AGENDA

Biography

EuroSciCon

Title: Transvaginal Ovarian Drilling (TVOD) for Severe Polycystic Ovary Syndrome Prior to In Vitro Fertilization Dramatically Improved Embryo Yield, Implantation and Pregnancy Rates

Martin Keltz
St. Lukes and Roosevelt Hospitals, USA

Biography

Dr. Martin Keltz, a board certified reproductive endocrinologist, established WESTMED Reproductive Services in 2015. Dr. Keltz graduated from Harvard College in 1985, the NYU School of Medicine in 1989, and completed his OB/GYN residency at NYU/Bellevue in 1993. Since completing his fellowship in reproductive endocrinology at Yale University in 1995, Dr. Keltz has been director of reproductive endocrinology at St. Luke's and Roosevelt Hospitals, where he is now an associate professor at the Icahn School of Medicine at Mt. Sinai.

Title: The Prevalence of Ovarian Varices in Patients with Endometriosis

Kennedy Gonçalves Pacheco
Hospital Geral da Posse
Brazil

Biography

Dr. Kennedy Gonçalves Pacheco has had 5 years of training in General Surgery and Angiology as a resident in "Hospital Geral da Posse" and "Hospital de Ipanema" both in Rio de Janeiro, Brasil (1989-1994), and has specialized in Phlebology/Venous Pathology in Paris, France – "Faculté de Medecine Pierre et Marie-Curie" (Hôpital Pitié-Salpetière – 2010/2011). He has published articles in the respected "Annals of Vascular Surgery" and "French Phlebology Magazine" and other case reports in international journals.

Title: Reproductive aging, perimenopause & menopause in women with PCOS

Lubna Pal
Yale School of Medicine, USA

Biography

Lubna Pal is a Professor in the Department of Obstetrics, Gynecology & Reproductive Sciences at the Yale School of Medicine. She is the Interim Chief of Division of Reproductive Endocrinology & Infertility, Director of REI Fellowship Program and serves as the Associate Chair for Education for the Department of Obstetrics, Gynecology & Reproductive Sciences at the Yale School of Medicine. As a reproductive endocrinologist and infertility specialist, her areas of clinical and research interests span the reproductive spectrum and include PCOS, infertility, menstrual abnormalities, menopause and osteoporosis. As the director of Program for Polycystic Ovary Syndrome at Yale RE, her research has explored the therapeutic relevance of vitamin D in PCOS. She is also the Director for Program for Menopause at Yale Reproductive Endocrinology. She is a recipient of multiple awards for clinical excellence, teaching and for clinical research, has published in numerous scientific journals, is on the editorial board of reputable peer review journals in the field and is recognized nationally and internationally for her work in the field of reproductive health. Her research on PCOS has focused on relevance of vitamin D.

Title: The Role of Exercise in the Treatment of PCOS

Robert Tygenhof
Integrative Medical Group of Irvine, USA

Biography

Bob Tygenhof is the Director of the Center for Active Lifestyle Medicine at Integrative Medical Group of Irvine. In that capacity he has designed and implemented a number of programs that utilize various lifestyle treatment modalities to reduce inflammation, oxidative stress and hormonal imbalances. Bob ties together detox, nutrition, timed eating, and fitness programs with other prescribed PCOS treatments to achieve optimal results.

Title: Effect of exposure to second-hand smoke from husbands on sex hormones, metabolic profiles, clinical phenotypes and pregnancy outcomes in women with polycystic ovary syndrome undergoing ovulation induction

Ronald Wang
The Chinese University of Hong Kong, Hong Kong

Biography

Ronald Wang currently is a Professor, Department of Obstetrics & Gynaecology; Deputy Director, Prenatal Genetics Diagnosis Centre; Laboratory-in-charge, Department of Obstetrics & Gynaecology; Professor (by courtesy), School of Biomedical Sciences; and Principal Investigator, Li Ka Shing Institute of Health Sciences, The Chinese University of Hong Kong. Dr. Wang has major research interest in clinical and basic research in reproductive medicine, and recently invoved in a RCT on PCOS. With wide range of experience in clinical diagnosis, medical research and teaching, Dr. Wang was appointed to the editorial boards and review panels of many important research funding agents and journals. Dr. Wang has worked on many research projects received a total of 60 million research grants and owned 2 patents. He has published over 150 ISI articles on many acclaimed journals.

Title: How to prevent and manage multifarious Polycystic Ovary Syndrome (PCOS)

Marion Eckert-Krause
University of Principality of Liechtenstein (UFL), Austria

Biography

Dr. Marion Eckert-Krause is a specialist for metabolic diseases. After training as a practice nurse and gardener, she studied biology and waste management, and then worked for several years in field sales before moving to internal sales via key account management. She spent nearly ten years in sales operations before earning a doctorate in medicine. Since then, she has worked in quality management and began with PCOS research. She developed the DEBEC-Method® and ran several case studies with menopausal/postmenopausal women including PCOS-diagnosed patients. To understand the principle of hair removal she learnt electrolyst. Since 2012 she is actively joining congresses in USA, Switzerland, Germany and Austria. Her Institute “FISGES” was founded in 2014 to take care of the PCOS-Patients needs with focus on a defined study. Since 2017 she is lecturer for Private University of Principality of Liechtenstein (UFL). Since 2018 DEBEC-Method® is registered with number 295512 at Austrian Patent and Trademark Office.

