Invitation

The Euroscicon is proud to host the 5th International Conference on Histopathology and Cytopathology on September 27-28, 2018 in Rome, Italy. The theme of this year's conference is **"Dawn to Dusk Transformations of Histopathology & cytopathology"**.

Histopathology 2018 will serve as a global platform for the discussion of new trends in medical and clinical research; the development of new technology in the field of Histopathology and Cytopathology and their potential uses; a way of sharing lessons learned in Histopathology and Cytopathologydevelopment and prognosis.

We take this opportunity to invite delegates from Universities and Institutes all over the world in related disciplines, professionals and experts in the field of pathology and Health-care, clinical and medical researchers all over the globe.

With a broad array of keynote presentations, oral presentations and poster sessions Histopathology 2018 will be a perfect place to showcase your research experiences and broaden the scope of your knowledge beyond your particular field of interest. Again, we cordially invite all the participants to help make this event a grand success.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Histopathology Conference is the perfect venue not only to dive into your particular Pathological interests but also to expand the scope of your knowledge. 17 tracks are devoted to subjects Such as the Cancer Cytopathology, Histopathology, Diagnostic Cytopathology, Fine Needle Aspiration Cytology, Cervical Cytopathology, Forensic Pathology, Cytopathology & Disease Diagnosis, Stem Cell Therapy & Anatomical Pathology and the regulatory arena.

The Organizing Committee has done its best to set up a framework that we think will allow for a Creative interplay of ideas. All we need now to convert the extensive program on paper to an active And vibrant Histopathology forum in person is your active participation

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Pathologist and Laboratory Medicine Professionals accessing the website, Histopathology 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Histopathology 2018 Salient Features:

One- on -one interaction with eminent scientists and experts in the Histopathology research field.

Networking with peers or sponsors for continuing research.

Learning new insights about the advances in medicine and related fields.

Getting recognized in a global platform and discussing research ideas or topics with professors, scientists and scholars

2018

Who'd be attending?

5th International Conference on Histopathology & Cytopathology plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Scientists, Pathologists, Laboratory Medicine Professionals, Technical experts from the field of pathology, Directors/Co-Directors, CEOs, Product managers, of companies investing in Cytopathology, informatics, Healthcare-IT and Technology platforms. Delegates from various industries and academia, Healthcare Professionals, Professors, Head of Department, Researchers, and research scholars from Academia and research.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Cervical Cytopathology
- Clinical & Molecular Cytopathology
- Cytopathology & Disease Diagnosis
- Forensic Pathology
- Stem Cell Therapy & Anatomical Pathology
- General Cytopathology & Immunocyto Chemistry
- Gynecological And Breast Cytopathology
- Exfoliative Cytopathology
- Oral Cytology
- Urinary Cytology
- Veterinary Cytopathology
- DNA Pap Cytology

About Destination Rome, Italy

Rome is the capital city of Italy and it is one of the most ancient cities in Europe. Rome is located in the central portion of the Italian peninsula, on the Tiber River about 15 miles (24 km) inland from the Tyrrhenian Sea. The city of Rome itself has tremendous environmental advantages, which made it easier for Rome to become an important city. Rome is located at the first place that people can easily cross the Tiber River, so it is the natural location of the main north-south road in Italy. The reason you can cross the Tiber at Rome is that there is an island in the river there. Italy is bound to the north by Switzerland and Austria, to the east by Slovenia and the Adriatic Sea, to the south by the Mediterranean, Tyrrhenian, and Ligurian seas, and to the west by France. It covers 301,308 square kilometers (116,335 square miles), and Rome is located about halfway down Italy's western coast. Rome is regarded as one of the world's most beautiful ancient cities and contains vast amounts of priceless works of art, palaces, museums, parks, churches, gardens, basilicas, temples, villas, piazzas, theatres, and other venues in general. As one of the world's most important and visited cities, there are numerous popular tourist attractions. In 2005, the city received 19.5 million global visitors, up of 22.1% from 2001.

Since World War II, Italy has evolved from an economy based on agriculture into an economy of industrial ranking, with approximately the same total and per capita output as France and the United Kingdom. Yet, the country remains partially divided by the private companies developing in the industrial north and the public enterprise that governs the agricultural south. There are many universities, educational centers, and degrees available in higher education. Italy's largest institution, the University of Rome, has an enrollment of 190,000 students. Founded in 1303, the university confers many degrees in international relations and communications.
