#Pediatrics 2017

#Pediatrics 2017

The annual Pediatrics 2017 is an international academic event with plenty of opportunity for networking and debate. In an informal setting, this meeting will bring you up to date with current research and thinking regarding screening, prevention and treatment in this ever-growing field. Presenting at this event, we will have a variety of clinicians, academics and members of the pharmaceutical industry; we encourage presentations from the wide spectrum of pediatrics research, development and healthcare professionals.

This event has CPD accreditation

#Pediatrics 2017

Agenda

Agenda Day 1: Pediatrics 2017

Introduction by Chair

1. Mediterranean diet survey results in a population of children with adhd
2. Clinical effect of phenolic extract and essential oil of ceratonia siliqua l (caroub) on digestive flora of hospitalized malnourished children's.
3. Wiskott-aldrich syndrome (was): a case report of mauritius and review
4. The positive clinical consequence of early intervention of combined therapy (omega 3 fay acids and b12 vitamin) in children under 5 with variable forms of cerebral palsy
5. China children asthma action plan
6. The importance of transitional care for the chronically sick child
7. Cues-ed. an innovative cognitive behavioural package for improving emotional well-being and resilience in young children
8. Gestalt tehniques as a measure of support to different medical treatments
9. Neuroanatomy of high order cognitive processing following very preterm birth
10. Nmproving the patient and family experience in the pediatric critical care environment
11. Long term outcomes following baked milk - containing diet for ige-mediated milk allergy
12. Newborns born to mothers with immune trombocytopenic purpura
13. Question time

Agenda

Agenda Day 2: Pediatrics 2017

Introduction by Chair

1. Presence of parents at induction and recovery as a methodology for reducing anxiety of parents and children in paediatric surgery
2. Dialectical Behaviour Therapy for pre-adolescent children: Current evidence and future direction
3. In the management of necrotizing enterocolitis
4. Novel developments and methodologies for preserving child wellbeing from serious infection
5. The role of Lactobacillus reuteri DSM 17938 in nutritional recovery and treatment of constipation in children and adolescents with anorexia nervosa – a randomised, double blind, placebo controlled study
6. Pancreatic Insufficiency
7. Optimal management of paediatric cerebral arteriovenous malformations
8. Oral microbiology in detecting child abuse cases: a new perspective
9. Through the Looking Glass: Global and Country-level Innovations and Initiatives in Maternal, Newborn, Child Health and Nutrition”
10. Evaluation of Suspected Appendicitis in the Emergency Department of a Tertiary Care Center in Beirut, Lebanon.

#Pediatrics 2017

Agenda Day 1: Pediatrics 2017

09:00 – 09:45	Exhibitions open	Registration and Refreshments
09:45 – 10:25	Introduction by the Chair China Children Asthma Action Plan	Dr Kunling Shen , National Clinical Research Center for Respiratory Diseases, Department of Respiratory Medicine, Beijing Children's Hospital, Capital Medical University, National Center for Children's Health, China, Beijing 100045, China
10:25 – 10:50	The Importance of Transitional Care for the Chronically Sick Child	Dr. Christopher Woods, Emeritus Professor of Adolescent Urology, University College, London, UK
10:50 – 11:15	CUES-Ed. An innovative Cognitive Behavioural package for improving emotional well-being and resilience in young children	Dr. Sophie Browning , South London & Maudsley NHS Foundation Trust, UK
11:15 – 11:45	Poster Review and Exhibitions	Refreshments provided
11:45 – 12:15	Oral Presentations	
11:45 – 12:00	Neuroanatomy of high order cognitive processing following very preterm birth	Dr. Chiara Nosarti, Department of Psychosis Studies, Institute of Psychiatry, King's College London
12:00 – 12:15	Improving the Patient and Family Experience in the Pediatric Critical Care Environment	Dr Frankel Lorry, Stanford University, emeritus professor, pediatric critical care, Chair Department of Pediatrics, California Pacific Medical Center, San Francisco
12:15 – 12:30	LONG TERM OUTCOMES FOLLOWING BAKED MILK - CONTAINING DIET FOR IGE-MEDIATED MILK ALLERGY	Dr. Illan Dalal, Pediatric Allergy Unit, E. Wolfson Medical Center
12:30 – 12:50	Newborns born to mothers with immune trombocytopenic purpura	Dr. Murat Yurdakok, Department of Pediatrics, Hacettepe University Faculty of Medicine, Ankara, Turkey
12:50 – 13:20	PRESENCE OF PARENTS AT INDUCTION AND RECOVERY AS A METHODOLOGY FOR REDUCING ANXIETY OF PARENTS AND CHILDREN IN PAEDIATRIC SURGERY	Dr. Fernanda Barros, Anesthesiologist, Hospital S. João, Porto, Portugal
13:20 – 14:20	Lunch Break with Exhibitions	Poster viewing
14:20 – 14:45	Dialectical Behaviour Therapy for pre-adolescent children: Current evidence and future direction	Francheska Perepletchikova, Weill Cornell Medical College, USA
14:45 – 15:15	Oral Presentations	
14:55 – 15:25	In the management of necrotizing enterocolitis	Dr. Yasen Alayet, king saud medical city ,KSA, Saudi Arabia
15:25 – 15:55	Novel developments and methodologies for preserving child wellbeing from serious infection	Dr. Kwang Sik Kim, Johns Hopkins University School of Medicine, USA
15:55 – 16:25	Last Poster Review and Exhibitions	Refreshments provided
16:25 – 16:40	The role of Lactobacillus reuteri DSM 17938 in nutritional recovery and treatment of constipation in children and adolescents with anorexia nervosa – a randomised, double blind, placebo controlled study	Dr Orjena Zaja, Pediatric Department, Center for eating disorders in children and adolescents, Dental Medical School, Zagreb University Hospital Sestre milosrdnice and Medical School Split University, Croatia
16:40 – 17:00	Question Time	
17:00	Chairman's Summing Up	Close of Session

