Invitation

Welcome to Paris, the City of Light and explore the science of Ophthalmology illuminated as never before. EuroSciCon is proud to host the European Conference on Ophthalmology, August 16-17, 2018 in Paris, France. This year's theme is Promulgating latest Innovations & Applications in the field of Ophthalmology will provide an unprecedented opportunity for ophthalmologist of all stripes and colors to share their research with colleagues, and discuss and debate the latest advancement in the field. We invite ophthalmologist, neurologist, pharmacologists, optometrist, orthoptist and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Euro Ophthalmology Conference is the perfect venue not only to dive into your particular Ophthalmological interests but also to expand the scope of your knowledge. 15 tracks are devoted to subjects such as Cataract: vision problem, Latest eye research, Retina and Retinal Disorders, Clinical ophthalmology, Pediatric Ophthalmology, Ophthalmology Practice, Ophthalmology Surgery, Optometry and Vision Science, Cornea and corneal disease, Neuro-Ophthalmology, Glaucoma :Visual field loss, Ophthalmic Research and Drug delivery, Ophthalmologist Training and career Ophthalmic Nurses and practitioners, Eye research insights. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Ophthalmological forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ ophthalmologist, neurologist, pharmacologists, optometrist, and orthoptist accessing the website, Euro Ophthalmology 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Euro Ophthomology 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

2018

Who'd be attending?

European conference on Ophthalmology plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Ophthalmologist, Neurologist, Pharmacologists, Optometrist, Orthoptist, Laboratory Directors and Chemists and others who stay plunged in learning and practice of the science of Ophthalmology.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Ophthalmology, Institute of Biomedical Science (IBMS) and British Society for Ophthalmology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Latest eye research
- Retina and Retinal Disorders
- Clinical ophthalmology
- Pediatric ophthalmology
- Ophthalmology practice
- Ophthalmology surgery
- Optometry and Vision Science
- Cornea and corneal disease
- Neuro-ophthalmology
- Glaucoma : Visual field loss
- Ophthalmic research and drug delivery
- Ophthalmologist training and career
- Ophthalmologist nurses and practioners
- Eye research insights.
- Robotic surgery
- Eye transplant
- Ophthalmology Business/ Practice

About Destination Paris

As the capital city of France, Paris has endured as an important city for more than 2,000 years. Often called by nicknames like the “city of love” and “city of lights,” Paris is today one of the world’s leading centers for business, fashion, entertainment, art and culture. Just the mere mention of Paris conjures up images of the city’s world famous landmarks, museums and cathedrals.

Paris is divided by the Seine River, which drains west to the Atlantic Ocean. It is used for transportation and tourism. Many tour boats, called “bateaux mouches,” give tours of the city by circling the Ile de la Cité. Paris also has the feel of open spaces created by wide boulevards and parklands. The Champs Elysées is a 12-lane divided highway with wide sidewalks to encourage walking, window shopping, and people-watching at cafés. The Jardin du Luxembourg, the Bois de Boulogne, the Tuilerie Gardens, and the Place des Vosges (to name a few) give the tourists and residents beautiful garden spaces to relax and enjoy the magnificent views. There are many fountains and small squares in which to sit. Paris is very much a walking city. The sidewalks are always filled with strollers, as well as businessmen and tourists. The beautiful monuments give the city the air of an outdoor museum.
