Barcelona, Spain

2nd International Conference on

Advanced Chemical Engineering

Theme:

Exploring the Emerging Trends in the Realm of Chemical Engineering

EuroSciCon

Chemical Engineering

2018

Invitation

Welcome to Barcelona, the city of wonders, and experience the novel technologies of Chemical Engineering as never before. EuroSciCon is proud to host the 2nd International Conference on Advanced Chemical Engineering, November 29-30, 2018 in Barcelona, Spain. The theme is Exploring the Emerging Trends in the Realm of Chemical Engineering, will provide an unprecedented opportunity Professors of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Chemical Engineering scientists, Material scientists, nanotechnologists, research professors and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Advanced Chemical Engineering conference is the perfect venue not only to dive into your particular subject such as Chemical engineering, materials science and nanotechnological interests but also to expand the scope of your knowledge. Many tracks are devoted to subjects such as chemical engineering, thermodynamics processes, chemical reaction engineering, unit operations, process control, computational fluid dynamics, entrepreneurship investment meet.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Advanced Chemical Engineering forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

November 29-30, 2018
Barcelona, Spain

EuroSciCon

Chemical Engineering

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Materials scientists and accessing the website, Nanomat 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Chemical Engineering 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

November 29-30, 2018
Barcelona, Spain

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Chemical Engineering

2018

Who'd be attending?

2nd International Conference on Advanced Chemical Engineering host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Chemical Engineers/ Materials Scientists/Research Professors/ Physicists, Junior/Senior research fellows of Materials Science/ Polymer Science, Materials Science Students, Directors of chemical companies, Materials Engineers, Members of different Materials science associations, Members of different Chemical Engineering associations.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Chemical Engineering
- Chemical Reaction Engineering
- Thermodynamic Processes
- Industrial Safety Methods and Pollution
- Advances in Renewable Chemicals
- Biochemical Engineering
- Computational Fluid Dynamics
- Chemical Polymer Technology
- Unit Operations
- Process design and control
- Biomaterials
- Chemical Technology
- Heat Transfer Research
- Nanotechnology
- Fluid Mechanics
- Material Science and Engineering
- Petrochemistry and Petrochemicals
- Biomolecular Engineering
- Applications of Chemical Technology
- Electrochemical Engineering
- Carbon and Graphene Materials
- Biologically Engineered Systems
- Biofuels
- Biotechnology
- Chemical Industry and Market Analysis
- Entrepreneurship investment meet

EuroSciCon

Chemical Engineering

2018

About Destination Barcelona

Sprawled between the beaches of the Mediterranean and the hills of Montjuïc, Barcelona is a city whose personality bursts at every natural seam. The capital of Catalonia, one of Spain's 17 autonomous communities, with a population of 1.6 million, Barcelona is also known as the country's most progressive city, always on the cutting-edge of European art, fashion and cuisine. If there ever were a city to be defined as "cosmopolitan," it would be Barcelona. More international than Spanish, it has been a vital Mediterranean port for centuries. Just spend a sunny afternoon hanging your feet off the docks of Port Vell and you'll immediately notice the diversity of nationalities, cultures, ethnicities and languages that Barcelona encompasses. The famous Tourist attraction places in Barcelona are La Sagrada Familia, The Font Mágica Fountain, Picasso Museum, Las Ramblas street, FC Barcelona museum & Camp Nou stadium, Barrio Gotico, Park Guell by Gaudi, Modernist buildings, Montjuic hill & Poble Espanyol, Tibidabo hill.
