

EuroSciCon

International Conference on

Structural and Civil Engineering Research

June 06-07, 2019
Paris, France

Theme:
Engineering for Sustainable Infrastructure & Development

EuroSciCon

Civil Engineering

2019

Invitation

EuroSciCon warmly welcomes to all the experts in the field of Structural and Civil Engineering to attend its upcoming conference on Structural and Civil Engineering Research, to be held during June 06-07, 2019 in Paris, France. The Conference is based on the Theme: Engineering for Sustainable Infrastructure & Development. Civil Engineering 2019 Conference will make the perfect platform for global networking as it brings all together speakers, renowned speakers, business persons , CEO's , across the globe to most exciting and memorable event ,with interactive sessions, poster presentation, world class exhibition. Advances in the field of Construction and Structures are one of the crucial factors in the economic powers of the developed countries and developing countries.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

June 06-07, 2019
Paris, France

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Structural and Civil Engineering professionals accessing the website, Civil Engineering 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Civil Engineering 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

June 06-07, 2019
Paris, France

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Who'd be attending?

Engineers who are specialized on the specific fields like Civil engineers, Structural Engineers, Mechanical Engineers (To Present Their case reports and to update their Knowledge at the conference), Civil industry professionals, Building services engineer, Building control surveyor, Environmental engineers who are related to that topics. Bridge Construction Industries, Renewable Energy Industries, Software Publishing Houses specializing in Construction Design software's are the Potential Exhibitors for the Respective Conferences. Civil Engineering associations, Earthquake Engineering Research Institutes, Institutions of Civil Engineering Surveyors, Institutions of Transportation Engineers; Students and Delegates in related areas.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Civil Engineering and Architecture
- Structural and Construction Engineering
- Building Technology and Construction Management
- Steel Structures and Construction
- Structural Analysis and Designing
- Structural Health Monitoring
- Reinforced Concrete Structure
- Modular Constructions
- Earthquake Engineering and Seismic Risk Mitigation
- Transportation and Traffic Engineering
- Pavement Design
- Environmental Engineering
- Water Resource Engineering and Technology Nanotech for Energy and Environment
- Geotechnical Engineering
- Sustainability & Green Structures
- Materials Science and Engineering
- Tunnel Engineering and Construction
- Automation in Construction
- Designing of Special Structures and Concrete Technology
- Construction Market Research and Industry Analysis

EuroSciCon

See your work PUBLISHED

in one of our related journals

- Research Reviews: Journal of Engineering and Technology
- Journal of Civil & Environmental Engineering
- Journal of Steel Structures & Construction

June 06-07, 2019
Paris, France

EuroSciCon

About Destination Paris

Paris, France's capital is a major European city and a global center for art, fashion, gastronomy and culture. Its 19th-century cityscape is crisscrossed by wide boulevards and the River Seine. Beyond such landmarks as the Eiffel Tower and the 12th-century, Gothic Notre-Dame cathedral, the city is known for its cafe culture and designer boutiques along the Rue du Faubourg Saint-Honoré.

For a significant period of time Paris has been one of the world's most goal and engaging urban networks. It is reviving for the open entryways it offers for business and exchange, for inspect, for culture, and for beguilement; its gastronomy, high design, painting, composing, and academic gathering especially value a fortunate reputation. Its sobriquet "the City of Light" ("la Ville Lumière"), earned in the midst of the Enlightenment, remains fitting, for Paris has held its hugeness as a center for guideline and insightful premiums. Paris' site at an intersection of both water and land courses basic to France and also to Europe has affected its advancement. Under Roman association, in the main century BCE, the principal site on the Île de la Cité was doled out the capital of the Parisii faction and area. The Frankish ruler Clovis I had taken Paris from the Gauls by 494 CE and later made his capital there. Under Hugh Capet (ruled 987– 996) and the Capetian custom the greatness of Paris was emphatically settled, and Paris transformed into the political and social focus point as present day France happened as expected. France has for a long while been an exceptionally consolidated country, and Paris has come to be identified with a competent central state, pulling in to itself a huge piece of the capacity and importance of the regions.
