Invitation

Welcome to Vienna, the City of Arts and Science, and experience the science of Preventive Medicine and Public Health illuminated like never before. EuroSciCon is proud to host the 10th Edition of Preventive Medicine and Public Health, July 11-12, 2019 in Vienna, Austia. This year's theme is" Innovations & Current Trends in Preventive Medicine and Public Health". Preventive Medicine 2019 will provide an unprecedented opportunity for Preventive Medicine Specialists of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Preventive Medicine Specialists, pharmacologists, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals andjust starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Preventive Medicine Conference is the perfect venue not only to dive into your particular medical interests but also to expand the scope of your knowledge. 27 tracks are devoted to subjects such as the Public Health, Occupational Health, Preventive Medicine and Diabetes, Preventive Medicine and Chronic Diseases, and the regulatory arena. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant toxicological forum in person is your active participation.

About Destination Austria

Austria is located in the heart of Europe. Its dynamic cities feature glittering palaces, classical music concerts, a metropolitan feel, and also a young, vibrant population. Austria is one of the wealthiest countries in the world and has a very high standard of living. Its cities are clean and its people are friendly and helpful. Vienna, Austria's capital, lies in the country's east on the Danube River. Its artistic and intellectual legacy was shaped by residents including Mozart, Beethoven and Sigmund Freud. The city is also known for its Imperial palaces, including Schönbrunn, the Habsburgs' summer residence. In the Museums Quartier district, historic and contemporary buildings display works by Egon Schiele, Gustav Klimt and other artists. Vienna is the focal point of research in Austria: more than 40,000 researchers work in Vienna; more than EUR 2,8 billion are invested into research every year. Around 35 percent of all scientists in Austria are situated in Vienna. almost 40 percent of Austrian research expenditure can be attributed to the city. The research share of Vienna as of now surpasses 3.5 percent of GDP, thus meeting the Europe 2020 target of the European Union long before the 2020 deadline. 30 percent of all Austrian research institutions are situated in Vienna. Research activity is not constrained to colleges and expansive research organizations. Over the previous years, the quantity of organizations directing examination has ascended by more than 50 percent. Altogether, just about 1,500 research organizations are dynamic in Vienna,more than 50 percent of these are businesses.
