Schedule your trip to Madrid : Destination of Endocrinology 2018

Madrid is the capital of Spain, and is home to the Spanish Royal family as well as the Spanish Government. It is a modern metropolitan city and an economical and industrial centre of Spain, and, with its population of nearly 3, 5 million people, is also the biggest city in Spain. It is located in the centre of the Iberian Peninsula, and is surrounded by mountains and natural parks. Although it is located in the centre of the country, it has traditionally been the hub between different areas of Spain and is therefore connected to all major Spanish cities by train, road or air. Madrid has a lot of interesting attractions that offer both culture and amusement.

The city is full of great monuments, like the royal palace, the Plaza Mayor or the many statuettes, and for people interested in art, the museums Del Prado, Reina Sofia or Thyssen have some of the most fantastic collections of famous Spanish painters like Velazquez, Goya, Picasso or Miro.While Madrid possesses modern infrastructure, it has preserved the look and feel of many of its historic neighbourhoods and streets.
