Proteomics

2018

Invitation

Welcome to London, the great City for its historical landmarks, ancient markets and famous bridges and experience the field of proteomics illuminated as never before. Euroscicon is proud to host the 11th Edition of International Conference on Proteomics, March 22-23, 2018 in London, UK. This year's theme is Exploring Novel Drug in The Field of Proteomics. Proteomics 2018 will provide an unprecedented opportunity for Biologists of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite Biologists, Professors, Associate Professors, Scientists and Young Researchers in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Proteomics Conference is the perfect venue not only to dive into your particular Proteomics interests but also to expand the scope of your knowledge. 13 tracks are devoted to subjects such as the proteomics in drug discovery, protein expression and analysis, chromatin proteomics, protein microarrays, the cancer proteome, proteomics for bioinformatics, Neuroproteomics, proteomics and cell signalling, metabolomics, Transcriptome sequencing, phylogenetic analysis of protein, genomic, proteomic,and metabolomic data integration strategies, molecular docking and structure-based drug design strategies. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Proteomics forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ Biologists , Scientists and Young Researchers accessing the website, Proteomics 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Proteomics 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

EuroSciCon

Proteomics

2018

Who'd be attending?

11th Edition of International Conference on Proteomics plays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Biologists, Investigators, Scientists and Young Researchers,Regulatory Professionals,Pharmacogenetic Professionals,Laboratory Directors,Forensic Scientists and Biologists and others who stay plunged in learning and practice of the science of Proteomics.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Proteomics in Drug Discovery
- Protein Expression and Analysis
- Chromatin Proteomics
- Protein Microarrays
- The Cancer Proteome
- Proteomics for Bioinformatics
- Neuroproteomics
- Proteomics and Cell Signalling
- Metabolomics
- Transcriptome Sequencing
- Phylogenetic Analysis of Protein
- Genomic, Proteomic, and Metabolomic Data Integration Strategies
- Molecular Docking and Structure-Based Drug Design Strategies

EuroSciCon

Proteomics

2018

About Destination London

London is the capital city of England and the United Kingdom. It is the most populous city in the United Kingdom with a metropolitan area of over 13 million inhabitants. Standing on the River Thames, London has been a major settlement for two millennia. London has a diverse range of peoples and cultures, and more than 300 languages are spoken within Greater London. London is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transport all contributing to its prominence., London became a Centre for the worldwide youth culture, exemplified by the Swinging London subculture associated with the Kings Road, Chelsea and Carna by Street. London is the seat of the Government of the United Kingdom. The city is split by the River Thames into North and South, with an informal central London area in its interior.