#Pediatrics 2017

Agenda Day 2: Pediatrics 2017

Time Session	Exhibitions open	Registration and Refreshments
09:45 – 10:15	Introduction by the Chair "Through the Looking Glass: Global and Country-level Innovations and Initiatives in Maternal, Newborn, Child Health and Nutrition	Dr. Cyril M. Engmann, Global Program Leader and Director for the Maternal, Newborn, Child Health and Nutrition (MNCHN) program at PATH, USA
10:15 – 10:45	Optimal management of paediatric cerebral arteriovenous malformations	Dr.Guillaume Saliou, Department of Diagnostic and Interventional Radiology, Lausanne University Hospital, Rue de Bugnon 46, 1011 Lausanne, Switzerland
10:45 – 11:15	Oral microbiology in detecting child abuse cases: a new perspective	Inês Morais Caldas, Faculty of Dental Medicine (University of Porto, Portugal); IINFACTS – Institute of Research and Advanced Training in Health Sciences, Department of Sciences, Portugal
11:15 – 11:45	Poster Review and Exhibitions	Refreshments provided
11:45 – 12:15	Pancreatic Insufficiency	M. Miqdady, MD American Board of Ped. Gastroenterology Chief, Ped. Gastroenterology, Sheikh Khalifa Medical City, UAE
12:15 – 12:45	Evaluation of Suspected Appendicitis in the Emergency Department of a Tertiary Care Center in Beirut, Lebanon.	El-Sayed M, Department of Emergency Medicine, American University of Beirut Medical Center, Beirut, Lebanon
12:45 – 13:00	The positive clinical consequence of early intervention of combined therapy (omega 3 fay acids and B12 vitamin) in children under 5 with variable forms of cerebral palsy	Khajik Sirob Yaqob, MA, specialist in childs nutrition with interest in pediatric neurology, associate membership of the RCPCH, membership of Oxford university hospitals, Iraq
13:00 – 14:00	Lunch Break with Exhibitions	Poster viewing
14:00 – 14:30	Oral Presentation	
	Wiskott-Aldrich Syndrome (WAS): A Case Report of Mauritius and Review	Kamlesh Ramphul , Department of Pediatrics, Shanghai Xin Hua Hospital, School of Medicine, Shanghai Jiao Tong University, China
14:30 – 14:55	Challenges and Innovations: A routine for Rural Child Healthcare provider in developing countries.	Dr. Kush Jhujnjhunwala, Health Biotechnology Division, National Institute for Biotechnology, Faisalabad, Pakistan
14:55 – 15:10	The Psychological Impact of the Early Loss of a Mother on the health and well-being of daughters.	Dr Anne Tracey, Ulster University, Northern Ireland
15:10 – 15:40	Question Time	
15:40 – 16:30	Last Poster Review and Exhibitions	Refreshments provided
16:30 – 17:00	Chairman's Summing Up	Close of Session

About the Speaker

Kunling Shen:

Kunling Shen, pediatric consultant, PhD of Pediatrics, professor of Capital Medical University, President of National Pediatric Medication Consultation Committee. Immediate Past President of Chinese Pediatric Society, Chairman of Chinese Pediatric Pulmonology Society. President of Asian Pediatric Pulmonology Soceity. Prof Shen got her bachelor degree in the major of medicine and pediatrics in Capital Medical University in 1982, and then got her PhD majored in pediatrics and virology in 1993. She has been working in Beijing Children's Hospital and specialized in respiratory, virology and sleep medicine. Prof Shen is the vice chief editors of Chinese Journal of Practical Pediatrics, Chinese Journal of Contemporary Pediatrics and some other medical journals and associated editor of Pediatric Pulmonology.

