

EuroSciCon

World Congress on

Clinical Microbiology and Infectious Diseases

February 18-19, 2019
Sydney, Australia

Theme:
Importance of Addressing the microbial Complexity of Infectious Diseases

EuroSciCon

Infectious Diseases Conference

2019

Invitation

Welcome to Sydney is the capital city of New South Wales, Australia. It is Australia's oldest and largest city built around a huge harbour and hosts many tourist attractions as well as a number of beaches, bays and a couple of national parks. EuroSciCon is proud to host the World Conference on Clinical Microbiology and Infectious Diseases, February 17-18, 2019 in Sydney, Australia. Theme of the conference focuses on Importance of Addressing the microbial Complexity of Infectious Diseases. Infectious Diseases Conference 2019 will provide an unprecedented opportunity for Microbiologist and biotechnologist to share their research with colleagues by discussing the latest advances in the field. We invite Eminent Scientists/ Research Professors in the field of microbial and immunological Education, Junior/Senior research fellows, Students, Directors of Biotech and medical research companies, Doctors, Members of Microbiology associations and exhibitors from Biotechnology. Delegates from various pharma & instrumental companies from all over the world are welcomed to attend this prestigious conference on Clinical Microbiology and Infectious Diseases. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Infectious Diseases Conference is the perfect venue not only to dive into your particular interests but also to expand the scope of your knowledge. There are 18 tracks which are devoted to subjects such as the Applied & Medical Microbiology, Chemotherapy, Clinical and Diagnostic Microbiology, Clinical Immunology, Congenital, Perinatal and Neonatal Infections, Cytopathology of infectious Diseases, Epidemiology, Gastrointestinal Infections, Haematological infections, Hepatitis C, Laboratory Techniques of Infectious Diseases, Microbial Pathogenesis, Nosocomial Infections, Parasitology, Respiratory Infections, Sexually Transmitted Infections, Surgical site Infections, Virology and Microbial agents. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Medical education forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges

February 18-19, 2019
Sydney, Australia

EuroSciCon

Infectious Diseases Conference

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb world. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Microbiologist and the Biotechnologist accessing the website, Infectious Diseases conference 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our speakers and committee members fuelling better outreach of the work and profile.

Infectious Diseases 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

February 18-19, 2019
Sydney, Australia

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Infectious Diseases Conference

2019

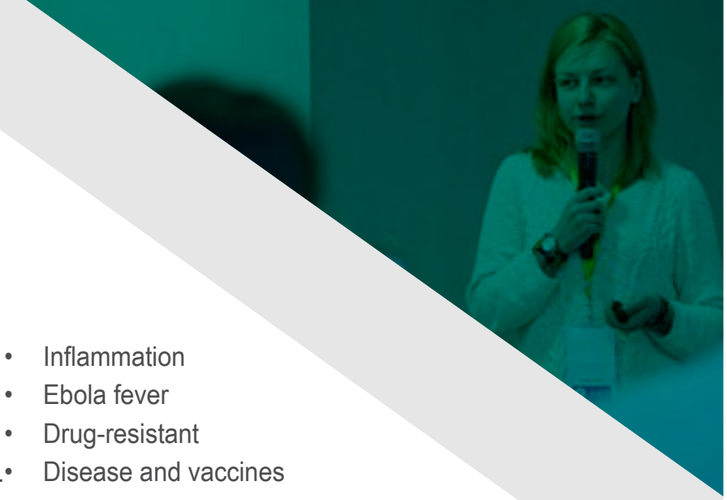

Who'd be attending?

World Conference on Clinical Microbiology and Infectious Diseases, February 17-18, 2019 in Sydney, Australia. Theme of the conference focuses on Importance of Addressing the microbial Complexity of Infectious Diseases. Infectious Diseases Conference 2019 will provide an unprecedented opportunity for Microbiologist and biotechnologist to share their research with colleagues by discussing the latest advances in the field. We invite Eminent Scientists/ Research Professors in the field of microbial and immunological Education, Junior/Senior research fellows, Students, Directors of Biotech and medical research companies, Doctors, Members of Microbiology associations and exhibitors from Biotechnology. Delegates from various pharma companies and the Healthcare professionals from all over the world are welcomed to attend this prestigious conference on Clinical Microbiology and Infectious Diseases. About hosting organization EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of life science communication it focuses on to spearheading the transformation of medical research into knowledge through scientific gatherings and networking. Supporting the Rare Care UK Organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards scientific serendipity.

Tracks :

- Applied & Medical Microbiology
- Chemotherapy
- Clinical and Diagnostic Microbiology
- Clinical Immunology
- Congenital, Perinatal and Neonatal Infections
- Cytopathology of infectious Diseases
- Epidemiology
- Gastrointestinal Infections
- Haematological infections
- Hepatitis C
- Laboratory Techniques of Infectious Diseases
- Microbial Pathogenesis
- Nosocomial Infections
- Parasitology
- Respiratory Infections
- Sexually Transmitted Infections
- Surgical site Infections
- Virology and Microbial agents

Academic Keytopics :

- Public health
- Prophylactic Vaccine
- Primary care
- Prevention of methicillin-resistant S. aureus
- Prevention
- Poliomyelitis
- Plant pathology
- Plague
- Paediatrics
- Papillomavirus genotypes
- Oomycetes
- Lymphatic filariasis
- Respiratory
- Rheumatic fever
- Rinderpest
- Yellow Fever
- Whooping cough
- Viral Hepatitis
- Tyzzer's disease
- Tuberculosis
- Tick-Borne Encephalitis
- Sterility test
- Smallpox
- Shigellosis
- Sexual Health
- Rubella (German measles)
- Rotavirus
- Lyme disease
- Laboratory tests
- Inflammation
- Ebola fever
- Drug-resistant
- Disease and vaccines
- Diabetes
- Devastating and complex diseases
- Contagious diseases
- Communicable illnesses
- Clostridium difficile
- Chronic pain
- Chicken pox
- Autoimmune disorders
- Alzheimer's
- Air-borne infections
- Ebola outbreak response
- Ebola vaccine
- Infectious Diseases
- Immunology
- Human immunodeficiency virus
- HIV/AIDS
- Hepatitis A
- Hand hygiene
- Haemophilic
- Global Eradication
- Foodborne disease
- Food safety
- Epidemiology
- Enterovirus D68
- Enteric infections

February 18-19, 2019
Sydney, Australia

Business Keytopics :

- Infectious diseases Market in UK
- Infectious diseases Market in Japan
- Infectious diseases Market in Europe
- Infectious diseases Market in Dubai
- Infectious diseases Market in Canada
- Infectious diseases Market in Australia
- Infectious diseases Market in Asia
- Infectious diseases Market in USA

Infectious Diseases Conference

2019

About Destination Sydney

Sydney is the capital city of New South Wales, Australia. It is Australia's oldest and largest city with a population of around 4 million. Sydney is built around a huge harbour and hosts many tourist attractions as well as a number of beaches, bays and a couple of national parks.

Sydney has many influences upon its style. Aboriginal sites and engravings can still be seen from the original occupiers, the Eora tribe. The city also has an anglo-mediterranean style and a growing Chinese and Asian influence.

The city is divided into North and South by the Sydney Harbour, with both Sydney Harbour Bridge and Tunnel connecting them. Most of the tourist attractions are in the South part of the city, with a large business and residential area in the North.

The South part of the city consists of The Rocks and Circular Quay to the North, with the Central Station marking the South. Darling Harbour marks the West and there are a number of parks to the East.
