EuroSciCon

Pharmaceutics & Novel Drug Delivery Systems

October 04-06

Moscow, Russia

2018

Pharmaceutics 2018

https://novel-drugdelivery-systems.euroscicon.com/

Day 1, Agenda

General Session

08:00 AM — INTRODUCTION

09:00 AM — PLENARY

10:00 AM — KEYNOTE

Networking & Refreshments Break @ Foyer

	HALL 01	HALL 02	HALL 03
11:00 AM	Talks On: **Preformulation Considerations**	Talks On: **Pharmaceutical Formulations**	Talks On: **Routes of Drug Administration**
	Talks On: **Pharmacokinetic and Pharmacodynamic Studies**	Talks On: **Drug delivery: Devices and Equipments**	Talks On: **Innovative Drug Delivery Technologies**
	SESSION DISCUSSION	**SESSION DISCUSSION**	**SESSION DISCUSSION**
02:00 PM	Panel Over: **Nanotechnology in Drug Delivery**	Panel Over: **Drug- excipient compatability studies**	Panel Over: **Clinical trials**
	Workshop On: **Types of Formulations**	Workshop On: **Regulatory requirements for formulations**	Workshop On: **Academy and industry perspectives**
	Lunch Break @ Restaurant	***Lunch Break @ Restaurant***	***Lunch Break @ Restaurant***
04:00 PM	Talks On: **Dose- response relationship**	Talks On: **Channels of drug administration**	Talks On: **Parenteral route**
	Lectures on: **Implantable devices**	Lectures on: **Pace makers and Defribillators**	Lectures on: **Needle free technology**
06:00 PM	Session On: **Formulation of poorly soluble compounds**	Session On: **Nano medicine and cancer therapy**	Session On: **Nano technology for environment**
	NETWORKING	**NETWORKING**	**NETWORKING**

Day 2, Agenda

General Session

08:00 AM — INTRODUCTION

09:00 AM — PLENARY

10:00 AM — KEYNOTE

Networking & Refreshments Break @ Foyer

	HALL 01	HALL 02	HALL 03
11:00 AM	Talks On: **Targeted Drug Delivery System: Advances and Approaches**	Talks On: **Drug Delivery Vechiles**	Talks On: **Drug Delivery through BBB**
	Talks On: **Protein, Peptide and Gene Drug Delivery**	Talks On: **Novel Vaccine Delivery Systems**	Talks On: **Pro drugs**
	SESSION DISCUSSION	**SESSION DISCUSSION**	**SESSION DISCUSSION**
02:00 PM	Panel Over: **Strategies of drug targeting**	Panel Over: **Liposomes**	Panel Over: **Microspheres**
	Workshop On: **Receptor mediated permabilitizers**	Workshop On: **Chimeric peptides**	Workshop On: **Cancer targeting peptides**
	Lunch Break @ Restaurant	***Lunch Break @ Restaurant***	***Lunch Break @ Restaurant***
04:00 PM	Talks On: **Genetics and genomic medicine**	Talks On: **Ethical issues in gene therapy**	Talks On: **DNA delivery technologies**
	Lectures on: **Clinical evaluation of vaccines**	Lectures on: **Clinical evaluation of vaccines**	Lectures on: **Delivery materials for siRNA therapeutics**
06:00 PM	Session On: **Carbon nano tubes**	Session On: **Quantum dots**	Session On: **Pharmaceutical aspects of herbal formulations**
	NETWORKING	**NETWORKING**	**NETWORKING**

Day 3, Agenda

General Session

08:00 AM — INTRODUCTION

09:00 AM — PLENARY

10:00 AM — KEYNOTE

Networking & Refreshments Break @ Foyer

	HALL 01	HALL 02	HALL 03
11:00 AM	Talks On: **Smart Materials for Drug Delivery**	Talks On: **Nanoparticles: Innovations and Trends**	Talks On: **Herbal Novel Drug Delivery**
	Talks On: **Drug Discovery and Development Obstacles**	Talks On: **Drug Delivery: Facing Challenges**	Talks On: **Novel Drug Delivery: 2D & 3D Printing applications**
	SESSION DISCUSSION	**SESSION DISCUSSION**	**SESSION DISCUSSION**
02:00 PM	Panel Over: **Global Drug Delivery Market**	Panel Over: **Recent advances in drug delivery system**	Panel Over: **Recent developments in herbal formulation**
	Workshop On: **Decrease in new drug approvals**	Workshop On: **Drug patents**	Workshop On: **Transport to CNS**
	Lunch Break @ Restaurant	***Lunch Break @ Restaurant***	***Lunch Break @ Restaurant***
04:00 PM	Talks On: **Transport of biopharmaceuticals**	Talks On: **Inkjet powder bed printing**	Talks On: **Personalized products and individual dosing**
	Lectures on: **Micro chip technology**	Lectures on: **Novel degradable polymers**	Lectures on: **Biomarkers in targeted drug delivery**
06:00 PM	Session On: **Computer aided tissue engineering**	Session On: **Paediatric and geriatric drug delivery**	Session On: **Genetic variations and implication in drug development**
	NETWORKING	**NETWORKING**	**NETWORKING**