Christopher Woods :

Consultant Urologist The Royal Marsden NHS Foundation Trust. Dates Employed1981 – 2014, London, United Kingdom. Surgery in urological oncology with a particular interest in bladder cancer and reconstruction. Institute of Urology, Degree NameFRCS Field Of StudyUrology Residency Program expected graduation1977 – 1981. Appointed Senior Lecturer and honorary consultant to the Institute on graduation. Later Reader and then Professor of Adolescent Urology at University College London.

Sophie Browning:

Dr Sophie Browning is a Consultant Clinical Psychologist and is the Lead Psychologist for inpatient Child and Adolescent Mental Health within South London & Maudsley NHS Foundation Trust. She has enjoyed working within inpatient CAHMS for nearly 20 years. Sophie is a British Association of Behavioural and Cognitive Psychotherapy (BABCP) accredited practitioner, supervisor and trainer. She teaches, trains and supervises within and outside the Trust in Cognitive Behaviour Therapy (CBT). Sophie has a special interest in CBT for adolescent psychosis and for distressing unusual experiences and is currently carrying out funded research in this area.

Chiara Nosarti :

Chiara Nosarti, Reader in Neurodevelopment and Mental Health in the Department of Psychosis Studies and Head of Psychology and Outcome Studies, Centre for the Developing Brain, King's College London, is a cognitive neuroscientist whose research focuses on the study of neurodevelopmental outcomes following very preterm birth, using multimodal neuroimaging. Dr Nosarti received her PhD from the University of London in 1998. A current research interest is the application of cognitive training programmes and the study of training-induced neuroplasticity.

Frankel Lorry:

Lorry Frankel completed his MD in 1978 from the University of Antwerp, Belgium. He trained in Pediatrics and Pediatric Critical Care Medicine finishing his training in 1983. He was then hired by Stanford University in the School of Medicine (Department of Pediatrics) to develop the Pediatric ICU. He was promoted to professor and retired from Stanford in 2010 to assume his current role as the Chair of the Department of Pediatrics at the California Pacific Medical Center in San Francisco, a Sutter Health Care Affiliate. During his career he has published more than 40 Peer reviewed papers, numerous chapters and co-authored a book on Ethical Dilemmas in Pediatrics published in 2006.

Illan Dalal:

Professor Ilan Dalal graduated with honor in 1987 from the B. Rappaport Faculty of Medicine, Technion, Haifa, Israel. He was a Pediatric resident in Carmel, Haifa, Israel (1987-1993) and a fellowship in Allergy/Immunology in the Hospital for Sick Children in Toronto, Canada in 1994-1997. He was a senior pediatrician in the Department of Pediatric at E. Wolfson Medical Center in Israel in 1997-2006. In the years 2006-2015 he was the director of the Pediatric Emergency Department and since 2015 he is the head of the Pediatric Department and the Pediatric Allergy Service.

Murat Yurdakok:

- Professor of Pediatrics, Consultant on Neonatology, Hacettepe University Faculty of Medicine, Ankara, Turkey

- Past-President of Turkish Neonatal Society
- Past-President of Turkish National Pediatric Society
- Secretary General, UENPS (Union of European Neonatal and Perinatal Societies)
- President of UMENS (Union of Mediterranean Neonatal Societies)

Fernanda Barros:

Dr. Fernanda qualified from Porto University in 1978, and trained in anesthesia at Hospital S. João, Porto from 1983-1987. Since 1994, I am Consultant in anesthesia and had the degree of Senior Consultant in 2003, after public examination. From 2003-2007 I undertook the Master Degree in Anesthesiology and Pain Therapy, at Coimbra University. In 2003 was given the Competence in Medical Emergency, by the Portuguese Medical Council. From 2006 to 2014, I was the Director of the Department of Anesthesiology of Hospital S. João. Since 1994, I am responsible for Paediatric Anaesthesia teaching in the residency program of our hospital. In 2006, it was created the Section of Paediatric Anesthesia of The Portuguese Society of Anesthesiology. I was a member of it's direction board, and became President of this Section since 2011. Since 2006, I am the National Representative in the Advisory Council of Representatives of National Societies (ACORNS) of the European Society of Paediatric Anaesthesia.

