

EuroSciCon

2nd Edition of International

Materials Science and Engineering Week

September 09-10, 2019
Sydney, Australia

Theme:

Peering deep into Materials with technological engineering

EuroSciCon

Material Science Week

2019

Invitation

EuroSciCon invites all the global participants to 2nd Edition of International Materials Science and Engineering Week during September 9-10 2019, Sydney, Australia, which includes prompt keynote presentations, Oral talks, Poster presentations and Exhibitions.

Materials Science Week 2019 provides a perfect symposium for scientists, engineers, directors of companies and students in the field of Materials science, Physics, Chemistry and Structural Biology to meet and share their knowledge. The theme of the conference is “Peering deep into Materials with technological engineering”. The scientific program paves a way to gather visionaries through the research talks and presentations and put forward many thought provoking strategies. It provides a premier technical forum for reporting and learning about the latest research and development, as well as for launching new applications and technologies. Materials Science and Engineering Week is a premier forum to showcase the latest results in the science and technology of materials, with an emphasis on the combination of advance researches as well fundamental physical and chemical concepts to applied research focusing on the next generation material science devices.

Maximize your personal involvement, engagement by getting together on September 9-10, 2019 with interactive discussions and workshops at the conference, you will feel free to reach out and share your thoughts to continue your lifelong learning and build on the skills that make you successful.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

September 09-10, 2019
Sydney, Australia

EuroSciCon

Material Science Week

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

With over 25000 analytical chemists accessing the website, Material Science Week 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Material Science Week 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

September 09-10, 2019
Sydney, Australia

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Material Science Week

2019

Who'd be attending?

02nd Edition of International Conference and on Material Science Week 2019 plays host for the Multinational organizations, Entrepreneurs, Scientists and Academicians across the globe. Prominently Material Science Professors & Students, Regulatory Professionals, Professionals & Experts of material science, smart materials, bio material, ceramics and composites, Nuclear energy, fuel cells, green materials, Researchers, Industrialists, PhD students, business owners. Relevant Post-graduates, Graduates, Technicians, Students.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society, Institute of Biomedical Science (IBMS) and British Society. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Material Science and engineering
- Smart Materials and Sustainable Technologies
- Nano Materials and Nanotechnolog Technology
- Advanced Materials and Devices
- Energy Materials and Fuel cells
- Crystallography and Spectroscopy
- Carbon Materials and structures
- Nuclear Materials and Radiation
- Bio Materials and Bio Sensors
- Ceramics and Composite materials
- Optical Materials
- Electronic and Magnetic Materials
- Materials Chemistry
- Materials Physics
- Computational Material Science
- Mining and Metallurgy
- Polymer Science and Soft Materials
- Catalytic materials
- Green Materials

EuroSciCon

See your work Published

in one of our related journals

- Journals of Material Sciences & Engineering
- Journals of Nanomaterial's & Molecular Nanotechnology
- Nano Research & Applications
- Journal of Nanosciences: Current Research
- Journal of Material Sciences: Research & Reviews

Material Science Week

2019

About Destination Sydney

Sydney, the capital of New South Wales, Australia. It is Australia's oldest and largest city with a population of around 4 million. Sydney is built around a huge harbour and hosts many tourist attractions as well as a number of beaches, bays and a couple of national parks.

History

Sydney was first visited by the British in 1770 when Captain James Cook and Joseph Banks sailed the Endeavour into Botany Bay. The First Fleet arrived at Botany Bay in 1788 under the command of Governor Arthur Phillip.

Phillip but found Botany Bay unsatisfactory and sailed north and landed at Sydney Cove on Sydney Harbour. Phillip originally named the colony 'New Albion', but then the colony acquired the name 'Sydney', after the British Home Secretary, Thomas Townshend, Lord Sydney.

Sydney has many influences upon its style. Aboriginal sites and engravings can still be seen from the original occupiers, the Eora tribe. The city also has an Anglo-Mediterranean style and a growing Chinese and Asian influence.

The City

Sydney is spectacularly draped around its glorious harbour and beaches and has visual factors like few other cities. Scratch the surface and it only gets better. There are hundreds of manmade and natural sights throughout the city with breathtaking architecture and natural miracles to visit. A wide range of natural parks, aquariums and beaches will make it worth your while.

Food and Accommodation

With an abundance of fresh produce, great seafood and multicultural influences, Sydney's restaurants and cafés cater to a range of tastes and budgets. You'll find plenty of accommodation choices, too.
