President Message
by
Dr. Hari S Sharma

Dear Colleagues,

This gives me immense pleasure to welcome you all on behalf of the 7th Edition of International Conference on Pharmacognosy and Medicinal Plants of 2019 to one of the most beautiful cities of the World London, UK. With great successes achieved in the past in the field by successive congresses, World renowned experts on Plant medicine are gathering in London, the city that always remained in the forefront of science and research in various fields with novel ideas and innovations for the benefit of mankind through the centuries.

The history of Pharmacgonosy is as old as the city of London. As you all know that Pharmacognosy is the oldest branch of all pharmacological disciplines that dates back to the prehistoric period. The Ancient Egyptians used plant and vegetable medicines to cure diseases as early as 3000 BC. The history of London is known from 1000-1100 BC when The Brutus of Troy founded the city. Now London is a leading global educational and research center with the largest populations of students across all over the world. The city is known for the highest acclaimed Universities and research Institutions namely, the federal University of London is one of the largest Universities in Europe. The other notables are University of London, King's College London, London, the School of Pharmacy,London School of Hygiene and Tropical Medicine, St. George's Hospital Medical School and Imperial College London for example.To organize 2019 Conference on Pharmacognosy and Medicinal Plants is a great tribute to the city of London with her long tradition in the field. This tradition of medicinal plants growing in the garden was maintained continued in the 17th and 18th Centuries.

With your knowledge and expertise, we hope that the 2019 Pharmacognosy and Plant medicine organized by EurSciCon will be a great success in London like previous years.

I invite you from all diverse field of Pharmacognosy to participate the great event in London, the center of the World to enlighten the delegates by your presentations, comments, suggestions for the advancement of the subject to a further new height!

All are warmly welcome!

Hari S Sharma, Ph. D., Dr. Med. Sci., FAIS (New York), FABRI (N. Carolina)
Director, Int. Expt. CNS Injury & Repair;
Prof. Neurobiology (MRC)
University Hospital, Uppsala University, Sweden

Welcome Message
by
Prof. Dr Niko Radulović

Dear Colleagues,

It's a great honor and immense pleasure to Welcome you all to the **7th Edition of International Co**nference **on Pharmacognosy and Medicinal plan**ts in **London, UK**

March 11-12, 2019. This 2-days of Great Event will highlight all aspects of plant medicine for the advancement of Health Care and controlling of diseases afflicting human being. Medicinal plants and their use to cure diseases are being practiced since ages. These medicinal plants and their extracts to treat human disease later spread to all over the World. Several clinical trials of these plant medicines are now done in Europe, Asia, and America with good results. The dealings of plant medicinal extracts with other drugs and disease is still not recognized. Thus, there is a crucial need to expand our knowledge and share experiences among the scientific community on medicinal plants and their usage to treat human disease. In this 2-days mega event all aspects of medicinal plants from extraction, purification to drug delivery for effective therapy will be discussed by leading experts in the world gathered in London. The conference will deliver new insight and future development of the therapeutic value of medicinal plants and their usage to students, researchers, healthcare professionals, Academia and industry similarly. We sincerely believe that this conference in London will bring together scientists from all over the world in order to contribute to a better understanding of the role of natural products in drug discovery, material science, nutrition and applied chemistry. Through a careful selection of conferences from established scientists, the addition of emerging topics from young group leaders and the participation of young scientists, through several travel fellowships, we aim to shed light into recent advances in natural products. Please join the conference and be a part of the future development of medicinal plants in healthcare !!

All are warmly welcome!

Prof. Dr Niko Radulović

Pharmacognosy

2019

Invitation

Welcome to London, core point for phytotherapy and medicinal plants. and experience the science of Pharmacognasy and Medicinal Plants illuminated as never before. EuroSciCon is proud to host the **7th Edition of International Conference on Pharmacognosy and Medicinal Plants** during **March 11-12,2019 at London, UK.** This year's theme is flagging the Path for medicinal plants. Pharmacognosy 2019 will provide an unprecedented opportunity for Plant lovers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite toxicologists, pharmacognists, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Pharmacognosy Conference is the perfect venue not only to dive into your particular toxicological interests but also to expand the scope of your knowledge. 21 Scientific tracks are devoted to subjects such as Natural Products of Medicinal Interest, Traditional Medicine, Pharmacognosy, Analytical Methods For Natural Products, Toxicological Studies of PlantProducts, Phytomedicine, Phytochemistry, Plant Biotechnology and Tissue Culture, Innovative Plant Extraction Methods, Applied Plant Sciences, Complementary And Alternative Medicine, Applications of Natural Products, Natural Products in Medicines, Analytical Techniques In Phytochemistry, Standardization Of Herbal Drugs, Formulation and Manufacture of Plant Medicines, Clinical pharmacognosy and Aromatic Medicinal Plants, Natural Products in Cancer Prevention and Therapy, Marine Drugs, Ethnopharmacology, Medicinal Plant Chemistry. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant pharmacognosy forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

EuroSciCon

Pharmacognosy

2019

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ toxicologists and pharmacologists accessing the website, Euro Toxicology 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Pharmacognosy 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

Pharmacognosy

2019

Who'd be attending?

7th Edition of International Conference on Pharmacognosy and Medicinal Plants plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Researchers, Investigative Toxicologists and Pharmacognists, Marine Researchers, Herbal Professionals, Laboratory Directors and Chemists and Druggist and others who stay plunged in learning and practice of the science of pharmacognosy.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Natural Products of Medicinal Interest
- Traditional Medicine
- Pharmacognosy
- Analytical Methods for Natural Products
- Toxicological studies of Plant products
- Phytomedicine
- Phytochemistry
- Plant Biotechnology and Tissue Culture
- Applied Plant Sciences
- Complementary and Alternative Medicine
- Applications of Natural Products
- Natural Products in Medicines
- Analytical Techniques in Phytochemistry
- Standardization of Herbal Drugs
- Clinical pharmacognosy and Aromatic Medicinal Plants
- Natural Products in Cancer Prevention and Therapy
- Marine Drugs
- EthnoPharmacology
- Medicinal Plant Chemistry
- Formulation and Manufacture of Plant Medicines
- Nutraceuticals

EuroSciCon

See your work PUBLISHED

in one of our related journals

- American Journal of Ethnomedicine
- American Journal of Phytomedicine and Clinical Therapeutics
- Asian Journal of Plant Science & Research

About Destination London

London, the capital city of United Kingdom, stands on the River Thames and is located southeast of the island of Great Britain. London covers an area of 1579 square kilometers and according to 2016 statistics, Greater London's population was estimated to be 8.63 million.

London is a leading global city excelling in the fields of arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism, and transportation. As the world's largest financial center, London serves as an attractive destination for international investors and businessmen. The headquarters of important banks like HSBC, Royal Bank of Scotland, Barclays and Standard Chartered are located here. The city has the World's largest city airport. If we look at the cultural distribution of the city, London is often described as a cultural hub. It is home to a wide variety of people from different backgrounds and more than 300 languages are spoken. The host city also has some of the best medicine schools like The Imperial College London, the University College London, The King's College London, Queen Mary's University of London and St. George's University of London. Funds for research are available from Research Councils, National Institutes of Health, European Commission, other UK Government Departments and also from commercial sectors like private companies. In 2016, the idea of a global research hub in London was put forward, to bring over ten thousand scientists and clinical researchers together in order to accelerate advancements in cancer science.

The Buckingham Palace, the Warner Bros Studio, the Madame Tussauds wax museum, Westminster Abbey, and the London Eye are important tourist destinations in this city.

We look forward to seeing you in London.
