

EuroSciCon

International Conference on

Mechanical & Aerospace Engineering

June 24-25, 2019
Tokyo, Japan

Theme:

Revolutionary Innovation in Mechanical and Aerospace Technologies

EuroSciCon

Mechanical and Aerospace

2019

Invitation

Welcome to Tokyo, the capital and one of the 47 prefectures of Japan, and experience the science of Mechanical & Aerospace Engineering illuminated like never before. EuroSciCon is proud to host the **International Conference on Mechanical & Aerospace Engineering on June 24-25, 2019 in Tokyo, Japan**. This year's theme is Revolutionary Innovation in Mechanical and Aerospace Technologies. Mechanical and Aerospace 2019 is a global platform for displaying research about mechanical and aeronautic design and interchanging knowledge about it and therefore, it also provides a path to multiply the information in both the insightful network and business. We invite Directors, Presidents , CEO's from companies, Engineers, Instrument Vendors, Professors , Students from academia ,Scientist, researchers and Scholars in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

June 24-25, 2019
Tokyo, Japan

EuroSciCon

Mechanical and Aerospace

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Mechanical & Aerospace researchers accessing the website, Mechanical and Aerospace 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Mechanical and Aerospace 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

June 24-25, 2019
Tokyo, Japan

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Mechanical and Aerospace

2019

Who'd be attending?

International Conference on Mechanical & Aerospace Engineering plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Directors, Presidents , CEO's From Companies,Engineers, Instrument Vendors, Professors Students From Academia ,Scientist and researchers Popular Researchers and Scholars, Engineering Associates and Societies, Business Entrepreneurs, Research Labs Members, Software developing companies, Associations Manufacturing Devices and others who stay plunged in learning and practice of the science of Mechanical & Aerospace Engineering.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 18 years of Life Science Communication it focuses on to Spearheading the Transformation of Technical Research into Knowledge through Scientific Gatherings and Networking. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Fluid Mechanics
- Solid Mechanics
- Mechatronics and robotics
- Thermal Engineering
- Industry 4.0
- Automotive Engineering
- Production and Manufacturing
- Mechanical Designing - Computer-aided Tools
- Applied Mechanics
- Materials science
- Vehicle Systems and Technologies
- Structural Analysis
- System Dynamics and Controls
- Aeronautical and Astronautical Engineering
- Rocket Science
- Space & Satellite Communication
- Aircraft flight mechanics and controls
- Avionics
- Aerodynamics
- Aerospace Materials and Designs
- Acoustical engineering
- Propulsion and Energy Sciences
- Marine and Railway Engineering
- Optomechanical engineering
- Bioengineering and Bio-Mechanics
- Application of Mechanical and Aerospace Technology
- Recent Innovation in Mechanical and Aerospace Engineering

About Destination Tokyo

Tokyo, authoritatively Tokyo Metropolis is one of the 47 prefectures of Japan, has filled in as the Japanese capital since 1869. As of 2014 the Greater Tokyo Area positioned as the most crowded metropolitan territory in the world. The urban zone houses the seat of the Emperor of Japan, of the Japanese government and of the National Diet. Tokyo shapes some portion of the Kantō district on the southeastern side of Japan's primary island, Honshu, and incorporates the Izu Islands and Ogasawara Islands. Tokyo was some time ago named Edo when Shōgun Tokugawa Ieyasu made the city as his central command in 1603. It turned into the capital after Emperor Meiji moved his seat to the city from Kyoto in 1868; around then Edo was renamed Tokyo. Tokyo Metropolis framed in 1943 from the merger of the previous Tokyo Prefecture and the city of Tokyo
