy, markets & future prospects for cell & gene therapy, gene therapy for diseases, stem cell therapy, gene editing, vectors used in gene therapy, cell biology, ethical issues related to gene therapy, gene therapy in tissue engineering, genomic medicine

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ professionals and Counsellors accessing the website, Cell and Gene Therapy 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Cell and Gene Therapy 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

International Conference on Eating Disorder and Cell and Gene Therapyplays host for the Multinational organizations, entrepreneurs across the globe, Academics, human genetics students, scientists, genetics researchers, human genetics faculty, human genetics associations and societies, human genetics physicians, human genetics advanced practice registered nurses, allied health professionals in the fields of human genetics, training institutes, counsellors, clinicians, educators, dieticians, exercise therapists, family physicians, family therapists, general practitioners, health educators/promoters, healthcare policy makers in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and others who stay plunged in learning and practice of the science of cell and gene therapy.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

About Destination Amsterdam

Amsterdam, the capital of the Kingdom of the Netherlands, is one of the most popular tourist destinations in Europe.These days the city has a population of just over 790.000 inhabitants and is the largest city in the country. Amsterdam is located in the province 'Noord-Holland', situated in the west. It is one of the most popular destinations in Europe, receiving more than 4.5 million tourists annually. With its universities, academies, and research institutes, along with more than 40 museums, numerous theaters, and entertainment venues, Amsterdam is the country's leading cultural center. In addition, the city is famous for its historic homes, laid out in a pattern of concentric segments in the shape of a fan and built on piles driven through an upper layer of mud into the firm, sandy bottom up to 18 meters below. All told, some 6,750 buildings dating from the 16th to 18th centuries are crowded into an area of 2,000 acres, dissected by 160 canals (grachten), themselves home to numerous houseboats. Many picturesque bridges link the city's 90 islands, eight of them old wooden bascule bridges, including the Magere Brug (Mager Bridge), one of the city's most frequently photographed.Amsterdam is on Central European Time (CET), which is Coordinated Universal Time (UTC), or Greenwich Mean Time (GMT), plus 1 hour. The warmest months are from June to August, with temperatures between 20 – 27 degrees Celsius. There are rarely extreme temperatures in Amsterdam. The air is relatively humid and fog is common in autumn and spring. The weather in Amsterdam is fairly mild during wintertime. However temperatures can drop below freezing. The chance of extreme cold is sporadic. On some days there may be snow fall.