ORGANIZING COMMITTEE MEMBERS

Vladimir Torchilin
Northeastern University, USA

Taosheng Chen
St. Jude Children's Research Hospital,USA

Esmaiel Jabbari
University of South Carolina, USA

Alain L Fymat
International Institute of Medicine and Science, USA

Uday B. Kompella
University of Colorado Denver, USA

Myron R Szewczuk
Queen's University, Canada

Luisa Maria Arvide Cambra
University of Almeria, Spain

KAMALINDER K SINGH
University of Central Lancashire, UK

Mingzhong Li
De Montfort University, UK

Abbas Amini
Western Sydney University, Australia

Andrea Nicolini
University of Pisa, Italy

Sergey Suchkov
I.M.Sechenov First Moscow State Medical University, Russia

Oleg Gradov
Institute for Energy Problems of Chemical Physics, Russia

Sinerik Ayrapetyan
UNESCO Chair-Life Sciences International Postgraduate Educational Center, Armenia

Pravat Kumar Sahoo
Delhi Institute of Pharmaceutical Sciences and Research

Anne Grobler
North-West University

Mohamed Eddouks
Moulay Ismail University, Morocco

Renowned Speakers

Vladimir Torchilin
Northeastern University, USA

Esmaiel Jabbari
University of South Carolina, USA

Alain L Fymat
International Institute of Medicine and Science, USA

Gjumrakch Aliev
GALLY International Biomedical Research Institute Inc, USA

Yong-Xi Li
Medpace Bioanalytical Laboratories, USA

Myron R Szewczuk
Queen's University, Canada

Luisa Maria Arvide Cambra
University of Almeria, Spain

Felisa Reyes-Ortega
University of Granada, Spain

Anika Staack
EU-QPPV, Germany

Essam Ghanem
Celyad Biopharmaceutical, Belgium

Andrea Nicolini
University of Pisa, Italy

Hamideh Salehi
University of Montpellier, France

Sergey Suchkov
I.M.Sechenov First Moscow State Medical University, Russia

Dushkin Alexandr Valer'evich
Institute of Solid State Chemistry, Russia

Sinerik Ayrapetyan
UNESCO Chair-Life Sciences International Postgraduate Educational Center, Armenia

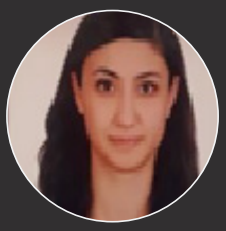

Konstantinos Avgoustakis
University of Patras, Greece

Pravat Kumar Sahoo
Delhi Institute of Pharmaceutical Sciences and Research

Ruey-an Doong
National Chiao Tung University, Taiwan

Ayşe Nur OKTAY
Gazi University, Turkey

Suad Yousif Abdalla Elkarib
Karary University

Renowned Speakers

Fatemeh Farjadian
Shiraz University of Medical sciences

Amalesh Samanta
Jadavpur University

Alain L Fymat
Govt. Medical College

Elena Ladilina
Razuvaev Institute of Organometallic Chemistry, Russia

Gulay Yelken Demirel
Sanovel Pharmaceuticals, Turkey

Hatice Ezgi Gülpınar
Gazi University, turkey

Gurfateh Singh
Rayat-Bahra University

Hina Javed
Bahauddin Zakariya University

Imran Ali
Jamia Millia Islamia Central University

Mala D. Menon
Mumbai University

Dimosthenis Mavrilas
Dimosthenis Mavrilas, Greece

Deepa MK
Ahalia School of Pharmacy

Muna Abubaker
University of Salford, UK

Nianping Feng
Shanghai University of Traditional Chinese Medicine, china

Nick Kostovic
Kostovic Acupuncture, USA

Dement'eva Olga Vadimovna
1Frumkin Institute of Physical Chemistry and Electrochemistry, Russia

