

EuroSciCon

June 13-14, 2019
Berlin, Germany

5th Edition of International Conference on

Plant Genomics

Invitation

Welcome to Berlin, the city and special commune in Germany. EuroSciCon is proud to host the 5th Edition of International Conference on Plant Genomics, June 13-14, 2019, in Berlin, Germany. Plant Genomics 2019 will provide an unprecedented opportunity for genomicist and Plant Science Scientists of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite genomicist, professors, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Plant Genomics Conference is the perfect venue not only to dive into your particular Plant Science interests but also to expand the scope of your knowledge. 20 tracks are devoted to subjects such as Plant Functional Genomics and Biotechnology, Plant Genome Engineering Strategies and Developments, Plant Genetics and Epigenetics, Agricultural Genomics and Cereal Genomics, Plant Breeding, Plant Nutritional Genomics, Plant Signaling and Chemical Signaling, Genome Sequencing, Plant Pathology, Crop Improvement and Plant Hormones, Plant Science, Horticulture Sciences, Plant Proteomics, Bioinformatics and Data Analysis, Genetically Modified Organisms, Molecular Breeding, Plant Synthetic Biology and Plant Transcriptome, Plant Nanotechnology, Plant Tissue Culture, Plant Metabolism and Regulation and Arabidopsis. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant genome forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

June 13-14, 2019
Berlin, Germany

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ genomicist accessing the website, Plant Genomics 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Plant Genomics 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

June 13-14, 2019
Berlin, Germany

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

2019

Who'd be attending?

5th Edition of International Conference Plant Genomics plays host for the Multinational Organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Genome Consultants, genetics, pathology, the workplace, pesticides, plant breeding, the plant genome and its applications and the plant science professionals, plant science scientists and genomicist and others who stay plunged in learning and practice of the science of Plant Genomics.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Plant Functional Genomics and Biotechnology
- Plant Genome Engineering Strategies and Developments
- Plant Genetics and Epigenetics
- Agricultural Genomics and Cereal Genomics
- Plant Breeding
- Plant Nutritional Genomics
- Plant Signaling and Chemical Signaling
- Genome Sequencing
- Plant Pathology
- Crop Improvement and Plant Hormones
- Plant Science
- Horticulture Sciences
- Plant Proteomics
- Bioinformatics and Data Analysis
- Genetically Modified Organisms
- Molecular Breeding
- Plant Synthetic Biology and Plant Transcriptome
- Plant Nanotechnology
- Plant Tissue Culture
- Plant Metabolism and Regulation
- Arabidopsis

EuroSciCon

2019

About Destination Berlin

Built on sand on around the banks of the river Spree, Berlin has been one of Europe's most influential economic, cultural and political centres - for better or worse - since it's origins as a trading post in the 13th century. It was capital of both the Prussian and the German Empire until World War I uprooted the Hohenzollern dynasty, which had ruled since the 15th Century When people think of Berlin, the first thing that usually comes to mind is its most famous landmark – the Brandenburg Gate. For decades a symbol of division, the monument has always been the beating heart of a major city bursting with ideas, inspiration, art, culture and creativity. Highlights in the western parts of Berlin include the Kurfürstendamm, as elegant a shopping street as you'll find anywhere, the Kaufhaus des Westens department store (better known as KaDeWe), on-trend boutiques and exclusive galleries, as well as beautiful residential streets and, of course, Berlin's famous nightlife. And speaking of nightlife, no trip to Berlin would be complete without an evening at Friedrichstadt Palast, Germany's leading variety theatre. With the current production, SHOW ME, the Palast is said to have mounted the most expensive and dazzling stage show of all time. This Berlin spectacle is the very height of glamour – an explosion of light, colours, costumes and special effects. The cosmopolitan vibe also permeates the government district, which spreads out to the east from Brandenburg Gate and from the neighbouring Reichstag. There's a sense of peace and freedom in the air here – in stark contrast to the days when Berlin was responsible for unthinkable crimes. Berlin's population is 3.4 million down from 4.5 million before WW2. It is a vast city, extending over 889 square kilometers. Its twelve bezirke (boroughs) are Mitte, Friedrichshain-Kreuzberg, Pankow, Charlottenburg-Wilmersdorf, Spandau, Steglitz-Zehlendorf, Tempelhof-Schoneberg, Neukolln, Treptow-Kopenick, Marzahn-Hellersdorf, Lichtenberg, Reinickendorf, although many Berliners still use old names and districts for purposes of orientation.
