

EuroSciCon

9th Edition of International Conference on

Environmental Science and Technology

June 24-25, 2019
Moscow, Russia

Theme:
"Let's join hands & go green for Mother Nature"

EuroSciCon

Environmental Science and Technology

2019

Invitation

Dear Participants,

After the successful completion of 4th International Conference on Environmental Science & Technology meet held on March 29-31, 2018 Vienna, Austria, we are glad to announce the "**9th International Conference on Environmental Science & Technology" organized by EuroSciCon, is going to held during June 24-25, 2019** at the, quieter city,that discover plenty of seasonal events, and enjoy a warm and friendly atmosphere and the city having a glorious history known as "Moscow, Russia". Moscow is well known for its architecture, particularly its historic buildings such as Saint Basil's Cathedral with its brightly coloured domes. The city's financial and research-and-development sectors (as well as what remains of its engineering and manufacturing sectors) are among the country's most advanced. Women make up more than half the workforce. They constitute the vast majority of workers in the textile and food-processing industries, and they predominate in the teaching and medical professions.

The Environmental Science & Technology 2019 conference provides the opportunities for all the researchers, scientists in an incomparable international platform for all the stake holders of the System like Academicians, Industrialists, Researchers, Scientists, Young Researchers, Students, Innovators, Regulators presenting together and discussing on the current trends in Environmental Science & Technology Restoration Ecology, Earth Science and Climate Change, Renewable energy, Agricultural Production Systems & Agribusiness, Environmental Chemistry, Environmental Legislation and many more. This meet will be a representational path in your professional research. Attend this Environmental Science & Technology 2019 Conference to network with your peers, exchanging your ideas, researches, expertise's, experiences, developments in the field of Environmental Science & Technology reaching yourself to the next level.

we are looking forward to your presence at the Moscow.

EuroSciCon

Environmental Science and Technology

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

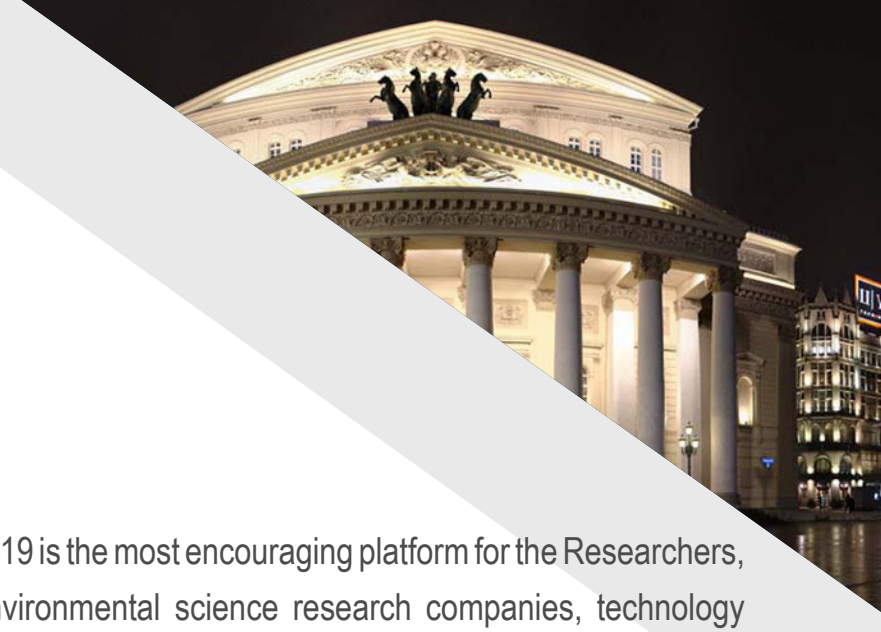

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

Environmental Science and Technology, 2019 is the most encouraging platform for the Researchers, Academicians, Industry professionals, environmental science research companies, technology experts in this emerging field of science and technology. Besides having networking with peers, eminence of the research and the researcher is what we entrust to our Speakers and Committee Members for best outreach of work and profile.

Euro Environmental Science and Technology 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

June 24-25, 2019

Moscow, Russia

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Environmental Science and Technology

2019

Who'd be attending?

Directors, Managers & Business Delegates, Founders, Universities, Industries, Investigators, Environmentalists, Post-Doctoral Fellows, Clinical Fellows, Research Scholars, Students, Technology Experts, Environmental Research companies, Vendors will have the opportunity to introduce the latest advancements in Environmental science to a diverse audience by becoming a conference sponsor *via* exhibits or workshops.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Earth Science and Climate Change
- Restoration Ecology
- Agricultural Production Systems & Agribusiness
- Soil Fertility & Nutrient Management
- Bio-Assessment and Toxicology
- Environmental chemistry
- Environmental Engineering
- Environmental Assessment and Planning
- Environmental Biostatistics
- Renewable Energy
- Environmental Legislation
- Environment Technology and Innovation
- Advancements in Environmental Science and Technology

Moscow, Russia

EuroSciCon

About Destination Moscow

Moscow is situated on the banks of the Moskva River and it is the Central Federal District of European Russia and it is the nation's cosmopolitan capital with 12.5 million residents within the city limits and 17.1 million within the urban area. And it is the one of Russia's three federal cities. And moscow is well known for its architecture, particularly its historic buildings such as Saint Basil's Cathedral with its brightly coloured domes. The city's financial and research-and-development sectors (as well as what remains of its engineering and manufacturing sectors) are among the country's most advanced. Women make up more than half the workforce. They compose the vast majority of workers in the textile and food-processing industries, and they leading in the teaching and medical professions.

As a world-renowned capital, Moscow has become a popular tourist destination. Free-market reforms have encouraged the construction of new hotels and the modernization of existing hotels in the city. The government also opened new tourist offices and renovate many cultural centres, places of worship, and shopping districts.

And the city is served by a large amount of transport network, which includes four international airports nine railway terminals, numerous trams a monorail system and one of the deepest underground rapid transit systems in the world, the Moscow Metro, the fourth-largest in the world and largest outside Asia in terms of passenger numbers, and the busiest in Europe.

Moscow is a lively city, full of things to see and places to visit, from the Kremlin to lots of spots for shopping and sightseeing ,some of the famous places Bolshoi Theatre, St. Basil's (Pokrovsky) Cathedral, Moscow Metro, Kuskovo Estate, Historical Museum (SHM), Central House of Artist (CHA) etc.

EuroSciCon

Past Conference Report

Environmental Science & Technology 2018 witnessed an amalgamation of peerless speakers who enlightened the crowd with their knowledge and confabulated on various topics related to the field of Environmental Science and Earth science and climate change, covering all the possible research areas.

. The highly exalted conference hosted by EuroSciCon was marked with the attendance of renowned and brilliant researchers, business delegates and talented student communities representing more than 20 countries around the world. The conference has tried grounding every aspect related to Environmental Science and Earth science and climate change, covering all the possible research areas.

The conference aimed a parallel rail with theme “Join the race to make the world a greener place”. The meeting engrossed a vicinity of cognizant discussions on novel subjects Restoration Ecology, Earth Science and Climate Change, Renewable energy, Agricultural Production Systems & Agribusiness, Environmental Chemistry, Environmental Legislation and many more. The three days event implanted a firm relation of upcoming strategies in the field of Environmental Science & Technology with the scientific community. The conceptual
