

EuroSciCon

6th Edition of International Conference on

Pharmacognosy and Medicinal Plants

April 16-17, 2018
Amsterdam
Netherlands

Theme:

Medicinal Plants: Modifying Contrast in Health Care System

EuroSciCon

Organizing Committee Members

Alberto Alcibiades Salazar Granara
Medical Doctor
Universidad de San Martin de Porres (USMP), Peru

Zeljan Males
Dean
University of Zagreb
Croatia

George Schroeder
Medical Director
North Florida Comprehensive Treatment Center, USA

Jamal Ouazzani
Research Director
CNRS
France

Pierre Guertin
Professor
Laval University Medical Centre (CHU de Quebec), Quebec

Alireza Heidari
Director
California South University
USA

President Message
by
Dr. Hari S Sharma

Dear Colleagues,

This gives me immense pleasure to welcome you all to the 6th Edition of International Conference on Pharmacognosy and Medicinal Plants in Amsterdam, Netherlands, April 16-17, 2018. This 2-day of Great Event will highlight all aspects of plant medicine for the betterment of Health Care and management of diseases afflicting human being. Medicinal plants and their use to cure diseases are being practiced since ages. The value of medicinal plants and their use to alleviate disease are well known since more than 5000 years ago in China, Egypt, India and other parts of the world. Several clinical trials of these plant medicines are now done in Europe, Asia and America with good results. However, in order to find out the exact nature of compound in this plant medicine those are responsible for specific effects are not so well known and require further investigation. Moreover, interaction of these plant medicinal extracts with other drugs and disease are still not known in all details. Also with the advent of nanotechnologies, the need of the hour is to use plant medicine for effective drug delivery using Nano biotechnology for better healthcare. In this 2-days mega event all aspects of medicinal plants from extraction, purification to drug delivery for effective therapy will be discussed by leading experts in the world gathered in Amsterdam. The conference will provide new insight and future development of therapeutic value of medicine plants and their usage to students, researchers, health care professionals, policy makers, Academia and industry alike. Please join the conference and be a part of the future development of medicinal plants in healthcare! I am sure that the delegates, experts, students, researchers, Pharma industries, policy makers and healthcare givers will all tremendously benefit from the deliberation of this congress in a warm and friendly environment.

Your presence and deliberation will make this congress remarkably successful in all aspects of Pharmacognosy and Medicinal Plants.

Hari S Sharma, Ph. D., Dr. Med. Sci., FAIS (New York), FABRI (N. Carolina)
Director, Int. Expt. CNS Injury & Repair;
Prof. Neurobiology (MRC)
University Hospital, Uppsala University, Sweden

EuroSciCon

Pharmacognosy

2018

Invitation

Welcome to Amsterdam, the City of arts and science, and experience the science of Pharmacognasy and Medicinal Plants illuminated as never before. EuroSciCon is proud to host the 6th Edition of International Conference on Pharmacognosy and Medicinal Plants during April 16- 17, 2018 at Amsterdam, Netherlands. This year's theme is flagging the Path for medicinal plants. Pharmacognosy 2018 will provide an unprecedented opportunity for Plant lovers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite toxicologists, pharmacognists, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Pharmacognosy Conference is the perfect venue not only to dive into your particular toxicological interests but also to expand the scope of your knowledge. 21 tracks are devoted to subjects such as Natural Products of Medicinal Interest, Traditional Medicine, Pharmacognosy, Analytical Methods For Natural Products, Toxicological Studies of PlantProducts, Phytomedicine, Phytochemistry, Plant Biotechnology and Tissue Culture, Innovative Plant Extraction Methods, Applied Plant Sciences, Complementary And Alternative Medicine, Applications of Natural Products, Natural Products in Medicines, Analytical Techniques In Phytochemistry, Standardization Of Herbal Drugs, Formulation and Manufacture of Plant Medicines, Clinical pharmacognosy and Aromatic Medicinal Plants, Natural Products in Cancer Prevention and Therapy, Marine Drugs, Ethnopharmacology, Medicinal Plant Chemistry. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant pharmacognosy forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

April 16-17, 2018

EuroSciCon

Pharmacognosy

2018

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ toxicologists and pharmacologists accessing the website, Euro Toxicology 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Pharmacognosy 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

April 16-17, 2018
Amsterdam
Netherlands

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Pharmacognosy

2018

Who'd be attending?

6th Edition of International Conference on Pharmacognosy and Medicinal Plants plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Researchers, Investigative Toxicologists and Pharmacognists, Marine Researchers, Herbal Professionals, Laboratory Directors and Chemists and Druggist and others who stay plunged in learning and practice of the science of pharmacognosy.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Natural Products of Medicinal Interest
- Traditional Medicine
- Pharmacognosy
- Analytical Methods for Natural Products
- Toxicological studies of Plant products
- Phytomedicine
- Phytochemistry
- Plant Biotechnology and Tissue Culture
- Innovative Plant Extraction Methods
- Applied Plant Sciences
- Complementary and Alternative Medicine
- Applications of Natural Products
- Natural Products in Medicines
- Analytical Techniques in Phytochemistry
- Standardization of Herbal Drugs
- Clinical pharmacognosy and Aromatic Medicinal Plants
- Natural Products in Cancer Prevention and Therapy
- Marine Drugs
- EthnoPharmacology
- Medicinal Plant Chemistry
- Formulation and Manufacture of Plant Medicines

EuroSciCon

See your work PUBLISHED

in one of our related journals

- Journal of Pharmacognosy & Natural Products
- Journal of Natural Products Chemistry & Research
- Journal of Medicinal & Aromatic Plants

About Destination Amsterdam

Amsterdam is the capital and most populous municipality of the Kingdom of the Netherlands. Its status as the capital is mandatedby the Constitution of the Netherlands although it is not the seat of the government and it is legacies of citys 17th-century. Amsterdam has a population of 841,186 within the city proper, 1,337,743 in the urban area and 2,431,000 in the Amsterdam metropolitan area.The city is located in the province of North Holland in the west of the country. The metropolitan area comprises much of the northern part of the Randstad, one of the larger conurbations in Europe, with a population of approximately 7 million.

Amsterdam's the name derives from Amstelredamme the city's origin as a dam of the river Amstel. Originating as a small fishing village in the late 12th century, Amsterdam became one of the most important ports in the world during the Dutch Golden Age a result of its innovative developments in trade. During that time, the city was the leading centre for finance and diamonds and in the 19th and 20th centuries the city expanded, and many new neighbourhoods and suburbs were planned and built. The 17th-century canals ofAmsterdam and the 19–20th century Defence Line of Amsterdam are on the UNESCO World Heritage List. As the commercial capital of the Netherlands and one of the top financial centres in Europe, Amsterdam is considered an alpha world city by the Globalization and World Cities (GaWC) study group. The city is also the cultural capital of the Netherlands. Many large Dutch institutions have their headquarters there, and seven of the world's 500 largest companies, including Philips and ING, are based in the city. In 2012,Amsterdam was ranked the second best city in which to live by the Economist Intelligence Unit and 12th globally on quality of living for environment and infrastructure by Mercer. The city was previously ranked 3rd in innovation by 2thinknow in the Innovation Cities Index 2009. Amsterdam's main attractions, including its historic canals, the Rijksmuseum, the Van Gogh Museum, Stedelijk Museum,Hermitage Amsterdam, Anne Frank House, Amsterdam Museum, its red-light district, and its many cannabis coffee shops draw more than 5 million international visitors annually.
