3rd Edition of International Conference on Eye

Theme:

Enhancing the quality and credibility of the eye

EuroSciCon

EYE

2018

Invitation

Rome, Italy's capital, and the city of globally influential art, architecture and culture on display, and experience the science of Opthalmology illuminated as never before. EuroSciCon is proud to host the 3rd Edition of International Conference on Eye during June 14-15, 2018 in Rome, Italy. This year's theme is Enhancing the quality and credibility of the eye. Eye 2018 will provide an unprecedented opportunity for ophthalmologist of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite ophthalmologist, ophthometrists, oculists,, opticians ,Vision scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Eye 2018 Conference is the perfect venue not only to dive into your particular ophthalmological interests but also to expand the scope of your knowledge. 28 tracks are devoted to subjects such as the Evolution of the eye, glioma, vision rehabilitation, optometric vision therapy, ophthalmology business and practice, veterinary vision, ophthalmic instruments , herbal ophthalmology, eye care, eye surgeries, eye disorders and diseases, eye care takers and more as well as risk assessment and the regulatory arena.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant ophthalmological forum in person with your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ ophthalmologists and Optometrists accessing the website, Eye 2018is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Eye 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

June 14-15, 2018
Rome, Italy

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

2018

Who'd be attending?

3rd Edition of International Conference on Eye plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently ophthalmologist,orthoptist, optometrists, optician,optical Engineers, Vision Scientist /Therapists, Neuro ophthalmologists, Ophthalmic Medical Personnel, ocularists, oculoplasts, medicine associates and societies , Vision analysis lab member, forensic Scientists , surgeons , Hospital association with ophthalmology and organisations, bissness entrepreners and others who stay plunged in learning and practice of the science of of ophthalmology.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Segments Of The Eye
- Eye : Sight And Vision
- Eye Care Takers
- Ophthalmic Photographers And Imaging
- Eye Disorders And Eye Diseases
- Glaucoma
- Senescence And Vision wreckage
- Effects Of Other Diseases On The Eye
- Aesthetic Procedures In Ophthalmology/ Cosmetic Ophthalmology
- Eye Surgeries
- Eye Care
- Vision Therapies Or Surgery?
- Contact Lens And Its Complications
- Community Ophthalmology
- Linguistic Relativity On Colour Naming
- Ophthalmology
- Verdant Medication In Ophthalmology/Herbal Ophthalmology
- Ophthalmic Instruments
- Veterinary Vision
- Computer Vision
- Binocular Vision
- Optometric Vision Therapy
- Vision Rehabilitation
- Tear Film Biochemistry And Disease Related Changes
- Ophthalmic Research And Drug Development
- Ophthalmology Business/ Practice
- Glioma
- Evolution Of The Eye

About Destination Rome

Rome is a city and special commune in Italy. Rome is the capital of Italy and also of the homonymous province and of the region of Lazio. With 2.7 million residents in 1,285.3 km2 (496.3 sq mi), it is also the country's largest and most populated commune and fourth-most populous city in the European Union by population within city limits. The urban area of Rome extends beyond the administrative city limits with a population of around 3.8 million. Between 3.2 and 4.2 million people live in Rome metropolitan area. The city is located in the central-western portion of the Italian Peninsula, on the Tiber within Lazio (Latium). Rome is the only city in the world to contain in its interior a whole state; the enclave of Vatican City. Rome has a status of the global city. Rome was the 11th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy. The city is one of Europe's and the world's most successful city "brands", both in terms of reputation and assets.

Its historic centre is listed by UNESCO as a World Heritage Site. Monuments and museums such as the Vatican Museums and the Colosseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year. Rome hosted the 1960 Summer Olympics. Although associated today only with Latin, ancient Rome was in fact multilingual. In highest antiquity Sabine tribes shared the area of what is today Rome with Latin tribes. The Sabine language was one of the Italic group of ancient Italian languages, along with Etruscan, which would have been the main language of the last three kings who ruled the city till the founding of the Republic in 509 BC. Urganilla, or Plautia Urgulanilla, wife of Emperor Claudius, is thought to have been a speaker of Etruscan many centuries after this date, according to Suetonius' entry on Claudius. However Latin, in various evolving forms, was the main language of classical Rome, but as the city had immigrants, slaves, residents, ambassadors from many parts of the world it was also multilingual.

Colosseum. Forum. Pantheon. Pazza Navona. St Peter. Trevi Fountain. are some of the city Top choices and best tourist attraction places.