Abdeen Omer
Ministry of Health and Social Welfare

Suneel. Ishwar. Majagi
Gadag Institute of Medical Sciences

Tsabang Nole
University of Yaounde I Faculty of Medicine and Biomedical Sciences

V. Rama Mohan Gupta
Pulla Reddy Institute of Pharmacy

Featured Speaker Presentations

Tumor-targeted stimuli-sensitive combination nanopreparations
Vladimir Torchilin, Northeastern University, USA

Next Step in drug delivery: Getting inside cells and to individual organelles
Vladimir Torchilin, Northeastern University, USA

Engineered spatiotemporal delivery of morphogens for concurrent vascularization and osteogenesis
Esmaiel Jabbari, University of South Carolina, USA

Neurological disorders: Application of nanobiotechnology to drug delivery through the blood brain barrier
Alain L Fymat, International Institute of Medicine and Science, USA

Conjugates of γ-carbolines and phenothiazine as new multitarget inhibitors of butyrylcholinesterase and blockers of NMDA receptors for Alzheimers diseases
Gjumrakch Aliev, GALLY International Biomedical Research Institute Inc, USA

Nanoparticles as alternative strategies for drug delivery to the alzheimer brain
Gjumrakch Aliev, GALLY International Biomedical Research Institute Inc, USA

Speaker slots are available

Challenge in bioanalytical methodology for long-acting delivery therapies
Yong-Xi Li, Medpace Bioanalytical Laboratories, USA

The influence of chemistry on personalized medicine
Jack Kushner H, U.S. Naval Academy, USA

Cancer cured by bio electron's laser acupuncture
Nick Kostovic, Kostovic Acupuncture by bio Electron's Laser, USA

Smart drug delivery systems for the treatment of cancer
Myron R Szewczuk, Queen's University, Canada

Functionalized amphiphilic alternating copolymer targets 3d multicellular tumor spheroids
Myron R Szewczuk, Queen's University, Canada

The pharmaceutical qualities of the sealing wax and the plantain, according to the arab outstandig physician from al-Andalus Abul ala zuhr
Luisa Maria Arvide Cambra, University of Almeria, Spain

Magnetic polymeric nanoparticles with hyperthermia-triggered gemcitabine release
Felisa Reyes-Ortega, University of Granada, Spain

Featured Speaker Presentations

Are there ways to support new drug innovations

Anika Staack, EU-QPPV, Germany

Design, Synthesis and Evaluation of novel leads for drug-resistant malaria

Rachael N Magwaza , University of Manchester, UK

Selective targeted therapy of glioblastoma by aptamer functionalised nanostructure lipid carrier: in-vitro evaluation in immortalised, primary glioma cell lines and 3D BBB model

Tamara Zwain, University of Central Lancashire School of Pharmacy and Biomedical Sciences, Uk

PLA based nanocomposites with titanium dioxide and silver nanoparticles and an ink for solvent-assisted 3D printing for bone tissue regeneration

Raquel Couto de Azevedo Gonçalves Mota , Instituto de Macromoléculas (IMA) , Brazil

Galectin-3-targeted HPMA-copolymers bearing glycan ligands

Marina Rodrigues Tavares , Institute of Macromolecular Chemistry of the Czech Academy of Sciences , Brazil

Polymer system targeted with oligopeptides simultaneously useful for fluorescence-guided endoscopic surgery and targeted tumor therapy

Robert Pola , Institute of Macromolecular Chemistry (IMC), Czech Republic

Speaker slots are available

Comparison of cell-penetrating ability of polymer carrier decorated with various cell-penetrating peptides

Eliska Bohmova , Institute of Macromolecular Chemistry CAS Czech Republic

Pharmaceuticals pharmacovigilance system compliance. Are you ready for authorities inspection

Essam Ghanem, VIGI-CARE.BVBA, Belgium

Hormone-immunotherapy in endocrine-dependent metastatic breast cancer and serum biomarkers

Andrea Nicolini, University of Pisa, Italy

Application of dental pulp stem cells as anticancer drug transporters for chemotherapy

Hamideh Salehi, University of Montpellier, France

Personalized & precision medicine (ppm) as a model of healthcare of the newest generation: The motivation for biopharma and translational resources to move ahead

Featured Speaker Presentations

together

Sergey Suchkov, I.M.Sechenov First Moscow State Medical University, Russia

Current and future trends in qconcats

Sergey Suchkov, I.M.Sechenov First Moscow State Medical University, Russia

Improvement of drugs efficiency by mechanochemically obtained nanoparticulated delivery systems

Dushkin Alexandr Valer'evich, Institute of Solid State Chemistry, Russia

One-pot synthesis and loading of silica nanocontainers using surface active drugs as templating agents

