

EuroSciCon

European Congress on

Protein & Proteomics

September 12-13, 2019 | Seoul, South Korea

Theme: Novel Trends And Advances In Protein & Proteomics

Day 1, Agenda

General Session

08:00 AM — INTRODUCTION

09:00 AM — PLENARY

10:00 AM — KEYNOTE

Networking & Refreshments

	HALL 01	HALL 02
11:00 AM	Talks On: **Proteomics in Drug Discovery**	Talks On: **Protein Expression and Analysis**
	Talks On: **Drug Toxicity**	Talks On: **Pharmacoproteomics**
	SESSION DISCUSSION	**SESSION DISCUSSION**
02:00 PM	Panel Over: **Protein Microarrays**	Panel Over: **Chromatin Proteomics**
	Workshop On: **Protein Interaction**	Workshop On: **Cell Culture**
	Lunch Break @ Restaurant	***Lunch Break @ Restaurant***
04:00 PM	Talks On: **The Cancer Proteome**	Talks On: **Proteomics for Bioinformatics**
	Lectures on: **Mass Spectrometry**	Lectures on: **Protein Expression of Cancer Genes**
06:00 PM	Session On: **Neuroproteomics**	Session On: **Proteomics and Cell Signalling**
	NETWORKING	**NETWORKING**

Day 2, Agenda

General Session

08:00 AM — INTRODUCTION

09:00 AM — PLENARY

10:00 AM — KEYNOTE

Networking & Refreshments Break @ Foyer

	HALL 01	HALL 02
11:00 AM	Talks On: **Metabolomics**	Talks On: **Transcriptome Sequencing**
	Talks On: **Identification of kinase Substrates on Protein Chips**	Talks On: **Rna Purification & Transcriptome Enrichment**
	SESSION DISCUSSION	**SESSION DISCUSSION**
02:00 PM	Panel Over: **Structural Bioinformatics**	Panel Over: **Signalling Pathways**
	Workshop On: **Next Generation Sequencing**	Workshop On: **Metabolic Fingerprinting**
	Lunch Break @ Restaurant	***Lunch Break @ Restaurant***
04:00 PM	Talks On: **Genomic, Proteomic and Metabolomic Data Integration Strategies**	Talks On: **Molecular Docking and Structure-Based Drug Design Strategies**
	Lectures on: **Sequence Alignment**	Lectures on: **Molecular Modelling**
06:00 PM	Session On: **Phylogenetic Analysis of Protein**	Session On: **Mapping Gene and Exon boundaries**
	NETWORKING	**NETWORKING**

Proteomics 2020

Plan a Trip to Seoul: Destination of Proteomics Euroscicon 2019

Seoul is the capital and biggest city in South Korea. The official name of the city is the Seoul Special Metropolitan City which is in the northwest piece of South Korea on the Han River. As of January 2017, the number of inhabitants in Seoul is 10,197,604 individuals. The rambling metropolitan zone is a lot bigger at 25.6 million people groups subsequently it is the fifth most crowded on the planet. Seoul is noted for its populace thickness, which is twice that of New York and multiple times more prominent than Rome. Seoul involves 605 square kilometers (234 square miles), with a sweep of around 15 kilometres (9 miles), generally cut up into northern and southern parts by the Han River. The city is circumscribed by eight mountains, and additionally the more dimension terrains of the Han River plain and western zones.

EXPLORE THIS EMBODIMENT TOURIST HERITAGE

Seoul, the great City for its historical landmarks, ancient markets and famous bridges is a place worth visiting once in a lifetime. Following are the famous tourist marvels of the city.
