About Destination Lisbon

Stockholm is the capital of Sweden and the most tremendous city in Scandinavia. The city extends crosswise over fourteen islands where Lake Mälaren streams into the Baltic Sea. Simply outside the city and along the drift is the island chain of the Stockholm archipelago. It is the only capital on the planet with a national urban stop. The territory has been settled since the Stone Age, in the sixth thousand years BC, and was established as a city in 1252 by Swedish statesman Birger Jarl. It is likewise the capital of Stockholm County. The foremost visiting places of Stockholm are Gamla Stan, Vasa Museum, Skansen, ABBA - The Museum, Fotografiska, Djurgården, Drottningholm Palace, Grona Lund and Stockholm City Hall.

Stockholm is extremely popular for its notable city hall, the world's first outside exhibition hall and the remarkable Abba gallery. Yet, there are a lot of little-well established certainties about this city that even a few local people probably won't know about – including an uncommon anecdote about Frank Zappa.
