

EuroSciCon

8th Edition of International Conference on

Mass Spectrometry

March 12-13, 2018
London, UK

Theme:

New Innovations, Advancements and Applications of Mass Spectrometry

EuroSciCon

Mass Spectrometry

2018

Invitation

Welcome to London, the city of arts and science, and experience the science of mass spectrometry illuminated as never before. Euroscicon is proud to host the 8th Edition of International Conference on Mass Spectrometry, March 12-13, 2018 in London, UK. The theme of the conference focuses on "New Innovations, Advancements and Applications of Mass Spectrometry." Mass spectrometry 2018 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. We invite directors, presidents & CEO's from companies, chemists, academic groups, directors from pharmaceutical companies. Laboratory scientists who identifies, quantifies, analyzes or tests the chemical or biological properties of compounds or molecules or who manages these laboratory scientists. chemical researcher, molecular diagnostics, clinical laboratories, health Care Industry, quantitative analysts, qualitative analysts, editorial board members, students, faculty members. chemical instrument vendors, professors and students from academia in the field of Mass Spectrometry and pharmaceutical sciences. Delegates from various pharma & instrumental companies from all over the world. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the on-Mass Spectrometry Conference is the perfect venue not only to dive into your particular chemist's interests but also to expand the scope of your knowledge. 17 Tracks are devoted to subjects such as the : New Advances and Development in Mass Spectrometry, Mass Spectrometry Applications in Pharmaceutical Industry, Mass Spectrometry Applications in Clinical Diagnostics, Capillary Electrophoresis, Tandem Mass Spectrometry, electrophoresis, advancements in mass spectrometry, forensic analysis, advances in separation techniques, analytical biotechnology , pharmaceutical analysis, Protein Mass Spectrometry, Ionization Techniques Mass Spectrometry, Forensic Analysis and bioanalytical methods, new instrumentation and equipment and Miniature Mass Spectrometer challenges in bioanalysis. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant analytical forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges

March 12-13, 2018
London, UK

EuroSciCon

Mass Spectrometry

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ analytical chemists and drug analysts accessing the website, Mass Spectrometry 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our speakers and committee members fuelling better outreach of the work and profile.

Mass spectrometry 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

March 12-13, 2018
London, UK

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

2018

Who'd be attending?

8th Edition of International Conference on Mass Spectrometry, March 12-13, 2018 in London,UK. theme of the conference focuses "New Innovations, Advancements and Applications of Mass Spectrometry". Mass Spectrometry 2018 will provide an unprecedented opportunity for chemists of all stripes and colors to share their research with colleagues by discussing the latest advances in the field. We invite directors, presidents & CEO's from companies, chemists, academic groups, directors from pharmaceutical companies. Laboratory scientists who identifies, quantifies, analyzes or tests the chemical or biological properties of compounds or molecules or who manages these laboratory scientists', chemical researcher, molecular diagnostics, clinical laboratories, health Care Industry, quantitative analysts, qualitative analysts, editorial board members, students, faculty members. chemical instrument vendors, professors and students from academia in the field of analytical and pharmaceutical sciences. Delegates from various pharma & instrumental companies from all over the world. About hosting organization EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of life science communication it focuses on to spearheading the transformation of medical research into knowledge through scientific gatherings and networking. Supporting the Rare Care UK Organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards scientific serendipity.

Tracks :

- New Advances and Development in Mass Spectrometry
- Mass Spectrometry Applications
- Mass Spectrometry in Pharmaceutical Industry
- Spectroscopy
- Mass Spectrometry Applications in Clinical Diagnostics
- Capillary Electrophoresis
- Chromatography
- Tandem Mass Spectrometry
- Environmental Analysis
- Protein Mass Spectrometry
- Ionization techniques Mass Spectrometry
- Forensic Analysis
- Mass Spectrometry in Medicine
- Imaging Mass Spectrometry
- Analytical Chemistry
- Molecular Mass Spectrometry
- Miniature Mass Spectrometry

EuroSciCon

Academic Keytopics :

- Advances of Mass Spectrometry
- Analytical methods in Food omics
- Atomization
- Chromatography
- Electrophoresis
- Forensic Analysis
- Fragmentation Techniques
- GC - Mass Spectrometry
- Glycan Analysis
- HPLC - Mass Spectrometry
- Imaging Mass Spectrometry
- Ionization Techniques
- Isotopic ratios of Atoms
- Mass Analyzers
- Mass spectrometry in Drug Discovery
- Mass Spectrometry in Petrol omics
- Metabolomics
- Pharmacokinetics
- Photolytic assimilation of proteins
- Proteomics
- Separation of ions according to mass
- Space Exploration
- Strengths of Mass Spectrometry
- Time of flight Mass Spectrometry

March 12-13, 2018
London, UK

Business Keytopics :

- Analytical Tools
- Atmospheric Pressure Chemical Ionization
- Biological Matrix
- Bioprocessing
- EI-MS Mass Spectrometry
- Electrospray Ionization Mass Spectrometry
- Environmental Monitoring
- Food Bioactivity
- Hyphenated Techniques
- Immunohistochemistry
- Biochemical process
- Ionization Techniques
- Mass Analyzer
- Mass Spectrograph
- Mass Spectrometry Africa
- Mass Spectrometry Asia
- Mass Spectrometry Canada
- Mass Spectrometry Dubai
- Mass Spectrometry Europe
- Mass Spectrometry Germany
- Mass Spectrometry Japan
- Mass Spectrometry UK
- Mass Spectrometry USA
- Mass Lynx
- Matrix-Assisted Laser Desorption Ionization Mass Spectrometry
- Multivariate Analysis
- Potentiometry
- Process Mass Spectrometers
- Purification Techniques
- Quadrupole Mass Analyzer
- Qualitative Analysis
- Quantitative Analysis
- Radioanalytical Chemistry
- Structure determination
- Titrimetric
- Trace Gas Analysis
- Voltammetry
-

2018

About Destination London

London is the capital and most populous city of England and the United Kingdom Standing on the River Thames in the south east of the island of Great Britain, London has been a major settlement for two millennia. It was founded by the Romans, who named it Conidium. London's ancient core, the City of London, largely retains its 1.12-square-mile (2.9 km2) medieval boundaries. Since at least the 19th century, "London" has also referred to the metropolis around this core, historically split between Middlesex, Essex, Surrey, Kent, and Hertfordshire, today largely makes up Greater London, governed by the Mayor of London and the London Assembly.

London is a leading global city in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism, and transportation It is crowned as the world's largest financial center and has the fifth- or sixth-largest metropolitan area GDP in the world. London has a diverse range of people and cultures, and more than 300 languages are spoken in the region.

London attraction: Buckingham Palace and the Changing of the Guard, The British Museum, The Tower of London and Tower Bridge, Big Ben and Parliament, Westminster Abbey, Hyde Park etc.