Dement'eva Olga Vadimovna , Frumkin Institute of Physical Chemistry and Electrochemistry of Russian Academy of Sciences, Russia

Water-soluble siloxane nanoparticles for the bioimaging

Elena Ladilina, Razuvaev Institute of Organometallic Chemistry of Russian Academy of Sciences, Russia

The dysfunction of intracellular signaling system controlling cell hydration as a primary mechanism for cell pathology

Sinerik Ayrapetyan, UNESCO Chair-Life Sciences International Postgraduate Educational Center, Armenia

Speaker slots are available

SGLT2 inhibitors-loaded magnetic nanoparticles combined with radiotherapy for the treatment of hypoxic tumors

Konstantinos Avgoustakis, University of Patras, Greece

Nanocarriers for ocular drug delivery

Pravat Kumar Sahoo, Delhi Institute of Pharmaceutical Sciences and Research

Multifunctional graphene quantum dot-concanavalin a@fe3o4 nanocomposites for targeted drug delivery and cancer cells detection

Ruey-an Doong, National Chiao Tung University, Taiwan

Nanoformulations for dermally application

Ayse Nur OKTAY, Gazi University, Turkey

Fast dissolving drug delivery systems

Gulay Yelken Demirel, Sanovel Pharmaceuticals, Turkey

Featured Speaker Presentations

Temoporfin-in-Cyclodextrin-in-Liposome nanoparticles for tumor targeting
Ilya YAKAVETS, in Belarussian State University , Belarus

Preparation and Characterisation of efavirenz loaded liposome
Okafor Nnamdi Ikemefuna , Rhodes University Grahamstown, South africa

Discovery and design of herbal medicine: Case of an oral antihyperglycemic from laportea ovalifolia l. (schumach & thonn.) Chew. Urticaceae
Tsabang Nole, University of Yaounde

Nano anti-cancer drugs: Urgent need of future
Imran Ali, Indian Institute of Technology Roorkee

Herbal nanoparticles loaded mucoadhesive microspheres for the treatment of gastric ulcer
Deepa MK, Ahalia School of Pharmacy

Floating mucoadhesive beads of amoxicillin trihydrate for effective eradication of helicobacter pylori
Amalesh Samanta, Department of Pharmaceutical Technology of Jadavpur University

Speaker slots are available

Tyrphostin ag 490 restored the attenuated cardioprotective potentials of ischemic postconditioning in hyperhomocysteinemic condition
Gurfateh Singh, University School of Pharmaceutical Sciences, Rayat-Bahra University

Assessment of isomalt for colon-specific delivery and its comparison with lactulose
V. Rama Mohan Gupta, Pulla Reddy Institute of Pharmacy

Novel approaches for improved therapy of age related eye disorders
Mala D. Menon , Mumbai University

Targeted delivery of bisphosphonate nanoparticles for diagnosis and therapy of bone disorders
Igor Grinberg, Bar-Ilan University

Gastroretentive controlled release glibenclamide oral tablet formulation
Suad Yousif Abdalla Elkarib, Karary University

Counterfeit drugs set alarm bells ringing: Comparative analysis of drug policies
Abdeen Omar, Occupational Health Administration, Ministry of Health and Social Welfare

Featured Speaker Presentations

The efficiency of inefficiency: Medicine distribution in sudan

Abdeen Omer, Occupational Health Administration, Ministry of Health and Social Welfare

Nanoparticle Delivery System For Emetine Dihydrochloride As An Effective Option For Malaria Treatment

Muna Abubaker, University of Salford, UK

A Novel Design Of Pva Electrospun Nanofibrous Scaffold Embedded With Liposomes As Drug Delivery Carriers For Tissue Engineering Applications

Dimosthenis Mavrilas, University of Patras, Greece

Development And Validation Of An Hplc Method For Determination Of Ketoconazole And Caffeine In Cosmetic Products

Hatice Ezgi Gülpınar, Gazi University, Turkey

Pharmacokinetic Study Of Anti-histaminic Activity Of Formulated Nano-gel /Emulgel And Conventional Intranasal Drug Delivery Of Diphenhydramine HCl By HPLC Method

Nianping Feng, Shanghai University of Traditional Chinese Medicine, China

Agrochemical smart nano-delivery systems for improved efficiency and safety

Haixin Cui, Institute of Environment and Sustainable Development in Agriculture, Chinese Academic of Agriculture Sciences, China

Speaker slots are available

HAase-sensitive dual-targeting irinotecan liposomes enhance the therapeutic efficacy of lung cancer in animals

