

EuroSciCon

5th International Conference on

Condensed Matter and Materials Physics

September 02-03, 2019
Berlin, Germany

Theme:

Explore, Exchange & Experience the Unique Realm of Condensed Matter Physics

EuroSciCon

Euro Condensed Matter

2019

Invitation

EuroSciCon invites all the global participants to 5th International Conference on Condensed Matter and Materials Physics during September 02-03, 2019 in Berlin, Germany, which includes prompt keynote presentations, Oral talks, Poster presentations and Exhibitions.

Euro Condensed Matter 2019 provides a perfect symposium for scientists, engineers, directors of companies and students in the field of Materials science, Physics, Chemistry and Structural Bio-Physics to meet and share their knowledge. The theme of the conference is “Explore, Exchange & Experience the Unique Realm of Condensed Matter Physics”. The scientific program paves a way to gather visionaries through the research talks and presentations and put forward many thought provoking strategies. It provides a premier technical forum for reporting and learning about the latest research and development, as well as for launching new applications and technologies. Condensed Matter and Materials Physics is a premier forum to showcase the latest results in the science and technology of materials, with an emphasis on the combination of advance researches as well fundamental physical and chemical concepts to applied research focusing on the next generation material science devices.

Maximize your personal involvement, engagement by getting together on September 02-03, 2019 with interactive discussions and workshops at the conference, you will feel free to reach out and share your thoughts to continue your lifelong learning and build on the skills that make you successful.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

September 02-03, 2019
Berlin, Germany

EuroSciCon

Euro Condensed Matter

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

With over 25000 analytical chemists accessing the website, Euro Condensed Matter 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Euro Condensed Matter 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

September 02-03, 2019
Berlin, Germany

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Euro Condensed Matter

2019

Who'd be attending?

5th International Conference on Condensed Matter and Materials Physics Euro Condensed Matter 2019 plays host for the Multinational organizations, Entrepreneurs, Scientists and Academicians across the globe. Prominently Material Science Professors & Students, Regulatory Professionals, Professionals & Experts of material science, smart materials, bio material, ceramics and composites, Nuclear energy, fuel cells, green materials, Researchers, Industrialists, PhD students, business owners. Relevant Post-graduates, Graduates, Technicians, Students.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society, Institute of Biomedical Science (IBMS) and British Society. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Condensed Matter Physics
- Materials Physics
- Theoretical Materials Physics and Condensed Matter Theory
- Experimental Condensed Matter and Materials Physics
- Soft Condensed Matter Physics
- Solid State Physics
- Magnetism And Magnetic Materials
- Semiconductor Materials
- Superconductivity
- Materials Science And Engineering
- Graphene And Fullerenes
- Nanomaterials And Nanotechnology
- Quantum Materials And Nuclear Materials
- Advanced Materials And Ceramics
- Bio-Physics

EuroSciCon

See your work Published

in one of our related journals

- Journals of Material Sciences & Engineering
- Journals of Nanomaterial's & Molecular Nanotechnology
- Nano Research & Applications
- Journal of Nanosciences: Current Research
- Journal of Material Sciences: Research & Reviews

September 02-03, 2019
Berlin, Germany

EuroSciCon

About Destination Berlin

Berlin is the capital and the largest city of Germany as well as one of its 16 constituent states. With a population of approximately 3.7 million, Berlin is the most populous city proper and the sixth most populous urban area in the European Union. Located in north eastern Germany on the banks of the rivers Spree and Havel, it is the centre of the Berlin-Brandenburg Metropolitan Region, which has roughly 6 million residents from more than 180 nations. Due to its location in the European Plain, Berlin is influenced by a temperate seasonal climate. Around one-third of the city's area is composed of forests, parks, gardens, rivers, canals and lakes.

Berlin is a world city of culture, politics, media and science. Its economy is based on high-tech firms and the service sector, encompassing a diverse range of creative industries, research facilities, media corporations and convention venues. Berlin serves as a continental hub for air and rail traffic and has a highly complex public transportation network. The metropolis is a popular tourist destination. Significant industries also include IT, pharmaceuticals, biomedical engineering, clean tech, biotechnology, construction and electronics.

