"4th Global Summit

Plant Genomics

Jun 20-21, 2018
Rome
Italy

Theme:
Frontiers in Plant and Agriculture Science

EuroSciCon

Plant Genomics

2018

Invitation

Welcome to Rome, the city and special commune in Italy. Tourists could spend an entire year in Rome and still not see everything the Eternal City has to offer. Yet, truly experiencing Rome extends far beyond sightseeing. EuroSciCon is proud to host the 4th Global Summit on Plant Genomics, Jun 20-21, 2018 in Rome, Italy. The theme is “Precise Gene Editing in Plants”. Plant Genomics 2018 will provide an unprecedented opportunity for genomicist and Plant Science Scientists of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite genomicist, professors, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Plant Genomics Conference is the perfect venue not only to dive into your particular Plant Science interests but also to expand the scope of your knowledge. 12 tracks are devoted to subjects such as the Plant Genomics, genetics, pathology, the workplace, pesticides, plant breeding, the plant genome and its applications and the plant science, as well as agriculture science, medicinal and aromatic plant sciences, genome/dna assembly for editing, and Marker assisted selection.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant genome forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today’s scientific world
- Be inspired by some of the world’s most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ toxicologists and genomicist accessing the website, Plant Genomics 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Plant Genomics 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

Jun 20-21, 2018
Rome
Italy

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Plant Genomics

2018

Who'd be attending?

4th Global Summit on Plant Genomics plays host for the Multinational Organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Genome Consultants, genetics, pathology, the workplace, pesticides, plant breeding, the plant genome and its applications and the plant science professionals, plant science scientists and genomicist and others who stay plunged in learning and practice of the science of Plant Genomics.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Plant Genomics and Biotechnology
- Plant Genome Engineering: Strategies and Developments
- Plant Functional Genomics
- Plant Genetics and Epigenetics
- Bioinformatics and Data Analysis
- Plant Science
- Cereal Genomics
- Plant genomics scope in Europe
- Micropropagation in Plants
- Plant Tissue Culture and Biotechnology
- Sequencing
- Transcriptomics
- Proteomics
- Molecular marker development
- Marker assisted selection
- Plant Genome Engineering and Plant genetic diversity
- Improving gene editing technology, enzymes, and methods
- Genome editing applications using new techniques
- Genome editing and the latest EU policies
- Genome / DNA assembly for editing
- Plant Genetic Engineering and GM crops
- Plant Gene Editing for the Consumer
- Plant Genome its Applications in Cereals
- Plant metabolism/Pathway manipulation/System biology
- Plant breeding methods

See your work PUBLISHED

in one of our related journals

- Journal of Plant Physiology & Pathology
- Journal of Plant Pathology & Microbiology
- Journal of Fertilizers & Pesticides
- Medicinal & Aromatic Plants

2018

About Destination Rome

Rome is a city and special commune in Italy. Rome is the capital of Italy and also of the homonymous province and of the region of Lazio. With 2.7 million residents in 1,285.3 km2 (496.3 sq mi), it is also the country's largest and most populated commune and fourth-most populous city in the European Union by population within city limits. The urban area of Rome extends beyond the administrative city limits with a population of around 3.8 million. Between 3.2 and 4.2 million people live in Rome metropolitan area. The city is located in the central-western portion of the Italian Peninsula, on the Tiber within Lazio (Latium). Rome is the only city in the world to contain in its interior a whole state; the enclave of Vatican City. Rome has a status of theglobal city. Rome was the 11th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy. The city is one of Europe's and the world's most successful city "brands", both in terms of reputation and assets.
