7th Global Summit on

Microbiology Research

Theme:

To Encompass the emerging trends in Microbiology Research

EuroSciCon

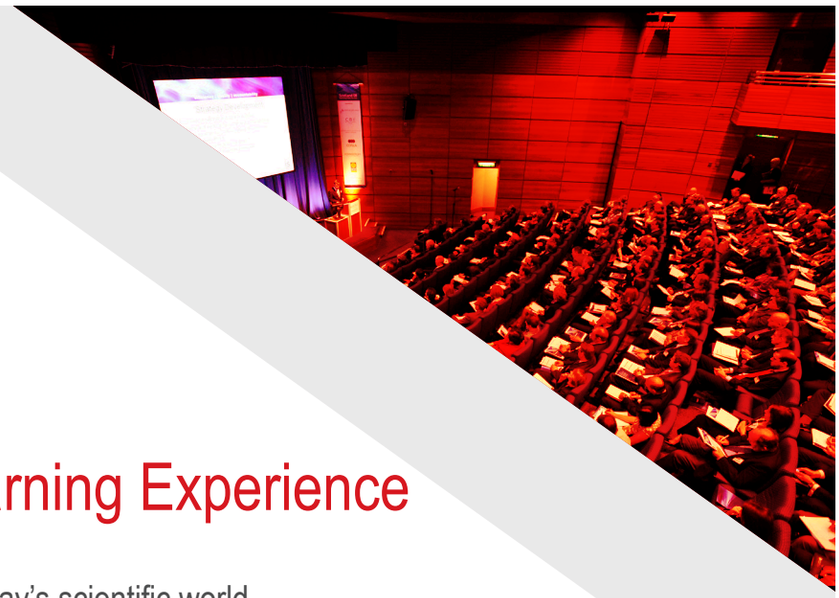

Microbiology Research

2018

Invitation

Welcome to Madrid Spain, the City of Science & Education, and experience the science of technologies illuminated as never before. EuroSciCon is proud to host the 7th Global Summit on Microbiology Research , August 13-14, 2018 in Madrid Spain. This year's theme is "To Encompass the emerging trends in Microbiology Research". Microbiology Research 2018 will provide an unprecedented opportunity for Microbiologists of all stripes and colors t share their research with colleagues, and discuss and debate the latest advances in the field. We invite Microbiologists, pharmacologists, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Microbiology Conference is the perfect venue not only to dive into your particular microbiology interests but also to expand the scope of your knowledge. 16 tracks are devoted to subjects such as the Microbial genetics, Microbial pathology, Microbial Ecology, Microbial Immunology, Environmental Microbiology, Bacteriology & Virology, Industrial & Food Microbiology, Molecular Biology, Parasitology, Veterinary& Diagnostic Microbiology etc. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Microbiologists and pharmacologists accessing the website, Microbiology Research 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Microbiology Research 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

August 13-14, 2018
Madrid, Spain

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Microbiology Research

2018

Who'd be attending?

7th Global Summit on Microbiology Research plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Microbiology Professors & Students, Investigative Microbiology and Immunology, Regulatory Professionals, Microbiology Professionals, Laboratory Directors and Chemists, Forensic Scientists and Microbiologists, Industrialists and others who stay plunged in learning and practice of the science of Microbiology, Immunology & Parasitology.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Microbiology Research And Advancement
- Microbial Diversity
- Bacterial Pathogenesis
- Microbial Genetics
- Clinical and Diagnostic Microbiology
- Environmental Microbiology
- Industrial and food microbiology
- Current Research In Microbiology
- Parasitology
- Veterinary Microbiology
- Microbial Ecology
- Infectious diseases in plants
- Antimicrobial Vaccines
- Microbial immunology
- Bacteriology & Virology
- Microbial Engineering
- Microbial Biotechnology
- Bacterial skin and wound infections
- Microbial Physiology
- Microbial Endocrinology
- Parasitic Diseases
- Nanotechnology in Medical Microbiology
- Cancer and Tumor Immunology
- Microbial Biochemistry
- Pharmaceutical Microbiology
- Pediatric infectious Diseases & Microbiome
- Marine Microbiology

2018

About Destination Madrid

Madrid, Spain's central capital, is a city of elegant boulevards and expansive, manicured parks such as the Buen Retiro. It's renowned for its rich repositories of European art, including the Prado Museum's works by Goya, Velazquez and other Spanish masters. The heart of old Hapsburg Madrid is the portico-lined Plaza Mayor, and nearby is the baroque Royal Palace and Armory, displaying historic weaponry.

Madrid possesses modern infrastructure, it has preserved the look and feel of many of its historic neighbourhoods and streets. Its landmarks include the Royal Palace of Madrid; the Royal Theatre with its restored 1850 Opera House; the Buen Retiro Park, founded in 1631; the 19th-century National Library building (founded in 1712) containing some of Spain's historical archives; a large number of national museums, and the Golden Triangle of Art, located along the Paseo del Prado and comprising three art museums: Prado Museum, the Reina Sofía Museum, a museum of modern art, and the Thyssen-Bornemisza Museum, which completes the shortcomings of the other two museums. Cibeles Palace and Fountain have become one of the monument symbols of the city.
