

EuroSciCon

6th Edition of International Conference and Exhibition on

Organic Chemistry

August 16-17, 2018
Dublin, Ireland

Theme:

Scientific Breakthrough and Advanced Perspective in Organic Chemistry

EuroSciCon

Organic Chemistry

2018

Invitation

Welcome to Ireland, the City of Arts and Science, and experience the organic chemistry illuminated as never before. EuroSciCon is proud to host the “6th Edition of International Conference and Exhibition on Organic Chemistry” during August 16-17, 2018 at Dublin, Ireland. This year’s theme is Scientific Breakthrough and Advanced Perspective in Organic Chemistry. Organic Chemistry 2018 will provide an unprecedented opportunity for Organic chemistry researchers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Organic chemistry researchers and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Organic Chemistry Conference is the perfect venue not only to dive into your particular organic chemistry interests but also to expand the scope of your knowledge. 17 tracks are devoted to subjects such as the New Developments In Organic Chemistry, Medicinal And Bioorganic Chemistry, Physical Organic Chemistry, Computational Advances In Organic Chemistry, Green Chemistry in Organic Synthesis, Biotransformations in Organic Chemistry, Environmental Organic Chemistry, Fluorous Chemistry, Domino Reactions in Organic Synthesis, Spectroscopic Methods of Structure Determination, Stereochemistry, Organic Synthesis and Technologies, Organic Reactions in Pharmaceutical Development, Organocatalysis and New Strategies and Nanoparticles in Organic Chemistry.The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Organic forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Dublin, Ireland

EuroSciCon

Organic Chemistry

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

With over 25000 Organic chemists accessing the website, Organic chemistry 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Organic Chemistry 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

August 16-17, 2018
Dublin, Ireland

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Organic Chemistry

2018

Who'd be attending?

6th Edition of International Conference and Exhibition on Organic Chemistry plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Eminent Scientists/ Research Professors in the field of Organic Chemistry, Junior/ Senior research fellows, Students, Directors of organic chemistry research companies, Chemical Engineers, Members of Chemistry associations and exhibitors from Organic Industry.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society, Institute of Biomedical Science (IBMS) and British Society. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Physical Organic Chemistry
- New Developments in Organic Chemistry
- Medicinal and Bioorganic Chemistry
- Organocatalysis And New Strategies
- Organic Reactions in Pharmaceutical Development
- Organic Synthesis and Technologies
- Organic Materials & Supramolecular Chemistry
- Nanoparticles in Organic Chemistry
- Stereochemistry
- Spectroscopic Methods of Structure Determination
- Domino Reactions in Organic Synthesis
- Fluorous Chemistry
- Chemistry of Heterocyclic Compounds
- Green Chemistry in Organic Synthesis
- Computational Advances in Organic Chemistry
- Biotransformations In Organic Chemistry
- Environmental Organic Chemistry

EuroSciCon

See your work PUBLISHED

in one of our related journals

- Journal of Organic & Inorganic Chemistry
- Archives in Chemical Research
- Der Chemica Sinica

About Destination Ireland

Ireland is an island in the North Atlantic. It is separated from Great Britain to its east by the North Channel, the Irish Sea, and St George's Channel. Ireland is the second-largest island of the British Isles, the third-largest in Europe, and the twentieth-largest on Earth. The island's geography comprises relatively low-lying mountains surrounding a central plain, with several navigable rivers extending inland. The island has lush vegetation, a product of its mild but changeable climate which is free of extremes in temperature. Thick woodlands covered the island until the Middle Ages. Dublin is the capital and largest city of Ireland. Dublin is in the province of Leinster on Ireland's east coast, at the mouth of the River Liffey. The city has an urban area population of 1,173,179. The population of the Greater Dublin Area, as of 2016, was 1,904,806 people. As of 2010, Dublin was listed by the Globalization and World Cities Research Network (GaWC) as a global city, with a ranking of "Alpha-", which places it amongst the top thirty cities in the world. It is a historical and contemporary centre for education, the arts, administration, economy and industry. Dublin has many landmarks and monuments dating back hundreds of years. One of the oldest is Dublin Castle, which was first founded as a major defensive work on the orders of England's King John in 1204, shortly after the Norman invasion of Ireland in 1169. One of Dublin's newest monuments is the Spire of Dublin, or officially titled "Monument of Light". Other landmarks and monuments include the Mansion House, the Anna Livia monument, the Molly Malone statue, Christ Church Cathedral, St Patrick's Cathedral, Saint Francis Xavier Church on Upper Gardiner Street near Mountjoy Square, The Custom House and Áras an Uachtaráin. The Poolbeg Towers are also landmark features of Dublin, and visible from various spots around the city.Dublin is the primary centre of education in Ireland, and is home to three universities, Dublin Institute of Technology and a number of other higher education institutions. There are 20 third-level institutes in the city and in surrounding towns and suburbs. Dublin was European Capital of Science in 2012.Ireland is the world's most profitable country for US corporations, with a corporation tax rate of 12.5% according to the US tax journal Tax Notes.The country is one of the largest exporters of pharmaceuticals, medical devices and software-related goods and services in the world.The pharmaceutical sector employs approximately 50,000 people and is responsible for 55 billion euro of exports.The Medical technology (MedTech) sector employs nearly 25,000 people and generates 9.4 billion euro annually, with over one hundred companies in the country.