Francheska Perepletchikova:

Francheska Perepletchikova, Ph.D. is an Assistant Professor of Psychology, Department of Psychiatry, Weill Cornell Medical College (WCMC). She received Ph.D. in Clinical Psychology from Yale University Department of Psychology in 2007. She has a long-standing interest in emotion regulation, trauma-related psychopathology, suicidality and self-harm behaviors. Her research focuses on childhood psychopathology and psychotherapy development. Dr. Perepletchikova developed and evaluated Dialectical Behavior Therapy (DBT) for pre-adolescent children with severe emotional and behavioral dysregulation. This line of research has been funded by the grants from NIMH, NRSA and private foundations. Dr. Perepletchikova authored 28 journal articles and book chapters and a book "Treatment Integrity in Treatment Outcome Research" (2009). She conducted over 60 lectures, presentations and workshops around the world. As a clinician, Dr. Perepletchikova maintains her practice at WCMC, where she is a Founding Director of Youth-DBT Program and a Director of Outpatient Adolescent DBT Program.

Yasen Alayet:

Dr.Alalayet has completed his MD at the age of 24 years from Damascus University, Jordanian board of surgery, European board of paediatric surgery, diploma of laparoscopic surgery from GUTTENGEN University and postdoctoral Researcher certificate from KUL, Belgium. He is the HEAD of paediatric surgery department KSMC, Hammadi hospitals; He has published more than 12 papers in reputed journals and has been serving as a reviewer member of repute. He is examiner in Saudi commission for health specialties.

Kwang Sik Kim:

Dr. Kim is a full Professor and Director, the Eudowood Division of Pediatric Infectious Diseases at the Johns Hopkins University School of Medicine. He has provided clinical, educational, research and administrative leadership at two academic institutions (Children's Hospital of Los Angeles/USC Keck and Johns Hopkins University Schools of Medicine) in directing the Divisions of Pediatric Infectious Diseases and relevant training and scientific programs over the past 27 years. Dr. Kim's research program has been at the cutting edge of advancing our knowledge on the pathogenesis, prevention and therapy of central nervous system (CNS) infection, which has been supported by the NIH R01 grants since 1984, resulting in a total of 327 peer-reviewed publications. Dr. Kim continues to contribute to academic medicine and research community by promoting careers of young investigators and physician scientists as well as advancing the knowledge on the blood-brain barrier's contribution to CNS infection.

Orjena Zaja:

Orjena Žaja, MD, PhD, primarius, has completed her PhD at the age of 41 years from Zagreb University. She is Head of Center for Eating disorders in children and adolescent and Assistant Head of Pediatric Department at University Hospital Sestre milosrdnice, Zagreb, Croatia. Part-time faculty, Instructor of pediatrics, Dental Medical School, University of Zagreb and affiliated faculty at School of Medicine, University of Split. Assistant professor, lecturer and research associate in field of biomedicine and health science. Vice-president of the Croatian Society for the Pediatric Gastroenterology, Hepatology and Nutrition of the Society and member of the Croatian National task force for the prevention and treatment of Eating disorders. She has participated in many scientific and expert meetings and conferences. She held over 100 invited lectures of which 20 on international scientific meetings. She has published more than 80 papers and abstracts in reputed journals and has been serving as an editorial board member of repute.

Cyril Engmann:

Cyril Engmann is the Global Program Leader and Director for the Maternal, Newborn, Child Health and Nutrition

(MNCHN) program at PATH, an international health organization driving transformative innovation to save lives in 70 countries. In this role he leads a department of over 140 staff (physicians, public health practitioners, scientists, nutritionists, economists, business and policy experts) working in the USA, Asia, Africa, Latin America and the Far East on a diverse and complex portfolio of work with grants totaling over $200M. Prior to this appointment, he led the Bill and Melinda Gates Foundation Newborn Health Strategy where he designed and oversaw a portfolio of grants totaling $200M. Cyril also remains an active, practicing physician and academic at the University of Washington Schools Of Medicine & Public Health, Seattle, where he is Attending Neonatologist and Professor of Pediatrics and Global Health.

Guillaume:

Professor Guillaume SALIOU is currently the head of the Interventional Neuroradiology Unit at Lausanne University Hospital, Switzerland. He is the former head of the Paediatric and Adult Interventional Neuroradiology Unit in Bicêtre Hospital in France. He has completed his postdoctoral qualification at Paris-XI University School of Medicine. He has published several papers in reputed journals and has been serving as an editorial board member in the field of pre- and post-natal management of cerebrovascular diseases.

