

EuroSciCon

22nd Edition of International Conference on

Nano Engineering & Technology

December 10-11, 2018
Rome, Italy

Theme:

Future Challenges and Advanced Innovations in Nanotechnology!!

EuroSciCon

Nanotechnology

2018

Invitation

Euroscicon invites globally all the leading academic scientists, researchers and research scholars from the Nano Engineering and technology to attend 22nd Edition of International Conference on Nano Engineering & Technology is scheduled from December 10-11, 2018 at Rome, Italy. EuroSciCon is the UK based independent life science Events Company with predominantly business and academic client base.

The 2018 meeting is going to be dynamic and informative as it provides the premier interdisciplinary forum for researchers, practitioners, and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the field of Nanotechnology. The theme of the conference is about “Future Challenges and Advanced Innovations in Nanotechnology!!!”

This is a 2-day event. During the conference you can participate in General Sessions, Poster Presentations, and Workshops/Symposium, Meet-the-Professor Sessions, Oral Presentations and other interactive and informal exchanges.International symposiums, Panel Discussion and B2B meetings are organized based on the specific topics related to Nano Engineering and technology.

Topics discussed will be the forthcoming use of Nano technology in healthcare, electronics Nano materials, Nano Technology tools, Robotics, Computational Techniques and many more and other areas most recent techniques, developments, and the newest updates in Nano engineering & Nano technology.

We trust you will discover the Meeting beneficial, enlightening and agreeable. We want to personally thank the speakers, moderators, and other volunteers who are participating in the planning of this conference. Everyone’s energy is endless and everyone’s positive attitudes have amazed us throughout the year.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Nanotechnolgists, Scientists and Young Researchers accessing the website, Nanotechnology 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

December 10-11, 2018
Rome, Italy

Nanotechnology 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Nanotechnology

2018

Who'd be attending?

22nd Edition of International Conference on Nano Engineering & Technology plays host for Nano engineering and Nanotechnology Students, Scientists Nano engineering and Nanotechnology Researchers, Nano engineering and Nanotechnology Faculty, Nano engineering and Nanotechnology Colleges, Nano and Nanotechnology Associations and Societies, Business Entrepreneurs , Manufacturing Medical Devices Companies

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Nano Electronics and Nano Photonics
- Nano structured Ceramics
- Nano devices and structured materials
- Nano Sensors and Biosensors
- Robotics and Mechatronics
- Nano Biotechnology
- Nano Pharmaceutical
- Green Nanotechnology
- Nanotechnology in Biomaterials
- Carbon based Nanomaterial's Devices and Technologies
- Nano Medicine
- Nano Engineering and Nano Technologies
- Future of Nanotechnology

EuroSciCon

Nanotechnology

2018

About Destination Rome

Rome is one of the most important tourist destinations of the world, due to the incalculable immensity of its archaeological and art treasures, as well as for the charm of its unique traditions, the beauty of its panoramic views, and the majesty of its magnificent “villas”. Among the most significant resources: plenty of museums like Capitoline Museums, the Vatican Museums, Galleria Borghese, and a great many others aqueducts, fountains, churches, palaces, historical buildings, the monuments and ruins of the Roman Forum, and the Catacombs

Top Attractive Places to Visit in Rome

The city is covered with many famous tourist attractions like Colosseum, Modern Center, Historic quarter, The Vatican, Trastevere, Esquilino-San Giovann and many other historical places which make the visitors more captivated towards the city.

Colosseum: It is also known as the Flavian Amphitheatre, an oval theatre in the centre of the city of Rome, Italy. Built of concrete and sand, The Colosseum is situated just east of the Roman Forum. Construction began under the emperor Vespasian in AD 72, was completed in AD 80 under his successor and heir Titus.

The Vatican: The State of Vatican City is a country located within the city of Rome. Within Vatican City are religious and cultural sites such as St. Peter’s Basilica, the Sistine Chapel and the Vatican Museums. They feature some of the world’s most famous paintings and sculptures.

Trastevere: The Trastevere is known for traditional and innovative trattorias, craft beer pubs and artisan shops, as well as simple B&B and budget hotels. The land to the south of the Vatican, on the west bank of the Tiber River, full of narrow cobbled streets and lonely plazas that served as the inspiration for artists such as Giorgio de Chirico, now arguably the centre of Rome’s artistic life.