Title: Management for women with PCOS prior to desiring pregnancy

Nobuhiko Suganuma
Kyoto University Graduate School of Medicine, Japan

Biography

Nobuhiko Suganuma, is a Professor in the Department of Human Health Sciences, Kyoto University Graduate School of Medicine in Japan. He is the Directors of Japan Societies of Fertilization and Implantation, Maternal Health, Reproductive Psychology, and Sexual Science. He is also the Councilors of Japan Society of Reproductive Medicine, and Japan Endocrine Society. Recently he became a President of Japan Society for Uterus Transplantation (JSUTx), and a Vice President of International Society for Uterus Transplantation (ISUTx) along his special field on uterine factor infertility treatment. As a reproductive endocrinologist, he demonstrated that the PCOS occurrence could be connected with LH gene variation using molecular biological technologies. By these performances, he got the Research Award from the Japan Endocrine Society in 1996. On the clinical aspects, his group could succeed the first childbirth in Japan in 1994 using TESE-ICSI method. He has established a Center for Advanced Reproductive Medicine in Kyoto University Hospital in 2013, and is performing cryopreservation of oocytes or ovarian tissues as oncofertility management.

Title: The critical role of p66shc oxidative stress pathway in hyperandrogen-induced ovarian fibrosis

Yong Wang
Nanjing University, China

Biography

Yong Wang is a professor at Medical School, Nanjing University whose research interest focuses on polycystic ovary syndrome, and who is dedicated to the teaching of histology and embryology

Title: Biopsychosocial impact of pelvic pain: A former patient's perspective

Erin K. Jackson
Inspire Sante, USA

Biography

Erin K. Jackson is the Founder and President of Inspire Sante, a nonprofit organization dedicated to promoting awareness of pelvic pain disorders. As a survivor of a decade-long battle with chronic pelvic pain, Jackson is uniquely situated to understand the frustration, vulnerability, and fear that can accompany pelvic pain. Trained as an attorney, this work came naturally to Jackson, who is also the managing partner at a boutique healthcare law firm in Chicago. As a speaker, Jackson is vulnerable, humorous, and articulate. She seamlessly blends her personal experiences into motivating discussions about how our healthcare system can better serve women. Her mission is simple: she aims to inspire sante, which literally means to "inspire health," in others.

Title: Prepregnancy Phenotype and Physiological Characteristics in PCOS

Tendai Chiware
University of Vermont
College of Medicine, USA

Biography

Dr. Tendai Chiware is a Reproductive Endocrinology and Infertility Fellow in Vermont, U.S.A. She attended medical school at the University of Birmingham in the U.K. She was a trainee in the U.K. and is a member of the Royal College of Obstetricians and Gynaecologists. She completed residency in Michigan, U.S.A. and is board certified with the American Board of Obstetrics and Gynecology. Dr. Chiware worked at the Department of Reproductive Health and Research of the World Health Organization in Geneva, Switzerland. Dr. Chiware's interests include PCOS, diminished ovarian reserve, fertility preservation, minimally invasive surgery, reproductive surgery and Global Health. She has presented her work at national and international meetings including the Society for Reproductive Investigation, the Society for Reproductive Investigation, the Society for Reproductive Investigation and she will be speaking at the European Society of Human Reproduction and Embryology annual meeting.

Title: Polycystic Ovarian Syndrome-Studies in BSMMU, Bangladesh

M A Hasanat
Bangabandhu Sheikh
Mujib Medical University
Bangladesh

Biography

Prof. M A Hasanat holding M Phil and MD degrees in Endocrinology is currently working as Professor and Chairman in the Department of Endocrinology, Bangabandhu Sheikh Mujib Medical University (BSMMU), Dhaka, Bangladesh. He has more than 50 original articles published in reputed national and international journals. His major research areas are Diabetes (special fascination in GDM and Diabetes of Young), PCOS and infertility, Thyroid autoimmunity and childhood obesity. He is also working as Editor (American Research Journal of Endocrinology, International Journal of Diabetes, and Obesity and Diabetes International journal) of different open access journals.

- **Title: Relationship between variants of Menstrual Disturbance and Insulin Resistance in Patients with Polycystic Ovary Syndrome in Bangladesh**

Naresh Parajuli
Bangabandhu Sheikh
Mujib Medical University
Bangladesh

Biography

Dr Naresh Parajuli is a resident doctor studying MD in the Department of Endocrinology, Bangabandhu Sheikh Mujib Medical University (BSMMU) Dhaka, Bangladesh. His research interest is in PCOS and infertility, Diabetes and obesity. He has attended and presented posters in reputed National and International conferences. He is also working as a member in PCOS Study Group in BSMMU, Bangladesh.