Ines Morais Caldas:

Inês Morais Caldas has completed her PhD in Dental Medicine in 2008 and has two postgraduate degrees in the Legal medicine and Forensic Sciences (Faculty of Medicine, University of Porto, Portugal) and a postgraduate degree in Forensic Anthropology (Faculty of Sciences and Technology, University of Coimbra, Portugal). Accredited as a competent person in forensic age estimation by the Study Group on Forensic Age Diagnostics of the German Society of Legal Medicine (AGFAD), Berlin - Hamburg, Germany. Currently, she is an Assistant Professor of the Faculty of Dental Medicine, University of Porto, Portugal, chair of Forensic Odontology. She has published 8 book chapters in the forensic field, and 28 papers in reputed journals.

Mazen El Sayed:

Dr Mazen El Sayed is an Associate Professor of Clinical Emergency Medicine in the Department of Emergency Medicine at the American University of Beirut (AUB) . He is American Board Certified in Emergency Medicine specialty and Emergency Medical Services Subspecialty. He completed his MD at AUB and his specialty training at the University of Maryland and at Boston University. He completed an MPH at Boston University and a Master in Health Care Management from Harvard University. He serves as the director of clinical operations, director of EMS and Prehospital Care in the Department of Emergency Medicine at AUBMC and as the Transfer Center Medical Director. He is also the deputy Chief Medical Information Officer at AUBMC. Dr El Sayed research work focuses on emergency medicine, prehospital care, EMS priority conditions and on disaster preparedness. He has over 25 peer reviewed publications and serves as an associate editor and as reviewer for several emergency medicine journals.

Kush Jhunjhunwala:

Kush Jhunjhunwala, MD is registered with the Maharashtra Medical Council, the regional body with affiliation to the Medical Council of India (MCI), New Delhi. He is presently working as Paediatric Consultant having 10 bedded own hospital with 4 bedded levels II NICU in Gandhibagh area of Nagpur city.He is also working as Hon. Paediatrician to NAGPUR POLICE since 8 years. Currently Dr.Kush Jhunjhunwala is a member of both Life Member of the Indian Medical Association (IMA) and Life Member of the Indian Academy of Paediatrics (IAP)

About this Event

Discussion Sessions

The discussion sessions are an opportunity for informal questions and answers. This is an ideal opportunity to get advice and opinion from experts in this area. This session is not for questions about specific talks, which can be asked after the speaker's session, but for discussing either general topics or specific issues.

There are three ways you can ask questions:

1. Before the session you can submit your question to Euroscicon staff at the registration desk,
2. Before and during the session you can submit a question or comments, by email, which will be provided on the day of the event
3. During the session you can put your hand up and join in

Session breaks

All breaks and registrations will take place in the exhibition area where there will be lunch and refreshments. Please try to visit all the exhibition stands during this event. Not only do our sponsors enable Euroscicon to keep the registration fees competitive, but they are also here specifically to talk to you

Lunch

1. We have a number of dishes that are gluten free
2. We have a range of vegetarian dishes which are separated from the meat and fish dishes
3. We have a number of dishes that are diary free
4. Please note that all food has been prepared in an environment where nuts may be present.

Missing Speakers

It is unfortunate that occasionally a speaker cannot attend, most usually due to not getting visas granted, unforeseen personal events or illness. Whilst we do everything possible to ensure that our speakers are present at the event we apologise in advance if you were at a session where a speaker could not attend. We always try to keep our agendas as up to date as possible, however if a speaker cancels the night before an event or on the day, there is little we can do to rectify this.

Frequently asked questions about our events

Is the delegate list available?

- Yes this is available to everyone who attends the event and our sponsors.
- It is available in real time. To access the list please just log into your registration details or use the QR code on right of the agenda card which is provided on the day of the event.
- You will not be included in this list if you have opted out and you can do this by logging into your registration details. This list will not be sold or ever give out to third parties.

Can I have the speaker's slides?

- We cannot give out the slides from our speaker's presentations as they are deleted immediately after each event. If you require a particular set of slides please approach the speaker. We will however have a meeting report and you will be emailed when this report is published.

Can I have a notepad?

- Notepads and pens are provided in the delegate bags and at the registration desk

I don't want my photograph on any Euroscicon promotional material

- Please let our tech person know

Is there WIFI?

- Yes, please ask registration for log in details

Can I have a CPD certificate?

- CPD certificates will be available in the exhibition hall after lunch. Please remember that EuroSciCon is a small independent company with no subsidies from society memberships or academic rates for venues. We try to be as reasonably priced as possible and our delegate rates are substantially lower than comparable commercial meeting organisations

Personal belongings

- Please take care of all your personal belonging as Euroscicon cannot be held responsible if an item goes missing from the lecture theatre or the exhibition hall.
