

EuroSciCon

3rd Edition of International conference on

Applied Crystallography

June 04-05, 2018
London
UK

Theme:

Crystallography of today is the innovation of tomorrow

EuroSciCon

Crystallography

2018

Invitation

Welcome to London, the most populous region, urban zone and metropolitan area in the United Kingdom and experience the novel technologies of materials science and Crystallography as never before. EuroSciCon is proud to host the 3rd Edition of International conference on Applied Crystallography. This year's theme is Crystallography of today is the innovation of tomorrow. Crystallography 2018 will provide an unprecedented opportunity for materials scientist and chemical engineers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Material scientists, nanotechnologists, research professors and scientists in related chemical engineering disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Crystallography conference is the perfect venue not only to dive Crystal structure interests but also to expand the scope of your knowledge. 9 tracks are devoted to subjects such as the Crystallography in Biology, Chemical Crystallography, Crystallographic Defects, Crystal Growth, Crystallography of Novel Materials, Electron Crystallography, Recent development in the X-ray studies, Crystallography Applications, Advanced Crystallography.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant materials science and Crystallography forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ toxicologists and pharmacologists accessing the website, Euro Toxicology 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Crystallography 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Crystallography

2018

Who'd be attending?

3rd Edition of International conference on Applied Crystallography plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials Scientists/Research Professors/ Nanotechnologists, Physicists/Chemists, Junior/ Senior research fellows of Materials Science/ Nanotechnology, Materials Science Students, Directors of chemical companies, Materials Engineers, Members of different materials science and crystallography associations.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Chemical Crystallography
- Advanced Crystallography
- Crystallography of Novel Materials
- Crystallographic Defects
- Crystallography in Biology
- Electron Crystallography
- Crystal Growth
- In Situ Diffraction
- Precession Electron Diffraction (PED)
- Crystallography Companies and Market Analysis
- Nuclear Magnetic Resonance Crystallography (NMR crystallography)
- Modeling of Polymer Crystals
- Recent development in the X-ray studies
- Crystallography Applications
- Advances in Neutron Diffraction
- Specific Applications of Neutron Scattering

About Destination London

London is the capital city of England and the United Kingdom. It is the most populous region, urban zone and metropolitan area in the United Kingdom. Standing on the River Thames, London has been a major settlement for two millennia, its history going back to its founding by the Romans, who named it Londinium.

London is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transport all contributing to its prominence. It is one of the world's leading financial centres and has the fifth-or sixth-largest metropolitan area GDP in the world depending on measurement. London is a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport system measured by passenger traffic. London's 43 universities form the largest concentration of higher education in Europe. In 2012, London became the first city to host the modern Summer Olympic Games three times.

London has a diverse range of peoples and cultures, and more than 300 languages are spoken within its boundaries. It is a major centre of higher education teaching and research and its 43 universities form the largest concentration of higher education in Europe. London contains four World Heritage Sites: The Tower of London, Kew Gardens- the site comprising the Palace of Westminster, Westminster Abbey and St Margaret's Church also the historic settlement of Greenwich. Other famous landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square, and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, including the British Museum, National Gallery, Tate Modern, British Library and 40 West End theatres.
