EuroSciCon

25th International Conference on Dental Treatment

September 10-11, 2018

Hilton Zurich Airport, Switzerland

AGENDA

Biography

EuroSciCon

Title: Oral health care of patients with Alzheimer's disease.

Ronald L. Ettinger
Past president of the American Society for Geriatric Dentistry (ASGD), USA

Dr. Ettinger has been a past president of the American Society for Geriatric Dentistry (1985-87), a member of both the American and International Associations for Dental Research (AADR and IADR), past president of the AADR's Prosthodontics Research Group, past president of the IADR Geriatric Oral Research Group, and editor-in-chief of Special Care in Dentistry. In 2001, he received the IADR Distinguished Scientist Award in Geriatric Dentistry and in 2010. Dr. Ettinger received the IADR Prosthodontics and Implant Dentistry Award.

Title: Diagnosis, Nonsurgical and Surgical Treatment of Obstructive Sleep Apnea

James D. Bates
Founder of Texas Oral and Maxillofacial Surgery, USA

James D. Bates, D.D.S., M.D., is an American board-certified oral and maxillofacial surgeon in active private practice in Dallas, Texas. Originally from Lubbock, Texas, he attended Texas Tech University as an undergraduate. He graduated with many honors from The University of Texas Dental Branch at Houston with a D.D.S. degree, and from Texas Tech University School of Medicine with an M.D. degree. In addition, he completed an internship in general surgery at Baylor University Medical Center, and completed an accredited residency in oral and maxillofacial surgery at The University of Texas Health Science Center in Houston. As a part-time faculty member at Texas A&M Baylor College of Dentistry in the Department of Oral and Maxillofacial Surgery, he taught physical examination and internal medicine to graduate students in all specialties as a Clinical Associate Professor for 18 years. As the founder of Texas Oral and Maxillofacial Surgery, his practice is proud to have maintained 12 years of continuous accreditation as an Office-Based Surgery Practice. His practice focuses on providing full-scope oral and maxillofacial surgery services including Orthognathic and TMJ surgery.

Title: Synthetic graft materials in Implant dentistry

Michael (Harrison) Ainsworth
University of Central Lancshire, UK

Dr. Ainsworth was awarded his Dental Degree from the University of Birmingham, UK in 2002. He is currently completing his M.sc in Periodontology from the University of Central Lancashire. He completed a year course on Harley Street and has been placing and restoring Implants since 2003. In 2007 He moved to Spain as Principal of a practice for 5 years during this time he was mentored by Peter Fairbairn who introduced him to Alloplastic materials. On returning to the UK he worked in various clinics placing dental implants before becoming principal of the Dental referral centre in Dronfield UK. He has spoken at many events nationally about this subject including ADI meetings.

Title: Volumetric analysis of sexual dimorphism in anterior teeth

Seyedeh Mandan Kazzazi
University of Edinburgh, UK

Seyedeh Mandan Kazzazi is currently a PhD candidate in Bioarchaeology at the University of Edinburgh. She is particularly interested in virtual anthropology, dental anthropology, dental pathology, and metric and non-metric dental variations in human populations.

Title: The Missing Dimension: The Art of Patient Conversation

Angela Mulrooney
Director of My Business Doctor Inc.
Canada

Dr. Angela Mulrooney took a run-down practice in the hood, at 28 years old, and turned it into a cutting edge practice, referred to by other dentists for full-mouth reconstruction, I.V. sedation, and sleep apnea therapy. Unfortunately, she sustained a career ending injury in 2013. Not wanting her experience to die with her, she now helps dentists everywhere succeed by passing on her blueprint to success, helping colleagues realize their full potential clinically and financially. Let her love of dentistry, business, and life inspire you to bring your best game to your career and patient care.

Title: New Approaches in Management of Endodontic Pain – Making Sense of the Evidence

Pavel Cherkas
University of Toronto, Canada

Dr. Pavel Cherkas graduated from the Faculty of Dentistry at the Hebrew University of Jerusalem (Israel) and also successfully defended his M. Med. Sc. and PhD theses in Neuroscience at the same university. He also graduated from a M.Sc. Endodontics program at the University of Toronto. He has conducted pain research at several Universities worldwide such as Cambridge (UK), Leipzig (Germany) and Tokyo (Japan). He has served as a Resident Member on the Regenerative Endodontics Committee of the American Association of Endodontists. Currently Dr. Cherkas is an assistant professor at the University of Toronto and an active member of Dr. Sessle's laboratory where he continues to conduct research on the central mechanisms of orofacial pain. He is also involved in clinical research, has lectured nationally and internationally and has published extensively in peer-reviewed journals and textbook chapters.

- **Title: Exploring the potential of a modified Nano-Dental Eggshell-Titanium Dioxide Material against erosive acids**

Stanley C. Onwubu
Durban University of Technology
South Africa

Stanley C. Onwubu graduated from his Masters at the Durban University of Technology cum laude in 2016. He is currently in his third year studying towards his PhD at Durban University of Technology. He has published articles and book chapters in reputed journals. Stanley strongly has passion in the development of new dental materials from recycled materials. He has previously worked on a new abrasive materials using waste eggshells for polishing Poly methyl methacrylate resin dentures. His current doctoral research focus on remineralization of damaged teeth using Nano-sized titanium dioxide modified eggshell powder with a view of developing a mathematical model to predict dentine remineralization.

Title: *Hibiscus Sabdariffa* Natural Fibres as an alternate Material in Reinforcing Acrylic Denture Bases.

Anisa Vahed
South African Dental Technicians Council
South Africa

Dr. Anisa Vahed obtained her doctorate in 2014. She is a HELTASA TAU Fellow, awardee of the Vice Chancellor's Distinguished Teaching Award, DENTASA Educator of the Year Award and the HELTASA/CHE Award in Teaching Excellence. Dr. Vahed is a senior lecturer/dental technologist in the Department of Dental Sciences, Faculty of Health Sciences at the Durban University of Technology. Her research interests include the teaching and supervision of both undergraduate and postgraduate research, metallographic structure of newly developed dental materials, and the teaching and learning through discipline-specific games to enable students' access to, and acquisition of, knowledge. She has delivered numerous papers, workshops and seminars on these interests in a range of national and international settings. Dr. Vahed serves on the South African Dental Technicians Council, which is a Ministerial appointment.

Title: *Hibiscus Sabdariffa* Natural Fibres as an alternate Material in Reinforcing Acrylic Denture Bases.

Shalini Singh
Chair-Southern African Society
South Africa

Dr. Singh is an Associate Professor in the Department of Operations and Quality Management at the Durban University of Technology. Her qualifications are in Chemistry and Quality. She has also lectured at Universities in Switzerland, Germany and India. Shalini also serves as a moderator, examiner and supervisor at DUT and in a number of universities in South Africa and was a member of the Higher Education Quality Forum for Quality. She chaired the regional branch for the Southern African Society for Quality. Prof Singh has published posters and publications in International conferences, has several publications in accredited academic journals, and presented in Air pollution, Quality, Nanotechnology and Research Methodology related conferences *nationally and internationally. She co-authored many chapters of* books in Nanotechnology, Research Supervision and Work-Integrated Learning. Shalini hosts a research group focussing on quality practices in Nano-engineering material (NEM) and food security.
