

EuroSciCon

7th Edition of International Conference and Exhibition on

Organic Chemistry

August 26-27, 2019
London, UK

Theme:
Exploring New Ideas and Discoveries in Chemistry Research

EuroSciCon

Organic Chemistry

2019

Invitation

Welcome to London, the City of Arts and Science, and experience the organic chemistry illuminated as never before. EuroSciCon is proud to host the "7th Edition of International Conference and Exhibition on Organic Chemistry" during August 26-27, 2019 at London, UK. This year's theme is Exploring New Ideas and Discoveries in Chemistry Research. Organic Chemistry 2019 will provide an unprecedented opportunity for Organic chemistry researchers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Organic chemistry researchers and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Organic Chemistry Conference is the perfect venue not only to dive into your particular organic chemistry interests but also to expand the scope of your knowledge. 22 tracks are devoted to subjects such as the Spectroscopic Methods Of Structure Determination, Domino Reactions In Organic Synthesis ,Chemistry Of Heterocyclic Compounds, Green Chemistry In Organic Synthesis, Environmental Organic Chemistry, Computational Advances In Organic Chemistry, Biotransformations In Organic Chemistry, Fluorous Chemistry, Physical Organic Chemistry, New Developments In Organic Chemistry, Medicinal And Bioorganic Chemistry, Organocatalysis And New Strategies, Organic Reactions In Pharmaceutical Development, Organic Synthesis And Technologies, Organic Materials & Supramolecular Chemistry, Nanoparticles In Organic Chemistry, Stereochemistry, Organic Industrial Chemistry, Electro Organic Chemistry, Bio-Chemistry And Agricultural Chemistry Polymer Chemistry, Organic Geochemistry. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Organic forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

EuroSciCon

Organic Chemistry

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

With over 25000 Organic chemists accessing the website, Organic chemistry 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Organic Chemistry 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

August 26-27, 2019
London, UK

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Organic Chemistry

2019

Who'd be attending?

7th Edition of International Conference and Exhibition on Organic Chemistry plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Eminent Scientists/ Research Professors in the field of Organic Chemistry, Junior/ Senior research fellows, Students, Directors of organic chemistry research companies, Chemical Engineers, Members of Chemistry associations and exhibitors from Organic Industry.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 18 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society, Institute of Biomedical Science (IBMS) and British Society. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Biotransformations In Organic Chemistry
- Fluorous Chemistry
- Physical Organic Chemistry
- New Developments In Organic Chemistry
- Medicinal And Bioorganic Chemistry
- Organocatalysis And New Strategies
- Organic Reactions In Pharmaceutical Development
- Organic Synthesis And Technologies
- Organic Materials & Supramolecular Chemistry
- Nanoparticles In Organic Chemistry
- Stereochemistry
- Organic Industrial Chemistry
- Electro Organic Chemistry
- Bio-Chemistry And Agricultural Chemistry
- Polymer Chemistry
- Organic Geochemistry

EuroSciCon

Organic Chemistry

2019

Academic Keytopics

- Acids and Bases
- Amino acids, Peptides, Proteins, Carbohydrates and Nucleic acids
- Biochemistry
- Biosensor
- Biotransformation
- Carcinogen
- Catalysis
- Catalysis and Photocatalysis
- Chirality
- Computational Organic Chemistry
- Conformational Analysis
- Coordination Chemistry
- Covalent Bonding
- Crystallographic Technique
- Enzyme
- Fluorous Chemistry
- Green chemistry
- Heterocyclic Chemistry
- Hydrocarbons
- Inorganic chemistry
- Lipids
- Mechanistic organic chemistry
- Medicinal chemistry
- Nanotechnology
- Organic Chemistry and Cancer
- Organic Compounds
- Organic reactions
- Organometallic Chemistry
- Pharmacology
- Polymer Chemistry
- Stereoisomerism and Chirality

EuroSciCon

Organic Chemistry

2019

Business Key topics

- Biochemical and Processing Aspects
- Biomaterial
- Catalytic Cracking
- Classification and the Chemistry of Pharmaceutical Products
- Computational chemistry software
- Dehydrogenation
- Design biologically active compounds
- Development of the Chemical Industry
- Discovery and Development of Drugs
- Drug Delivery
- Fluorous Technologies
- Formulation Chemistry and Technology
- Green chemistry approach organic synthesis
- Infrared Spectroscopy
- Manufacture of Organic Compounds
- Mass spectrometry
- Multimetallic Nanoparticles
- Nuclear Magnetic Resonance (NMR) spectroscopy
- Organic Chemicals
- Organic chemistry for environmental engineering
- Organic chemistry in food industry
- Organic chemistry in medicine industry
- Organic Chemistry Market in Asia
- Organic Chemistry Market in Australia
- Organic Chemistry Market in Canada
- Organic Chemistry Market in Dubai
- Organic Chemistry Market in Europe
- Organic Chemistry Market in Germany
- Organic Chemistry Market in Japan
- Organic Chemistry Market in UK
- Organic Chemistry Market in USA
- Organic chemistry pharmaceutical industry
- Organic chemistry role in industry
- Polymers Industry
- Reaction Optimization and Design
- Reaction Technologies
- Solvent Extraction
- Surface and Colloid Chemistry
- Synthesis Gas

About Destination London

London is the capital and most populous city of England and the United Kingdom. Standing on the River Thames in the south east of the island of Great Britain, London has been a major settlement for two millennia. It was founded by the Romans, who named it Londinium. London's ancient core, the City of London, largely retains its 1.12-square-mile (2.9 km2) medieval boundaries. Since at least the 19th century, "London" has also referred to the metropolis around this core, historically split between Middlesex, Essex, Surrey, Kent and Hertfordshire, which today largely makes up Greater London,a region governed by the Mayor of London and the London Assembly. London is a leading global city in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. It is the world's largest financial centre and has the fifth or sixth largest metropolitan area GDP in the world. London is often regarded as a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport systemmeasured by passenger traffic. It is the world's leading investment destination, hosting more international retailers and ultra high-net-worth individuals than any other city. London's universities form the largest concentration of higher education institutes in Europe. In 2012, London became the first city to have hosted the modern Summer Olympic Games three times.London contains four World Heritage Sites: the Tower of London; Kew Gardens; the site comprising the Palace of Westminster, Westminster Abbey, and St Margaret's Church; and the historic settlement of Greenwich (in which the Royal Observatory, Greenwichdefines the Prime Meridian, 0° longitude, and GMT). Other landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, including the British Museum, National Gallery, Natural History Museum, Tate Modern, British Library and West End theatres. The London Underground is the oldest underground railway network in the world.
