

EuroSciCon

9th Edition of International Conference on

Chemical Sciences

April 22-23, 2019
Madrid, Spain

Theme:

Recent Innovations in Chemical Research and Applications of Chemistry

EuroSciCon

Chemical Sciences

2019

Invitation

Welcome to Madrid, the city of arts and science, and experience the science of chemical sciences illuminated as never before. Euroscicon is proud to host the 9th Edition of International Conference on Chemical Sciences, April 22-23, 2019 in Madrid, Spain . The theme of the conference focuses on “Recent Innovations in chemical research and applications of chemistry”. Chemical Sciences 2019 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. We invite directors, presidents & CEO’s from companies, chemists, academic groups, directors from pharmaceutical companies. Laboratory scientists who identifies, quantifies, analyzes or tests the chemical or biological properties of compounds or molecules or who manages these laboratory scientists. chemical researcher, molecular diagnostics, clinical laboratories, health Care Industry, quantitative analysts, qualitative analysts , editorial board members, students, faculty members. chemical instrument vendors, professors and students from academia in the field of chemistry and chemical sciences. Delegates from various chemical & instrumental companies from all over the world. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Chemical Sciences Conference is the perfect venue not only to dive into your particular chemists interests but also to expand the scope of your knowledge. 18 tracks are devoted to subjects such as the Chemistry Of Compounds, Organic Chemistry And Inorganic Chemistry, Physical And Theoretical Chemistry, Heterocyclic Chemistry, Electrochemistry, Electrolysis And Corrosion, Geochemistry, Nuclear Chemistry/Radiochemistry, Biochemistry, Pharmaceutical/Medicinal Chemistry, Polymer Chemistry, Forensic Chemistry, Environmental Chemistry, Bio Based Chemistry, Analytical Chemistry, Multi-Scale/Multi-Disciplinary Approach To Process-Product Innovation, Sustainable Process-Product Development Through Green Chemistry.Systematic Methods And Tools For Managing The Complexity, Integration Of Life Sciences & Engineering. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant analytical forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges

April 22-23, 2019
Madrid, Spain

EuroSciCon

Chemical Sciences

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ chemists and drug analysts accessing the website, Chemical Sciences 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our speakers and committee members fueling better outreach of the work and profile.

Chemical Sciences 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

April 22-23, 2019
Madrid, Spain

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

9th Edition of International Conference on Chemical Sciences , April 22-23, 2019 in Madrid, Spain. Theme of the conference focuses on: Recent Innovations in chemical research and applications of chemistry. Chemical Sciences 2019 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. We invite directors, presidents & CEO's from companies, chemists, academic groups, directors from pharmaceutical companies. Laboratory scientists who identifies, quantifies, analyzes or tests the chemical or biological properties of compounds or molecules or who manages these laboratory scientists. chemical researcher, molecular diagnostics, clinical laboratories, health Care Industry, quantitative analysts, qualitative analysts, editorial board members, students, faculty members. chemical instrument vendors, professors and students from academia in the field of analytical and bioanalytical sciences. Delegates from various pharma & instrumental companies from all over the world. About hosting organization EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of life science communication it focuses on to spearheading the transformation of medical research into knowledge through scientific gatherings and networking. Supporting the Rare Care UK Organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British

Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards scientific serendipity.

Tracks :

- Chemistry Of Compounds
- Organic Chemistry And Inorganic Chemistry
- Physical And Theoretical Chemistry
- Heterocyclic Chemistry
- Electrochemistry, Electrolysis And Corrosion
- Geochemistry
- Nuclear Chemistry/Radiochemistry
- Biochemistry
- Pharmaceutical/Medicinal Chemistry
- Polymer Chemistry
- Forensic Chemistry
- Environmental Chemistry
- Bio Based Chemistry
- Analytical Chemistry
- Multi-Scale/Multi-Disciplinary Approach To Process-Product Innovation
- Sustainable Process-Product Development Through Green Chemistry
- Systematic Methods And Tools For Managing The Complexity
- Integration Of Life Sciences & Engineering

EuroSciCon

Academic Keytopics :

- Analytical Chemistry
- Astro Chemistry
- Atomic Theory
- Catalysis
- Chemical Equillibrium
- Chemical kinetics
- Chemical Laws
- Chemical Reaction
- Chemical Toxicity
- Crystallization
- Electro Chemistry
- Element Analysis
- Flow Chemistry
- Geo Chemistry
- Ions and Salts
- Isotope Geochemistry
- Materials Chemistry
- Materials Science
- Molecular Mechanics
- Neuro Chemistry
- Nuclear chemistry
- Organometallic chemistry
- Petro Chemistry
- Physical organic chemistry
- Polymers
- Quantum Chemistry
- Radiochemistry
- Redox Reaction
- Stereochemistry
- Supramolecular Chemistry
- Synthetic Chemistry

April 22-23, 2019
Madrid, Spain

Business Keytopics :

- Atomic Spectrometric Techniques
- Calorimetry
- Centrifugation
- Chemical Analysis
- Chemical Sciences Africa
- Chemical Sciences Asia
- Chemical Sciences Canada
- Chemical Sciences Dubai
- Chemical Sciences Europe
- Chemical Sciences Germany
- Chemical Sciences Japan
- Chemical Sciences UK
- Chemical Sciences USA
- Chemical Technologies
- Desalination
- Displacement Chromatography
- Electroblotting
- Electrochemical Analysis
- Element Analysis
- Fumigation
- Gas Chromatography
- Gel Electrophoresis
- Green and Environmental Analytical chemistry
- Immunoelectrophoresis
- Liquid Separation
- Magnetic Separation
- Membrane Science and Technology
- Nuclear Magnetic Resonance
- Phase Seperation
- Protein Mass Spectrometry
- Separation Technology
- Solid Crystallization
- Spectroscopy
- Thermal Analysis

About Destination Madrid

Madrid, the capital of Spain, is a cosmopolitan city that combines the most modern infrastructures and the status as an economic, financial, administrative and service centre, with a large cultural and artistic heritage, a legacy of centuries of exciting history.

Madrid is also the largest Spanish city with more than 3 million inhabitants in the metropolitan area. You will find in the city a rich mixture of cultures, since besides the native “madrileños” people from other countries and especially from Latin America have made of Madrid their second hometown.

It has been populated since the Lower Palaeolithic era, although it was not until 1561 that King Philip II made Madrid the capital city of his vast empire. The historic centre, also known as the “Madrid of Los Austrias” (in reference to the Hapsburg monarchs), and the spectacular Plaza Mayor square –inaugurated in 1620 and one of the most popular and typical sites in Spain– are a living example of the nascent splendour of the city in the 16th and 17th centuries.

Art and culture play a key role in Madrid’s cultural life. The capital has over 60 museums which cover every field of human knowledge. Highlights include the Prado Museum, one of the world’s most important art galleries; the Thyssen-Bornemisza Museum, with over 800 paintings ranging from primitive Flemish artists through to the avant-garde movements. And the Reina Sofía National Art Centre, dedicated to contemporary Spanish art and containing works by Picasso, Joan Miró, Salvador Dalí and Juan Gris, among others.

In Madrid you will find all kind of interesting things to do and to see, whatever your interests are. The city has a wide offer for tourism, culture, business and for ludic activities with excellent facilities and services. A great acknowledgement in this sense was the election of the city as European Capital of Culture in the year 1992.

Madrid was also candidate city to host the Olympic games in 2012, although finally the winning city was London, Madrid had been one of the favourites and reached a third position in the competition.