Liang Zhang, Institute of Environment and Sustainable Development in Agriculture, Chinese Academic of Agriculture Sciences, China

Morphology, Structure and Function Characterization of PEI Modified Magnetic Nanoparticles Gene DeliverySystem

Xiang Zhao, Institute of Environment and Sustainable Development in Agriculture, Chinese Academic of Agriculture Sciences, Beijing , China

Novel Approaches For Improved Therapy Of Age Related Eye Disorders

Mala D. Menon, Mumbai University

Business Opportubity In Drug Delivery System

Anil Batta, Govt. Medical College

Evaluation of Anxiolytic Activity Of Vitamin D – An Experimental Study

Suneel. Ishwar. Majagi, Gadag Institute of Medical Sciences

Featured Speaker Presentations

Polyethyleneimine-folic acid Modified Mesoporous Silica Nanoparticles For The Targeted Delivery Of Curcumin And The Anti- tumor Efficacy In Mice

Hina Javed, Bahauddin Zakariya University

Smart Nano-hydrogel As Potent Carrier in Drug Delivery

Fatemeh Farjadian, Shiraz University of Medical sciences

Natural composition in Aromatic plants and their usage as bio-activity products in Iran

Mohammadbagher Rezaee, Research Institute of Forests and Rangelands

Optimization of Drug Solubility Using Aspen Plus: Ibuprofen Solubility, a Case Study

Kamal Al-Malah, Higher Colleges of Technology

Speaker slots are available

Mucolytic enzyme decorated carrier systems (MECS): A promising strategy to overcome the mucus gel barrier

Christina Leichner, University of Innsbruck, Austria

New approaches to drug design and drug delivery for the treatment of Primary Hyperoxaluria

Ruth Belostotsky, Shaare Zedek Medical Center

Effect Of Apple Cider Vinegar And Cinnamon (Cinnamomum Cassia) In Combination On Lipid Profile Of Mice

Zahid Iqbal, Al-Nafees Medical College & Hospital

Brain-targeted Tempol/ α-tocopherol -loaded poly-(lactide-co-glycolide) nanoparticles using the supercritical fluid technique

Jayvadan K. Patel, Sankalchand Patel University

Curcumin loading potentiates the neuroprotective efficacy of Fe3O4 magnetic nanoparticles in cerebellum cells of schizophrenic rats

Parvaneh Naserzadeh, Shahid Beheshti University of Medical Sciences

Pharmacometabolomics of β-Thalassemia Patients Treated with Hydroxyurea

Syed Ghulam Musharraf, University of Karachi

PLAN A TRIP TO MOSCOW: DESTINATION OF Pharmaceutics & NovelDrug Delivery Systems 2018

Moscow is situated on the banks of the Moskva River in Russia. Moscow has the status of a Russian federal city. Moscow is one of the most renowned and fascinating cities in the world. It is a dynamic 21st century metropolis showcasing some of the world's best shopping, nightlife, restaurants and culture. Moscow welcomes over four million tourists each year. Moscow is home to the Ostankino Tower, the tallest free standing structure in Europe, the Federation Tower, the tallest skysrapper in Europe, and the Moscow International Business Center. Moscow is considered the centre of Russian culture, having served as the home of Russian artists, scientists and sports figures and because of the presence of museums, academic and political institutions and theatres. Moscow is also one of the fastest growing tourist destinations in the world. The city is well known for its architecture, particularly its historic buildings such as the colourful Saint Basil's Cathedral on Red Square is the symbol of both Moscow and Russia, and the Seven Sisters comprising seven massive skyscrapers scattered throughout the city at about an equal distance from the Kremlin. Moscow is home to 63 stadiums of which Luzhniki Stadium is the largest and the 4th biggest in Europe There are also seven horse racing tracks in Moscow, of which Central Moscow Hippodrome is the largest. The city is blessed with beautiful architecture and renowned cultural landmarks as the Bolshoi Theatre, the Pushkin Fine Arts Museum and the Tretyakov Gallery. Moscow is the seat of power of the Government of Russia. The Moscow Kremlin and Red Square are also one of several World Heritage Sites in the city. The Moscow Metro, the fourth-largest in the world and is famous for its art, murals, mosaics, and ornate chandeliers. Moscow has one of the largest municipal economies in Europe and it accounts more than one-fifth of Russia's gross domestic product. Moscow is the financial center of Russia and home to the country's largest banks and many of its largest companies. Moscow has the lowest unemployment rate of all federal subjects of Russia. Moscow serves as the reference point for the timezone used in most of European Russia.
