Lets go green to get our globe clean

EuroSciCon

Green Technologies

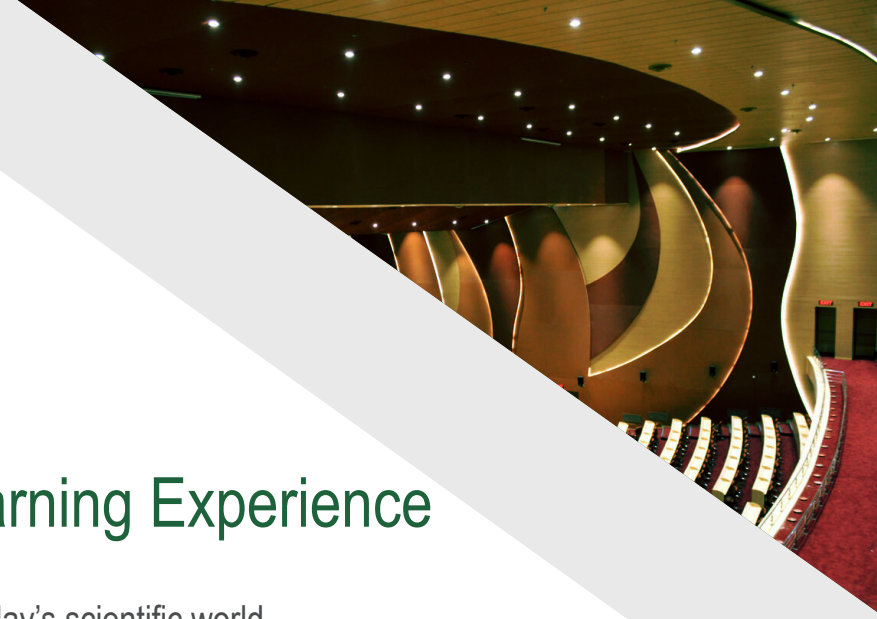

2018

Invitation

Welcome to Berlin, the City of Arts and Science, and experience the science of Green Technologies 2018 illuminated as never before. EuroSciCon is proud to host the 7th Edition of International conference on Green Energy, Green Engineering and Technology, September 20-21, 2018 in Berlin, Germany. This year's theme is Green Revolution: Lets go green to get our globe clean. Green Technologies 2018 will provide an unprecedented opportunity for Green technologists of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Green technologists and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Green Technologies Conference is the perfect venue not only to dive into your particular Technologies. Biological interests but also to expand the scope of your knowledge. 20 tracks are devoted to subjects such as the Physical significance of Green Technologies, various technologies. In Energy Science, Pollution control, Green Chemistry and the regulatory arena. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 19 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ technologists accessing the website, Green Technologies 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Green Technologies 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A timePartake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place.

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Green Technologies

2018

Who'd be attending?

7th Edition of International conference on Green Energy, Green Engineering and Technology plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently technologists Consultants, Regulatory, Professionals, Researchers, speakers , Scientists etc.. Others who stay plunged in learning and practice of the science of Green Energy, Green Engineering and Technology.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Green chemistry
- Green nanotechnology
- Green Economy
- Renewable Energy
- Alternative Energy
- Global warming
- Bioremediation
- Green Architecture
- Sustainable Development
- Energy and Environment
- Environmental Chemistry and Pollution Control
- Green Revolution
- Energy Storage & Conversion
- Green Technology & Energy science
- Market Research on Green Energy

About Destination Berlin

Berlin, Germany's capital, dates to the 13th century. Reminders of the city's turbulent 20th century history include its Holocaust memorial and the Berlin Wall's graffitied remains. Divided during the Cold War, its 18th century Brandenburg Gate has become a symbol of reunification. The city's also known for its art scene and modern landmarks like the gold-colored, swoop-roofed Berliner Philharmonie, built in 1963.

Berlin is an international city of culture, politics, media and science. Its economy is based on high-tech firms and the service sector, encompassing a diverse range of creative industries, research facilities, media corporations and convention venues. Berlin serves as a continental hub for air and rail traffic and has a highly complex public transportation network. The metropolis is a popular tourist destination.
