EuroSciCon

World Congress on
Genetics & Genetic Engineering
August 20-21, 2018 Hyatt Place, Amsterdam, Netherlands

Poster Guidelines

EuroSciCon Conferences include poster presentations which will be later get published in the Programme. The accepted abstracts will be presented at the poster session during the conference. EuroSciCon aims in setting a platform for all the budding scientists and researchers to present their real-time work and share their views and aspects related to the theme of the conference.

Poster Sessions:

On the day your poster is scheduled, it should be put up on/before the mentioned time of the conference. All the posters will be removed by the evening of the same day.

Poster Boards:

Each poster should be approximately 1x1 M long. Poster boards will be provided by the organizers. Each poster will be provided with a poster board number. All the authors should make sure that they place their poster at the corresponding place with provided poster board number.

Poster Format:

The title banners should be clearly visible and make sure that the content of the poster should be visible from a distance of 1-2 feet. The banners should clearly indicate the title of the poster and the author's information.

Content:

Use fonts such as Arial/ Times New Roman in a reasonable font size that should be easy to read. The spacing between the lines should also be taken into consideration. A very simple format should be used representing all the details about the research carried by the author. Long narrated paragraphs should be avoided. Short phrases and bulleted points should be used in the poster to present the main highlight of the work done.

The posters should be organized to include the following elements:

Overview: A summary of the purpose, methods, and results should be mentioned on either of the upper sections of the board.

Introduction: An idea about the objective and background of the work should be mentioned.

Methods: Simple description of the apparatus, chemistry, samples, materials, etc. used in the research is to be mentioned in the poster.

Results: Graphs, spectra, charts, pictures, etc., with a minimum of text to illustrate the nature of the results.

Conclusions: The positive and negative aspects of the work carried on are to be displayed along with the obtained results. Future research prospective and developing aspects of the related research can also be discussed.
