

EuroSciCon

November 12-13, 2018
Paris, France

10th International Congres on Liver and Pancreatic Diseases

Theme:

Novel Innovations in Hepatobiliary and Pancreatic Diseases

Invitation

Welcome to Paris, the City of Arts and Science, and experience the science of Hepatology illuminated as never before. EuroSciCon is proud to host the 9th Annual Conferene on Liver and Pancreatic Diseases at November 12-13, 2018 in Paris, France. This year's theme is Novel Innovations in Hepatobiliary and Pancreatic Diseases. Liver and Pancreatic Diseases 2018 will provide an unprecedented opportunity for Hepatologists, Gastroenterologists of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Nurses, pharmacologists, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Liver and Pancreatic Diseases 2018 is the perfect venue not only to dive into your particular nursing interests but also to expand the scope of your knowledge. Tracks are devoted to subjects such as the Hepatology,Pancreatitis,Hepatocellular carcinoma Travel nuse and so on.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Hepatology forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

November 12-13, 2018

Paris, France

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 300+ Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

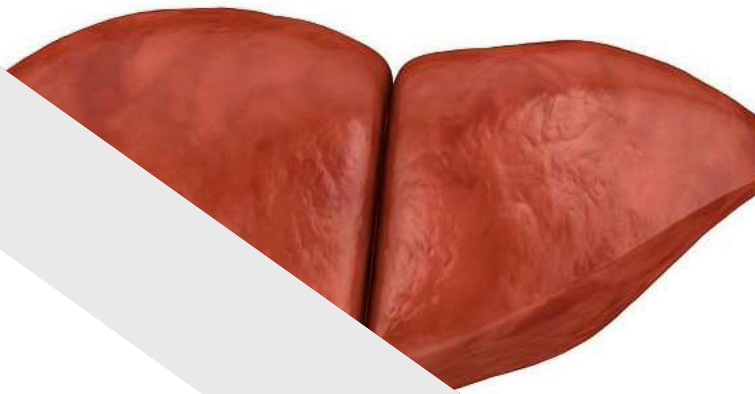

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Hepatologists and Pathologists accessing the website, Liver and Pancreatic Diseases 2018 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Liver & Pancreatic Diseases 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

November 12-13, 2018
Paris, France

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 300+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Who'd be attending?

The main aim of this conference is to gather Hepatologists, Endocrinologists, Pancreatic Specialists, Directors/CEO & Industry experts, Professors, Researchers, Scientists and Students dealing in all areas of Hepatology and Endocrinology & Therapeutics and to provide an international forum for the dissemination of original research results, new ideas and practical development experiences related to the research.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Pancreas/ Pancreatology
- Liver diseases
- Pancreatic illnesses and disorders
- Diagnosing of Liver diseases
- Pancreatic cancers
- Medical Liver Transplantation
- Drug Discovery for treatment of Hepatitis
- Pancreatic Surgery and Transplantation
- Advanced Pancreatitis treatment
- Viral Hepatitis C
- Pancreatitis:
- Cirrhosis
- Viral Hepatitis B And D
- Diabetes Mellitus
- Stellate and Stem Cells
- Metabolic Liver diseases
- Screening strategies
- Non-viral Hepatitis
- Liver Regeneration
- Pediatric and Geriatric Hepatology
- Liver infection and Immunology
- Hepato-Pancreato-Biliary Ailment

EuroSciCon

2018

About Destination Paris

Paris, France's capital, is a major European city and a global center for art, fashion, gastronomy and culture. Its 19th-century cityscape is crisscrossed by wide boulevards and the River Seine. Beyond such landmarks as the Eiffel Tower and the 12th-century, Gothic Notre-Dame cathedral, the city is known for its cafe culture and designer boutiques along the Rue du Faubourg Saint-Honoré.

The City of Paris's administrative limits form an East-West oval centred on the island at its historical heart, the Île de la Cité; this island is near the top of an arc of the river Seine that divides the city into southern Rive Gauche (Left Bank) and northern Rive Droite regions. Paris is the core of a built-up area that extends well beyond its limits: commonly referred to as the agglomération Parisienne, and statistically as measure of urban area, the Paris agglomeration's 2013 population of 10,601,122 made it the largest urban area in the European Union.City-influenced commuter activity reaches well beyond even this in a statistical aire urbaine de Paris (a measure of metropolitan area), that had a 2013 population of 12,405,426, a number one-fifth the population of France, the largest metropolitan area in the Eurozone.
