

EuroSciCon

9th Edition of International Conference on

Environmental Science and Technology

June 24-25, 2019

Copenhagen, Denmark

Theme:

"Let's join hands & go green for Mother Nature"

EuroSciCon

Environmental Science and Technology

2019

Invitation

Dear Participants,

After the successful completion of 4th International Conference on Environmental Science & Technology meet held on March 29-31, 2018 Vienna, Austria we are glad to announce the "**9th International Conference on Environmental Science & Technology" organized by EuroSciCon, is going to held during June 24-25, 2019** at the, quieter city,that discover plenty of seasonal events, and enjoy a warm and friendly atmosphere and the city having a glorious history known as "Copenhagen, Denmark". Copenhagen ranks top among European cities in quality of life. It is also considered one of the world's most environmentally-friendly cities. The water in the inner harbour is clean enough to swim in and 36% of all citizens commute to work by bicycle. With its rich history full of historical buildings and ancient streets, outstanding museums and galleries, the uniquely enchanting Tivoli Gardens and a resident monarchy that is the oldest in the world, the Danish capital has a host of attractions to suit all and can offer our visitors a truly memorable experience.

The Environmental Science & Technology 2019 conference provides the opportunities for all the researchers, scientists in an incomparable international platform for all the stake holders of the System like Academicians, Industrialists, Researchers, Scientists, Young Researchers, Students, Innovators, Regulators presenting together and discussing on the current trends in Environmental Science & Technology Restoration Ecology, Earth Science and Climate Change, Renewable energy, Agricultural Production Systems & Agribusiness, Environmental Chemistry, Environmental Legislation and many more. This meet will be a representational path in your professional research. Attend this Environmental Science & Technology 2019 Conference to network with your peers, exchanging your ideas, researches, expertise's, experiences, developments in the field of Environmental Science & Technology reaching yourself to the next level.

we are looking forward to your presence at the Copenhagen.

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

Environmental Science and Technology, 2019 is the most encouraging platform for the Researchers, Academicians, Industry professionals, environmental science research companies, technology experts in this emerging field of science and technology. Besides having networking with peers, eminence of the research and the researcher is what we entrust to our Speakers and Committee Members for best outreach of work and profile.

Euro Environmental Science and Technology 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

June 24-25, 2019

Copenhagen, Denmark

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Environmental Science and Technology

2019

Who'd be attending?

Directors, Managers & Business Delegates, Founders, Universities, Industries, Investigators, Environmentalists, Post-Doctoral Fellows, Clinical Fellows, Research Scholars, Students, Technology Experts, Environmental Research companies, Vendors will have the opportunity to introduce the latest advancements in Environmental science to a diverse audience by becoming a conference sponsor *via* exhibits or workshops.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Earth Science and Climate Change
- Restoration Ecology
- Agricultural Production Systems & Agribusiness
- Soil Fertility & Nutrient Management
- Bio-Assessment and Toxicology
- Environmental chemistry
- Environmental Engineering
- Environmental Assessment and Planning
- Environmental Biostatistics
- Renewable Energy
- Environmental Legislation
- Environment Technology and Innovation
- Advancements in Environmental Science and Technology
- Environmental Pollution
- Social Issues And The Environment
- Bio Diversity And Its Conservation
- Environmental Geology
- Aquatic Biology And Microbiology
- Civil And Environmental Engineering
- Environmental Pollution And Agriculture

Copenhagen, Denmark

EuroSciCon

About Destination Copenhagen

Copenhagen is the capital and most populous city of Denmark. The city has a population of 1.3 million. Copenhagen is located on the eastern coast of the island of Zealand; another small portion of the city is located on Amager, and is separated from Malmö, Sweden, by the strait of Øresund. The Øresund Bridge connects the two cities by rail and road. The city is the cultural, economic and governmental centre of Denmark; it is one of the major financial centres of Northern Europe with the Copenhagen Stock Exchange. Copenhagen's economy has seen rapid developments in the service sector, especially through initiatives in information technology, pharmaceuticals and clean technology.

Copenhagen ranks top among European cities in quality of life. It is also considered one of the world's most environmentally-friendly cities. The water in the inner harbour is clean enough to swim in and 36% of all citizens commute to work by bicycle. With its rich history full of historical buildings and ancient streets, outstanding museums and galleries, the uniquely enchanting Tivoli Gardens and a resident monarchy that is the oldest in the world, the Danish capital has a host of attractions to suit all and can offer our visitors a truly memorable experience.

Copenhagen is in the oceanic climate zone. Its weather is subject to low-pressure systems from the Atlantic which result in changes in their conditions throughout the year. Apart from higher rainfall from July to September, precipitation is normal .While snowfall occurs mainly from late December to early March, there can also be rain, with average temperatures around the freezing point.

Copenhagen is a lively city , with a full of places to visit, some of the famous places like Tivoli Gardens, The Little Mermaid, Nyhavn, Kronborg Castle, Christiansborg Palace, Strøget, Bakken, National Aquarium Denmark, Den Blå Planet, Botanical Garden.

Past Conference Report

Environmental Science & Technology 2018 witnessed an amalgamation of peerless speakers who enlightened the crowd with their knowledge and confabulated on various topics related to the field of Environmental Science and Earth science and climate change, covering all the possible research areas.

The highly exalted conference hosted by EuroSciCon was marked with the attendance of renowned and brilliant researchers, business delegates and talented student communities representing more than 20 countries around the world. The conference has tried grounding every aspect related to Environmental Science and Earth science and climate change, covering all the possible research areas.

The conference aimed a parallel rail with theme “Join the race to make the world a greener place”. The meeting engrossed a vicinity of cognizant discussions on novel subjects Restoration Ecology, Earth Science and Climate Change, Renewable energy, Agricultural Production Systems & Agribusiness, Environmental Chemistry, Environmental Legislation and many more. The three days event implanted a firm relation of upcoming strategies in the field of Environmental Science & Technology with the scientific community.
