

EuroSciCon

21st Edition of International Conference on

Green Chemistry and Technology

November 12-13, 2018
Edinburgh, Scotland

Theme:

Endorsing the Importance of Sustainable World by Academic and Industrial Forum: Driving Waste towards Zero

EuroSciCon

Green Chemistry

2018

Invitation

Welcome to Edinburgh, the city of arts and science, and experience the science of Green Chemistry illuminated as never before. Edinburgh lies at the heart of the Edinburgh and South East Scotland city. EuroSciCon is proud to host the 21st Edition of International Conference on Green chemistry and Technology, November 12-13 Edinburgh, Scotland. Theme of the conference focuses on Endorsing the Importance of Sustainable World by Academic and Industrial Forum: Driving Waste towards Zero. Green Chemistry 2018 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. We invite directors, presidents & CEO's from companies, chemists, academic groups, directors from pharmaceutical companies. Laboratory scientists who identifies, quantifies, analyzes or tests the chemical or biological properties of compounds or molecules or who manages these laboratory scientists, chemical researcher, chemists, but to biochemists, biologists, agronomists, plant physiologists, molecular biologists, Agriculture engineers, chemical engineers, material scientists and chemistry scientists, editorial board members, students, faculty members. Chemical instrument vendors, professors and students from academia in the field of Agriculture & Green Chemistry. Delegates from various pharma, Agriculture & instrumental companies from all over the world. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Green Chemistry Conference is the perfect venue not only to plunge into your chemist's interests but also to expand the scope of your knowledge. 19 tracks are devoted to subjects such as Green Chemistry And Engineering, Green Chemistry Metrics And Sustainable Process, Green Catalysis, Green Solvent: Replacing Organic Solvents, Green Sustainable Agriculture, Green Environmental Toxicology, Green Chemistry In Pharmaceutical Industries, Green Nanotechnology, Nanotechnology In Medical Science, Green Biodegradable Polymers, Polymer Supported Catalysts, Green Technology: Towards Sustainability, Green Energy, Green Energy, Green Chemistry In Industries, Recycle Waste Content, Future Trends In Green Chemistry, Applications Of Green Chemistry And LCA, Market Analysis And GC3. Quality Analysis And Detection Technology In Agriculture and Chemistry Materials, Market Standards and Regulations In Agriculture & Green Chemistry. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Green Chemistry forum in person is your active participation.

.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges

November 12-13, 2018
Edinburgh, Scotland

EuroSciCon

Green Chemistry

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ agronomists, plant physiologists, molecular biologists, Agriculture engineers, chemical engineers, material scientists and food scientists accessing the website, Food Chemistry 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our speakers and committee members fuelling better outreach of the work and profile.

Green Chemistry 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

November 12-13, 2018
Edinburgh, Scotland

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Green Chemistry

2018

Who'd be attending?

21st Edition of International Conference on Green Chemistry and Technology, November 12-13, 2018, Edinburgh, Scotland. Theme of the conference focuses on Endorsing the Importance of Sustainable World by Academic and Industrial Forum: Driving Waste towards Zero in Green Chemistry and Technology 2018 will provide an unprecedented opportunity for faculties & researchers to share their research with colleagues by discussing the latest advances in the field. We invite Eminent Scientists/ Research Professors in the field of Green Chemistry, Junior/Senior research fellows, Students, Directors of Medical association, Members of Medical associations and exhibitors from medical colleges/ Industries. Delegates from various pharma & instrumental companies from all over the world are welcomed to attend the prestigious conference on Green Chemistry. About hosting organization EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of life science communication it focuses on to spearheading the transformation of medical research into knowledge through scientific gatherings and networking. Supporting the Rare Care UK Organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards scientific serendipity.

Tracks :

- Green Chemistry And Engineering
- Green Chemistry Metrics And Sustainable Process
- Green Catalysis
- Green Solvent: Replacing Organic Solvents
- Green Sustainable Agriculture
- Green Environmental Toxicology
- Green Chemistry In Pharmaceutical Industries
- Green Nanotechnology
- Nanotechnology In Medical Science
- Green Biodegradable Polymers
- Polymer Supported Catalysts
- Green Technology: Towards Sustainability
- Green Energy
- Green Chemistry And Green House
- Green Chemistry In Industries
- Recycle Waste Content
- Future Trends In Green Chemistry
- Applications Of Green Chemistry And LCA
- Market Analysis And GC3

EuroSciCon

Academic Keytopics :

- Green Building Materials
- Nano-Flake Technology
- Nano-Materials
- Atom Economy
- Bio-Fuel
- Biocatalysts
- Discovery and Drug Development
- E- Factor
- Efficient use of Non-renewable resources
- Green Energy
- Highly Efficient Palladium Catalyst
- Immunoassay
- Ionic Liquids
- Microwave Induced Green Chemistry
- Nature Based Catalyst
- Petroleum Based Chemicals from Biological Materials
- Plasma Emission Spectrometry
- Plastic Recycling: Physical and Chemical
- Principles of Green Chemistry
- Principles of Green Toxicology
- Supercritical Solvents
- Supramolecular chemistry
- Sustainable Agriculture
- Sustainable Energy
- Sustainable Treatment of Natural Resources
- Tissue Engineering
- Ultrasound Assisted Green Technology

November 12-13, 2018
Edinburgh, Scotland

Business Keytopics :

- Green Chemistry Market in Europe
- Biodiesel
- Computer Chips
- Design, Integration and Sustainability
- E-Waste
- Eco-Friendly Products and Market Analysis
- Economic Development
- Enhance Market Dynamics
- Green Chemistry Market in Asia
- Green Chemistry Market in Canada
- Green Chemistry Market in China
- Green Chemistry Market in Czech Republic
- Green Chemistry Market in Finland
- Green Chemistry Market in France
- Green Chemistry Market in Ireland
- Green Chemistry Market in Italy
- Green Chemistry Market in Japan
- Green Chemistry Market in New Zealand
- Green Chemistry Market in Russia
- Green Chemistry Market in Saudi
- Green Chemistry Market in Scotland
- Green chemistry Market in UK
- Green chemistry Market in USA
- Green Marketing
- Hydrogen Industry (coal, NH3, methanol, fuel cells)
- Plastic Recycling: Physical and Chemical

2018

About Destination Edinburgh

Edinburgh recognized as the capital of Scotland since at least the 15th century, Edinburgh is home to the Scottish Parliament and the seat of the monarchy in Scotland. Historically part of Midlothian, the city has long been a centre of education, particularly in the fields of medicine, Scots law, literature, the sciences and engineering. It is the second largest financial centre in the United Kingdom and the city's historical and cultural attractions have made it the United Kingdom's second most popular tourist destination, attracting over one million overseas visitors each year. Some of the tourist attract places in Edinburgh Castle, Princes Street from Calton Hill and many more. The city is also famous for the Edinburgh International Festival and the Fringe, the latter being the world's largest annual international arts festival. Historic sites in Edinburgh include Holyrood Palace, the churches of St. Giles, Greyfriars and the Canongate, and the extensive Georgian New Town, built in the 18th century.
