

EuroSciCon

4th Edition of International Conference on

Electrochemistry

October 01-02, 2018
London, UK

Theme:
Exploring Novel Advancements and its Application of Chemistry with Electrical Devices.

EuroSciCon

Electrochemistry

2018

Invitation

Welcome to London, the city of arts and science, and experience the science of Electrochemistry illuminated as never before. EuroSciCon is proud to host the 4th Edition of International Conference on Electrochemistry, October 1-2, 2018. Theme of the conference focuses on Exploring Novel Advancements and its Application of Chemistry with Electrical Devices. Electrochemistry 2018 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. We invite directors, presidents & CEO's from companies, chemists, academic groups, directors from pharmaceutical companies. Laboratory scientists who identifies, quantifies, analyzes or tests the chemical or biological properties of compounds or molecules or who manages these laboratory scientists, chemical researcher, chemists, but to biochemists, biologists, electro chemical engineers, material scientists and photoelectric scientists, editorial board members, students, faculty members. chemical instrument vendors, professors and students from academia in the field of Electrochemistry. Delegates from various bioelectrochemistry ,industrial electrochemistry companies from all over the world. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Electrochemistry Conference is the perfect venue not only to dive into your particular chemist's interests but also to expand the scope of your knowledge. 20 tracks are devoted to subjects such as Advanced Electrochemistry, Interfacial Electrochemistry, Electric and magnetic field effects, Technologies of Electrochemistry energy, Electrochemistry in Molecular and Microscopic Dimensions, Batteries and Energy Storage Technologies, Electrochemical Engineering, Bioelectrochemistry, Electrochemistry Treatment Effluents ,Sensors, Corrosion and Surface treatments ,Semiconductor Electrochemistry ,Physical and Molecular Electrochemistry ,PhotoElectrochemistry, Electron Transfer And Single Molecular Event, Biomembrane Electrochemistry, Ecological Electrochemistry, Industrial Electrochemistry, Metallurgical Electrochemistry, Applications Of Electrochemistry. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Electrochemistry forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges

October 01-02, 2018
London, UK

EuroSciCon

Electrochemistry

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ agronomists, plant physiologists, molecular biologists, Agriculture engineers, chemical engineers, material scientists and food scientists accessing the website, Food Chemistry 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our speakers and committee members fuelling better outreach of the work and profile.

Electrochemistry 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

October 01-02, 2018
London, UK

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Electrochemistry

2018

Who'd be attending?

4th Edition of International Conference on Electrochemistry, October 1-2, 2018, London, UK. Theme of the conference focuses on Exploring Novel Advancements and its Application of Chemistry with Electrical Devices will provide an unprecedented opportunity for faculties & researchers to share their research with colleagues by discussing the latest advances in the field. We invite Eminent Scientists/ Research Professors in the field of Electrochemistry, Junior/ Senior research fellows, Students, Directors of Medical association, anesthesiologist, Members of Medical associations and exhibitors from medical colleges/ Industries. Delegates from various pharma & instrumental companies from all over the world are welcomed to attend the prestigious conference on Electrochemistry. About hosting organization EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of life science communication it focuses on to spearheading the transformation of medical research into knowledge through scientific gatherings and networking. Supporting the Rare Care UK Organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards scientific serendipity.

Tracks :

- Advanced Electrochemistry
- Interfacial Electrochemistry
- Electric And Magnetic Field Effects
- Technologies Of Electrochemical Energy Conversion
- Electrochemistry In Molecular And Microscopic Dimensions
- Batteries And Energy Storage Technology
- Electrochemical Engineering
- Bioelectrochemistry
- Electrochemical Treatment Effluents
- Sensors
- Corrosion And Surface Treatment
- Semiconductor Electrochemistry
- Physical And Molecular Electrochemistry
- Photoelectrochemistry
- Electron Transfer And Single Molecular Event
- Biomembrane Electrochemistry
- Ecological Electrochemistry
- Industrial Electrochemistry
- Metallurgical Electrochemistry:
- Applications Of Electrochemistry

EuroSciCon

Academic Keytopics :

- Batteries
- Conductance
- Conductivity of Electrolytes
- Corrosion
- Electric current
- Electro-analysis
- Electrochemical cells
- Electrochemistry Fundamentals
- Electrode potential
- Electrolytes
- Electrolytic Dissociation
- Electrolytic solution
- Electromotive Forces
- Elements
- Equillibrium constant
- Fuel Cells
- Galvanic Cell
- Gibbs energy
- Hydrogen Economy
- Hydrogen electrode
- Ionic solution
- Kohlrausch law
- Molar conductivity
- Nernst equation
- Older chemical views
- Oxidation Elements

October 01-02, 2018
London, UK

Business Keytopics :

- Conductivity Meters
- Dissolved Oxygen Laboratory Bench Meters
- Electrochemistry Market in Germany
- Electrochemistry Market in Australia
- Electrochemical
- Electrochemical Nanofabrication
- Electrochemistry Market in Asia-Pacific
- Electrochemistry Market in China
- Electrochemistry Market in Europe
- Electrochemistry Market in India
- Electrochemistry Market in Japan
- Electrochemistry Market in Latin America
- Electrochemistry Market in Middle East& Africa
- Electrochemistry Market in North America
- Electrochemistry Market in Switzerland
- Electrodes
- Flow and lever Samplers
- Gas Sensor
- GC Detectors & Sample
- Intelligent digital sensors
- Load Gauges
- Online Analyzer
- PH Bench Top Meters
- Polarimetry Refractometry
- Portable and field meters
- Potentiometric Sensors
- Spectrophotometry& photometry
- Titration Equipment
- Total organic carbon Analyzer

About Destination London

London, the capital of England and the United Kingdom, is a 21st-century city with history stretching back to Roman times. At its centre stand the imposing Houses of Parliament, the iconic 'Big Ben' clock tower and Westminster Abbey, site of British monarch coronations. Across the Thames River, the London Eye observation wheel provides panoramic views of the South Bank cultural complex, and the entire city. London is a leading global city in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. It is the world's largest financial centre and has the fifth- or sixth-largest metropolitan area GDP in the world. London is often regarded as a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport system measured by passenger traffic. It is the world's leading investment destination,hosting more international retailers and ultra-high-net-worth individuals than any other city. London's universities form the largest concentration of higher education institutes in Europe. In 2012, London became the first city to have hosted the modern Summer Olympic Games three times. London contains four World Heritage Sites: The Tower of London; Kew Gardens; the site comprising the Palace of Westminster, Westminster Abbey, and St Margaret's Church; and the historic settlement of Greenwich. Other landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, including the British Museum, National Gallery, Natural History Museum, Tate Modern, British Library and West End theatres.] The London Underground is the oldest underground railway network in the world.
