2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus Euroscicon comes out with a sole aim of wide access about pathology and also to explore their views based on the theme of the conference.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Pathologists ,Adjunct Professors, International professors & Scientific Health Professionals accessing the website, Pathology Week 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

June 19-20, 2019
Tokyo, Japan

Pathology Week 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Who'd be attending?

19th Edition on World Pathology Week 2019 plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently business analysts, medical representatives and Pediatrics providers.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Digital Pathology & Telepathology
- Surgical Pathology
- Veterinary Pathology
- Histopathology & Cytopathology Experimental Pathology
- Autopsy Pathology
- Molecular Pathology
- Breast Pathology
- Clinical Pathology & Chemical Pathology
- Comparative Pathology
- Pathology Case Reports
- Cancer Cytopathology
- Liver Pathology & Gastrointestinal Pathology
- Gynaecological Pathology, Reproductive Pathology & Uropathology
- Hematopathology
- Dermatopathology
- Soft Tissue & Bone Pathology
- Oral & Maxillofacial Pathology
- Anatomic Pathology & Forensic Pathology
- Microbial Pathology & Infectious Disease Pathology
- Head And Neck Pathology
- Neuropathology
- Nephropathology
- Immunopathology
- Diagnostics Pathology
- Paediatric & Perinatal Pathology
- Ophthalmic Pathology
- Psychopathology
- Renal Pathology & Urinary Tract Pathology
- Plant pathology

2019

About Destination Tokyo, Japan

Tokyo is the 2nd biggest city in Japan, this is the prefect financial centre point for the nation, it is considered for its present day engineering, nightlife. 23 wards filling in as an essential budgetary focus point for the country. It's known for its present day building, nightlife and solid street sustenance. Tokyo gives an ideal region to overall associations endeavouring to contribute with experienced close-by accessories. It is home to an extent of skilled makers in the equipment, pharmaceutical, contraption, device, blend, sustenance.

Japan is one of the 47 prefectures of Japan and has been the capital since 1869. The Greater Tokyo Area is the most populous metropolitan area in the world. It is the seat of the Emperor of Japan, the Japanese government and the National Diet. Tokyo is in the Kantō region on the southeastern side of the main island Honshu and includes the Izu Islands and Ogasawara Islands. Tokyo was formerly named Edo when Shōgun Tokugawa Ieyasu made the city as his headquarters in 1603. It became the capital after Emperor Meiji moved his seat to the city from Kyoto in 1868 at that time Edo was renamed Tokyo. Tokyo Metropolis was formed in 1943 from the merger of the former Tokyo Prefecture and the city of Tokyo.

Tokyo has 39 million occupants, half a greater number of individuals than some other urban region, with a $2.5 trillion economy bigger than that of some other city; on the off chance that it were a nation, Tokyo would be the eighth biggest economy on the planet. Tokyo is frequently alluded to as a city yet is authoritatively referred to and administered as a "metropolitan prefecture", which varies from and joins components of a city and a prefecture, a trademark one of a kind to Tokyo. The Tokyo Metropolitan Government directs the 23 Special Wards of Tokyo (each administered as an individual city), which cover the region that was the city of Tokyo before it blended and turned into the metropolitan prefecture in 1943, the 30 regions in the western piece of the prefecture, and the two remote island chains. The number of inhabitants in the unique wards is more than 9 million individuals, with the aggregate populace of the prefecture surpassing 13 million. The prefecture is a piece of the world's most crowded metropolitan zone with upwards of 37.8 million individuals and the world's biggest urban agglomeration economy. In 2011, the city facilitated 51 of the Fortune Global 500 organizations, the most elevated number of any city on the planet around then. Tokyo positioned third (twice) in the International Financial Centers Development Index. The city is additionally home to different telecom companies, for example, Fuji TV, Tokyo MX, TV Tokyo, TV Asahi, Nippon Television, NHK and the Tokyo Broadcasting System.