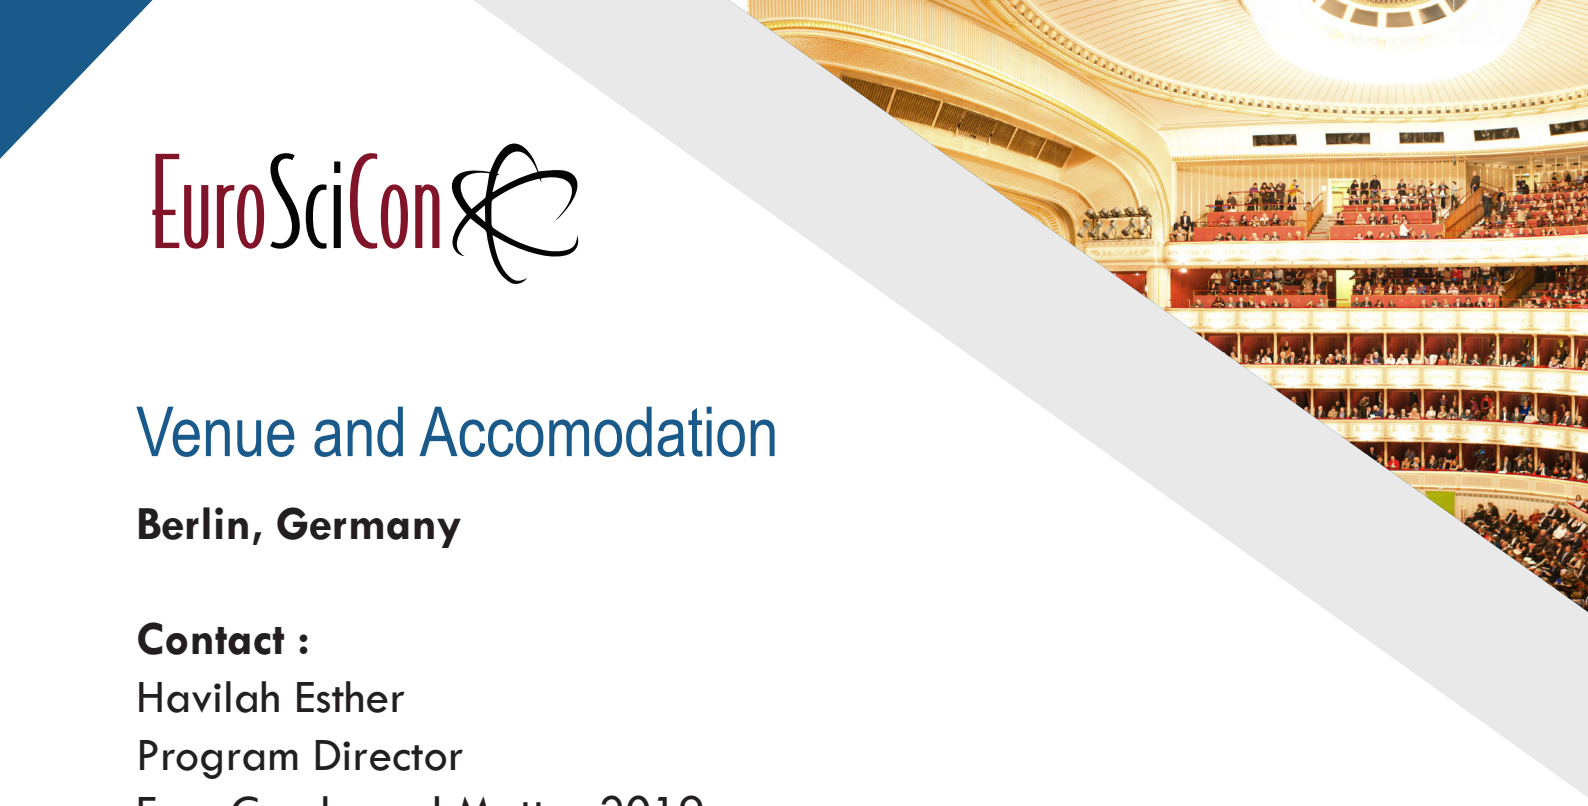

Modern Berlin is home to world renowned universities, orchestras, museums, entertainment venues and is host to many sporting events. Its urban setting has made it a sought-after location for international film productions. The city is well known for its festivals, diverse architecture, nightlife, contemporary arts and a high quality of living. Since the 2000s Berlin has seen the emergence of a cosmopolitan entrepreneurial scene.

Many German and international companies have business or service centers in the city. For several years Berlin has been recognized as a major center of business founders. In 2015 Berlin generated the most venture capital for young startup companies in Europe. The two largest banks headquartered in the capital are Investitions bank Berlin and Landesbank Berlin. Daimler manufactures cars, and BMW builds motorcycles in Berlin. Bayer Health Care and Berlin Chemie are major pharmaceutical companies in the city. The second largest German airline Air Berlin is based there as well.

Berlin recorded 28.7 million overnight hotel stays and 11.9 million hotel guests in 2014. Tourism figures have more than doubled within the last ten years and Berlin has become the third most-visited city destination in Europe. The largest visitor groups are from Germany, the United Kingdom, the Netherlands, Italy, Spain and the United States. According to figures from the International Congress and Convention Association in 2015 Berlin became the leading organizer of conferences in the world hosting 195 international meetings. Some of these congress events take place on venues such as CityCube Berlin or the Berlin Congress Center (bcc).
