EuroSciCon Conference on

Oncology and Cancer Stem Cell

November 05-06, 2018 | Paris, France

cancerstemcell@lifesciencemeeting.com
oncology@lifescienceevent.com

Agenda Day 1: November 05, 2018

Hall Name: Londres

08:00-09:00 Registrations

09:00-09:30 Opening Ceremony

Keynote Session

9:30-10:10 **Title: The challenge of early diagnosis of ovarian carcinoma**
Liane Deligdisch, The Mount Sinai Icahn School of Medicine, USA

10:10-10:50 **Title: Multi-bio-marker spatial interactions require high dimensional tissue analysis**
Fabian Schneider, Definiens AG, Germany

Group Photo: 10:50-11:00

Coffee Break: 11:00-11:20 @ Le Foyer

11:20-12:00 **Title:The proton preparation of NSC 631570 (UKRAIN) and its selective and immunomodulating effect**
Wassil Nowicky, Nowicky Pharma/Ukrainian Anti-Cancer Institute, Austria

Speaker Session

Cancer Complementary Treatment | Cancer Proteomics | Breast Cancer | Ovarian Cancer | Types of Cancer | Cancer Teartment and Targeted Therapy | Types of Biomarker and Biomarkers

Session Chair: Liane Deligdisch, The Mount Sinai Icahn School of Medicine, USA

Session Co-Chair: Wen Jie Zhang, Shihezi University School of Medicine, China

12:00-12:30 **Title: The decline of cancer incidence during organism senescence**
Alvaro Macieira Coelho, French National Institute of Health and medical research (Inserm), France

12:30-13:00 **Title: The impact of chemotherapy modification in the treatment of breast and ovarian cancer**
Sigita Liutkauskiene, Lithuanian University of Health Sciences, Lithuania

Lunch Break: 13:00-14:00 @ Food & More

14:00-14:30 **Title: Angiocrine actions elicited by IGF-I through the HIF-1α/GPER/VEGF pathway in the breast tumor microenvironment**
Ernestina M De Francesco, School of Environment and Life Sciences, University of Salford, UK

14:30-15:00 **Title: Can we increase the accuracy of PET/CT with a non-classical parameter for lipid-poor adrenal lesions in cancer patients?**
Simsek Selcuk Fikri, Nuclear Medicine Department, Firat University, Turkey

15:00-15:30 **Title: Targeting mitochondria in ovarian cancer**
Asli Giray, Alanya Alaaddin Keykubat University, Turkey

15:30-16:00 **Title: Kruppel like factor 4 and heat shock protein 27 as potential cancer biomarkers**
Elie Hadchity, Lebanese University, Lebanon

Coffee Break: 16:00-16:20 @ Le Foyer

16:20-16:50 **Title: Eating away your cancer**
Xu Chen, University of the Rockies, USA

Poster Presentation @16:50-18:00

OCS-01 **Title: Pediatric tumors of the central nervous system: Palliative approach for an excellent care**
María Ah Chu de Spengler, Panama University, Republic of Panama

OCS-02 **Title: Long-term effects of Chernobyl nuclear accident on the epidemiology of leukemia among the population of Georgia**
Marika Gamkrelidze, University of Georgia, Republic of Georgia

Panel Discussion

Agenda Day 2: November 06, 2018

Hall Name: Londres

Keynote Session

09:30-10:10 **Title: Negative correlation between levels of extracellular ubiquitin and regenerating blood cell count in irradiated mice**

Rusudan Sujashvili, New Vision University, Geogia

10:10-10:50 **Title: A sensitive single-visit cervical screening using Pap test and visual inspection enabling same-day biopsy in low-resource communities**

Wen Jie Zhang, Shihezi University School of Medicine, China

Coffee Break: 10:50-11:10 @ Le Foyer

Speaker Session

Cancer Preventions | Oncology | Cancer Treatments and Therapeutics | Cancer Epidemiology | Cancer Stem cells | Oncology | Cancer Causes | Nursing Oncology | Lung Cancer | Types of Cancer

Session Chair: Wassil Nowicky, Nowicky Pharma/Ukrainian Anti-Cancer Institute, Austria

Session Co-Chair: Alvaro Macieira Coelho, French National Institute of Health and medical research (Inserm), France

11:10-11:40 **Title: The process of oncology nurse practitioner patient navigation: A grounded theory approach**

Frances Mary Johnson, Texas Woman's University, USA

11:40-12:10 **Title: Use of microRNA expression pattern as tool for translational research and for cancer patient stratification**

J C Hahne, The Institute of Cancer Research, United Kingdom

12:10-12:40 **Title: Cardiotoxicity of first-line chemotherapy in patients with advanced non-small cell lung cancer**

Daliborka S Bursac, University of Novi Sad, Serbia

12:40:13:10 **Title: Vessel co-option in glioblastoma: Spy it, find the target and shoot**

Giorgio Seano, Massachusetts General Hospital and Harvard Medical School, Boston, USA

Lunch Break: 13:00-14:00 @ Food & More

14:10-14:40 **Title: Cellular plasticity and reprogramming in lethal neuroendocrine prostate cancer**

Kirsi Ketola, University of Eastern Finland, Finland

14:40-15:10 **Title: Iodine, toxins and cancer**

Xu Chen, University of the Rockies, USA

15:10-15:40 **Title: Alteration of percentage of blood serum proteins by extracellular ubiquitin in irradiated mice**

Irine Ioramashvili, Beritashvili Centre of Experimental Biomedicine, Georgia

15:40-16:10 **Title: The priority carcinogens and how to prevent the incologic diseases**

Valery S. Petrosyan, M.V. Lomonosov Moscow State University, Russian Federation

Coffee Break: 16:10-16:30 @ Le Foyer

Video Presentation

16:30-17:00 **Title: The effect of the anti-cancer preparation NSC631570 (UKRAIN) on the dendritic cells**

Wassil Nowicky, Nowicky Pharma/Ukrainian Anti-Cancer Institute, Austria

17:00-17:30 **Title: Sugar mimetics toward an anti-cancer therapeutic vaccine**

Pierre Vogel, Swiss Institute of Technology in Lausanne, Switzerland

17:30-18:00 **Title: Hemostatics irradiation and correlation with Von Willebrand factor plasma in cancer bleeding cessation**

Umi Mangesti Tjiptoningsih, Dharmais Cancer Hospital, Indonesia

Panel Discussion
