Dr. Agarwal's Eye Hospital, India

Plan a trip to Paris, France

A perfect destination of Eye Surgery 2018

Paris is one of the world's few really legendary capitals. Far from resting on its laurels, the French capital has taken a pro-active approach to enhancing its appeal by undertaking a quality-focused and sustainable development strategy based on constant innovation. This great city is a blend of past and future. Its pleasingly symmetrical layout, the result of the work of visionary rulers and architects, dates to the 19th century, while 21st-century Paris is a laboratory of the future. Paris is a dream destination for French and international visitors alike.

As the capital city of France, Paris has endured as an important city for more than 2,000 years. Often called by nicknames like the "city of love" and "city of lights," Paris is today one of the world's leading centers for business, fashion, entertainment, art and culture. Just the mere mention of Paris conjures up images of the city's world famous landmarks, museums and cathedrals.

Paris is divided by the Seine River, which drains west to the Atlantic Ocean. It is used for transportation and tourism. Many tour boats, called "bateaux mouches," give tours of the city by circling the Ile de la Cité. Paris also has the feel of open spaces created by wide boulevards and parklands. The Champs Elysées is a 12-lane divided highway with wide sidewalks to encourage walking, window shopping, and people-watching at cafés. The Jardin du Luxembourg, the Bois de Boulogne, the Tuilerie Gardens, and the Place des Vosges (to name a few) give the tourists and residents beautiful garden spaces to relax and enjoy the magnificent views. There are many fountains and small squares in which to sit. Paris is very much a walking city. The sidewalks are always filled with strollers, as well as businessmen and tourists. The beautiful monuments give the city the air of an outdoor museum.
