Title: VALIDATION OF LIVE ROBOTIC TELEPATHOLOGY FOR INTRAOPERATIVE NEUROPATHOLOGY.

Aisha Sethi

University of New Mexico, New Mexico

Dr. Aisha Sethi has completed her residency training from University of New Mexico Albuquerque,New Mexico,USA and further completed her fellowship training at The Ohio State University,Columbus,Ohio. Further,she has worked at The Ohio State University, a premier institution in digital pathology and informatics applications where she worked on the applications of digital pathology. She has published 4 paper publications,9 published abstracts and 10 poster presentations at several world renowned Pathology Meetings. Currently,she is employed at The University of New Mexico,Albuquerque,New Mexico,USA where she is actively involved in the digital pathology and deep learning initiative in the department and in clinical work,teaching residents and medical students.

Title: Veterinary Telepathology: Brazil – China cooperation

Felipe A. Ruiz Sueiro

VETPAT, Brazil

The VETPAT there for 15 years, always working in the field of veterinary diagnostics.
We are recognized nationally in oncological diagnostics area, with exams of cytology, histopathology, molecular biology, immunohistochemistry.
Whole team has residency in clinical pathology area or pathology, some with master's or PhD and extensive experience in diagnosis.
Today perform over 1500 histopathology exams / month; over 100 Immunohistochemistry cases / month and over 700 cytologies / month.
We serve all over Brazil, receiving samples through carriers or own collection system

Title: Validation study on lymphoma diagnosis using WSI

Tomoo ITOH

Kobe University Hospital, Japan

Tomoo Itoh has completed his PhD at Hokkaido University Graduate School of Medicine and presently he is a Professor and Deputy Director of Diagnostic Pathology at Kobe University Hospital, Japan. He is a Board Certified Member of the Japanese Society of Pathology and Board Certified Member of the Japanese Society of Clinical Cytology. He was President of 15th Annual Meeting of Japanese Society of Digital Pathology held in Kobe in 2016, and now one of the core members of the Society.

Title: International WSI telepathology full double-check system between Japan and Vietnam

Ichiro Mori

International University of Health and Welfare, Japan

Ichiro Mori has completed his PhD at the age of 28 from Gunma University, and postdoctoral studies from Tokai University School of Medicine. He is professor of pathology, School of Medicine, International University of Health and Welfare. He has published more than 25 papers in reputed journals.

Title: Image recognition techniques on digital images of colon and stomach biopsies

Pascale De Paepe

AZ Sint-Jan Brugge, Brugge, Europe

Pascale De Paepe, obtained her degree of MD at the KULeuven, and became certified anatomical
pathologist at the UZ Gent where she also obtained her PhD degree. She published 27 papers in
peer reviewed journals.
She is staff member of the department of Pathological Anatomy, at AZ Sint Jans Brugge. In 2015
this Pathology departement was equipped with an installation allowing full digital histopathology
diagnosis. The AZ Sint Jan's project "Digital pathology-The end of the microscope" won the
Agoria E-Health award in 2017 for "Best Innovation Project(Patient Care), Patient Response or

Title:Papillary thyroid cancer pathology-the modern challenge for multiprofile research team

Konstantin Maksin

University of Information Technology and Management, Poland

Dr. Konstantin Maksin obtained his PhD from the Poznań University of Medical Sciences (PUMS),
Poland, in 2017 for the dissertation entitled: Impact of Biological Age of Cells on the Development
of Papillary Thyroid Cancer under the supervision of Prof. Aldona Woźniak. The research method
he proposed can be highly significant for cancer prognosis. He worked at the PUMS Department of
Clinical Pathology. He has published in a number of journals, including: Cancer Letters , Oncotarget , Cell Death Disease , Free Radical Biological Medicine , or Clinical and Experimental
Metastasis .

