

EuroSciCon

4th Edition of International conference on

Advanced Spectroscopy, Crystallography and Applications in Modern Chemistry

April 18-19, 2019
Berlin, Germany

Theme:

Exploring the Novel Enhancements in the field of Modern Chemistry - Crystallography and Spectroscopy

EuroSciCon

Crystallography

2019

Invitation

Welcome to Berlin, is a world city of culture, politics, media and science. Its economy is based on high-tech firms and the service sector, encompassing a diverse range of creative industries, research facilities, media corporations and convention venues. EuroSciCon is proud to host the 4th Edition of International conference on Advanced Spectroscopy, Crystallography and Applications in Modern Chemistry. This year's theme is "Exploring the Novel Enhancements in the field of Modern Chemistry - Crystallography and Spectroscopy".

Crystallography 2019 will provide an unprecedented opportunity for Materials Scientists and Crystallographers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field of Spectroscopy and Crystallography. We invite Material scientists, Nanotechnologists, Research Professors, Crystallographers and scientists in related Chemical engineering disciplines to come together and spread your Researches. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Crystallography conference is the perfect venue not only to dive Crystal structure interests but also to expand the scope of your knowledge on Spectroscopy. 16 tracks are devoted to subjects are Crystallography, Chemical Crystallography, Advanced Crystallography, Crystallography of Novel Materials, X-Ray Crystallography, Crystal Growth, Nuclear Magnetic Resonance Crystallography (NMR crystallography), Spectroscopy, Advances in Neutron Diffraction, Biological Structure Determination, Crystallography in Biology, NMR Spectroscopy vs. X-Ray Crystallography, Crystal Engineering, Crystallography Applications, Spectroscopy Applications, Application of Modern Chemistry.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant materials science and Crystallography forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

April 18-19, 2019
Berlin, Germany

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ toxicologists and pharmacologists accessing the website, Euro Toxicology 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Crystallography 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

April 18-19, 2019
Berlin, Germany

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

4th Edition of International conference on Advanced Spectroscopy, Crystallography and Applications in Modern Chemistry plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials Scientists/Research Professors/ Nanotechnologists, Physicists/Chemists, Junior/Senior research fellows of Materials Science/ Nanotechnology, Materials Science Students, Directors of chemical companies, Materials Engineers, Members of different materials science and Crystallography and Spectroscopy associations.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Crystallography
- Chemical Crystallography
- Advanced Crystallography
- Crystallography of Novel Materials
- X-Ray Crystallography
- Crystal Growth
- Nuclear Magnetic Resonance Crystallography (NMR crystallography)
- Spectroscopy
- Advances in Neutron Diffraction
- Biological Structure Determination
- Crystallography in Biology
- NMR Spectroscopy vs. X-Ray Crystallography
- Crystal Engineering
- Crystallography Applications
- Spectroscopy Applications
- Application of Modern Chemistry

About Destination Berlin

Berlin is the capital and the largest city of Germany, as well as one of its 16 constituent states. With a steadily growing population of approximately 3.7 million. Berlin is the second most populous city proper in the European Union behind London and the seventh most populous urban area in the European Union. Located in northeastern Germany on the banks of the rivers Spree and Havel, it is the center of the Berlin-Brandenburg Metropolitan Region, which has roughly 6 million residents. Due to its location in the European Plain, Berlin is influenced by a temperate seasonal climate. Around one-third of the city's area is composed of forests, parks, gardens, rivers, canals and lakes.

Berlin is a world city of culture, politics, media and science. Its economy is based on high-tech firms and the service sector, encompassing a diverse range of creative industries, research facilities, media corporations and convention venues. Berlin serves as a continental hub for air and rail traffic and has a highly complex public transportation network. The metropolis is a popular tourist destination. Significant industries also include IT, pharmaceuticals, biomedical engineering, clean tech, biotechnology, construction and electronics.

The city has a high density of internationally renowned research institutions, such as the Fraunhofer Society, the Leibniz Association, the Helmholtz Association, and the Max Planck Society, which are independent of, or only loosely connected to its universities. In 2012, around 65,000 professional scientists were working in research and development in the city.

Berlin is one of the knowledge and innovation communities (KIC) of the European Institute of Innovation and Technology (EIT).The KIC is based at the Centre for Entrepreneurship at TU Berlin and has a focus in the development of IT industries. It partners with major multinational companies such as Siemens, Deutsche Telekom, and SAP.

One of Europe's successful research, business and technology clusters is based at WISTA in Berlin-Adlershof, with more than 1,000 affiliated firms, university departments and scientific institutions.

In addition to the libraries that are affiliated with the various universities, the Staatsbibliothek zu Berlin is a major research library. Its two main locations are on Potsdamer Straße and on Unter den Linden. There are also 86 public libraries in the city. ResearchGate, a global social networking site for scientists, is based in Berlin.
