

EuroSciCon

EuroSciCon Conference on

Graphene & Carbon Nanotechnology

November 25-27,2019
Tokyo, Japan

Theme:

Innovative Research and Approaches in the Field of Graphene and Carbon Nanotechnology

EuroSciCon

Graphene and Carbon nanotechnology

2019

Invitation

Welcome to Tokyo, largest city in Japan, known as the capital of Japan, and experience the Graphene and Carbon Nanotechnology conference of materials science and nanotechnology as never before. EuroSciCon is proud to host the EuroSciCon Conference on Graphene & Carbon Nanotechnology, November 25-27, 2019 Tokyo, Japan. This year's theme is Innovative Research and Approaches in the Field of Graphene and Carbon Nanotechnology. Graphene & Carbon Nanotechnology 2019 will provide an unprecedented opportunity for Scientist of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field of nanotechnology and Material science. We invite Eminent Scientists in the field of Graphene Chemistry, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Graphene & Carbon Nanotechnology 2019 Conference is the perfect venue not only to dive into your particular Researcher interests but also to expand the scope of your knowledge.
The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Graphene & Carbon Nanotechnology forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

November 25-27,2019
Tokyo, Japan

EuroSciCon

Graphene and Carbon nanotechnology

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Scientist and Researcher accessing the website, Graphene & Carbon Nanotechnology 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Graphene & Carbon Nanotechnology 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

November 25-27,2019
Tokyo, Japan

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Who'd be attending?

EuroSciCon Conference on Graphene & Carbon Nanotechnology plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Materials Scientists/Research Professors/Graphene Chemistry's eminent Scientists/Nanotechnologists/ Physicists/Chemists, Junior/Senior research fellows of Materials Science/Physics/Chemistry/ Nanotechnology/ Polymer Science, Materials Science Students, Directors of chemical and Graphene Companies, Materials Engineers, Members of different nanotechnology/Graphene/Material Science associations

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Graphene and Ultrathin 2D Materials
- Chemistry and Biology studies of Graphene
- Growth and Production of Graphene and 2D Materials
- Graphene Functionalization
- Graphene Nano in Energy and Storage
- Graphene and its Oxide
- Graphene the Ultra-Capacitor
- Graphene like 2D Materials
- Advancement of Graphene Physics
- Graphene Chemistries
- Graphene Physics
- Carbon Nanochips and Nanostructures
- Carbon Nanotubes and Graphene
- Nanocarbon Materials in Energy
- Novel Hybrid Carbon Materials
- Emerging Trends in Graphene Nano research
- Emerging Trends in Graphene Experiment
- Graphene and Biomaterials in the field of Healthcare
- Large scale Graphene Production and Characterization
- Semiconductor Materials and Nanostructures
- Artificial Graphite and Natural Graphene
- Challenges and Opportunities in Graphene commercialization
- Compare of Graphene & Graphite
- Graphite,Graphene & their Polymer Nano Compounds
- Graphene- Properties, Characterization & Synthesis
- Application of Graphene Technology
- CVD Graphene-Creating Graphene Via Chemical Vapor Deposition
- Graphene 3D printing
- Uses of Carbon Nanotubes
- Graphene Field Effect Transistors (GFETs)

November 25-27,2019
Tokyo, Japan

About Destination Tokyo

Tokyo was originally known as Edo("estuary") and it is the largest city of Japan,also known as the capital city of Japan since 1869 and has an aggregate land zone of 2187.42 square km. The Greater Tokyo Area is the most populous metropolitan territory in the world. It is the seat of the Emperor of Japan. The other important aspect of Tokyo is its characteristic as the economic and cultural heart of Japan. Tokyo has 39 million residents, half a greater number of individuals than some other urban region, with a $2.5 trillion economy bigger than that of any other city, if it were a country Tokyo would be the eighth biggest economy on the planet. Tokyo is ranked first in the Global Economic Power Index and third in the Global Cities Index. In 2015, Tokyo was ranked as the 11th most expensive city as indicated by the Economist Intelligence Unit's cost-of-living survey

Venue and Accomodation