Title: Role of Robotic Telepathology for Frozen-Section Diagnosis

Anshoo Agarwal

Northern Border University, Saudi Arabia

Currently working as Professor & Incharge of Pathology department (female campus), Northern Border University, Kingdom of Saudi Arabia. She received her degree from King George's Medical College. She had been Discipline Coordinator (Patholgy Deptt) in University Technology MARA,Malaysia. She is a member of many associations like Indian Association of Pathology and Microbiology, International Academy Pathology, Indian Society of Hematology & Transfusion Medicine,Emirates Medical Association Pathology Society, International Economics Development Research Center etc. Dr. Anshoo Agarwal has more than 100 publications. She is editorial member of 3 journals and is reviwer in many journals. She had organized many national and international CME's, Workshops and Conferences

Title: Artificial Intelligence and Computational Pathology

Anshoo Agarwal

Northern Border University, Saudi Arabia

Title: Association of some carbohydrates with estrogen expression in breast lesions.

Abubaker Mansur Hamad

Prince Sattam Bin Abdulaziz University,
Saudi Arabia

Abubaker M Hamad has completed his MSc from Sudan University of Science and Techynology. He is Medical Laboratory Specialist at department of Medical Laboratory Sciences at College of Applied Medical Sciences, Prince Sattam Bin Abdulaziz University, Saudi Arabia. He has published 7 papers so far and has been serving as an editorial board member of CRESSCO International Journal of Pathology (CIJPAT).

Title: RBP7 promotes malignant progression and correlates with poor prognosis

Manal Elmasry

Ludwig-Maximilians-University,
München, Germany.

Manal Elmasry is a PhD student in pathological institute, Ludwig Maximilian University of Munich, Germany. She is an assistant lecturer of pathology in Pathology Department, Faculty of Medicine, Mansoura University, Egypt. She has a scholarship from German Academic Exchange service(DAAD) to get a doctoral degree in Pathology from Germany.

Title: Use of X -ray Computed Tomography to study the fat in the gilthead seabream

Diana Ceballos

University of Murcia,
Spain

Diana Ceballos is graduate in veterinary medicine. She is actually a predoctoral student (3th) in
Molecular Biology and Biotechnology from University of Murcia (UMU). His research area focuses on the study of the immune system of teleost fish, mainly farm fish. In this field she has
published and colaborated in some papers in reputed journals of aquaculture and immunology.

Title: The Evaluation Of Smart Phone Use For Digitalized Static Pathology Education By UG-Stu

Amin Khalid

Northern Border University,
Saudi Arabia

Amin Khalid is a second year MBBS student of Faculty of Medicine, Northern Border University- Arar - Kingdom of Saudi Arabia. He has presented his research papers in various conferences.

Sinisa Vidovic
University of Minnesota,USA

Biography:

Sinisa Vidovic completed his Ph.D. program in 2008 at the University of Saskatchewan, Canada and postdoctoral trainings at the Medical College, University of Ottawa and the Vaccine Infectious Diseases Organization, University of Saskatchewan. Presently, he works as an Assistant Professor at the Department of Veterinary and Biomedical Sciences, University of Minnesota, USA. He has published over 20 peer-revived articles.

Title: Protective effect of quorum quenching monoclonal antibodies in lethal Pseudomonas infection

Soumya Palliyil
University of Aberdeen,UK

Biography:

Dr Palliyil is the Principal Scientist and Facility Manager of the Scottish Biologics Facility (SBF), a biologic drug discovery unit which provides antibody and peptide hit generation services to academia and industry. Dr Palliyil completed her PhD within Prof Andy Porter's Antibody engineering group, University of Aberdeen and Wyeth/Pfizer Inc Protein therapeutics Lab, Aberdeen. Dr Palliyil is a recipient of the prestigious Commonwealth Scholarship and has also completed the Royal Society of Edinburgh Commercialisation Fellowship.

Title: Effects of pentacyclic triterpenoid compound on biofilm formation ability and virulence of Stenotrophomonas maltophilia

Yong-Bin Eom
Soonchunhyang University, Republic of Korea

Biography:

Yong-Bin Eom has completed his PhD at the age of 32 years from Yonsei University, Republic of Korea. He was a Reschr. Asan Inst. Life Scis., 1997-98; Forensic DNA analyst. Nat. Forensic Svc., 1998-2009; Prof. Korea Nazarene University, 2009-13; Now he is the Prof. of Dept. of Biomedical Laboratory Science, College of Medical Sciences, Soonchunhyang University. He has published more than 30 papers in reputed journals and has been serving as an ISO/TC198 and ISO/TC212 bd. mem. Korean CDC., editorial board member of Biomed. Sci. Lett. and Korean J. Clin. Lab. Sci.
