PSYCHIATRY & PSYCHOLOGY 2017 (CPD)

Tentative

AGENDA

NOVEMBER 29-30, 2017
Madrid, Spain

EuroSciCon

#Psychiatry

The annual Psychiatry & Psychology 2017 is an international academic event with plenty of opportunity for networking and debate. In an informal setting, this meeting will bring you up to date with current research and thinking regarding screening, prevention and treatment in this ever-growing field. Presenting at this event, we will have a variety of clinicians, academics and members of the pharmaceutical industry; we encourage presentations from the wide spectrum of pediatrics research, development and healthcare professionals.

This event has CPD accreditation

Agenda

Agenda Day 1: Psychiatry & Psychology 2017

Introduction by Chair

1. Depression, Functional Magnetic Resonance Imaging (FMRI) And Resting State Synchrony In Alcoholism
2. Transitional Age Youth (TAY) with Serious Mental Illness (SMI)
3. Improvement of Autism Diagnostic Observation Schedule (ADOS) Scores after Comprehensive Intensive Early Interventions in a Clinical Setting.
4. Time Perspectives Explain The Relationship Between Personality Traits and Drinking Behaviour
5. The Role of Spirituality In Recovery of Self-Perceived Food Addicts
6. Feasibility and acceptability of mindfulness-based cognitive therapy in people with depression and cardiovascular disorders: a feasibility randomised controlled trial
7. Information, the new paradigm in Neuroscience
8. Lived Experiences of Runaway Girls: A Hermeneutic Phenomenological Study
9. Assault Characteristics and Police Investigational Procedures In Three Different Categories of Sexual Assailants
10. Prediction of Severity of Withdrawal Symptoms Based Health Promoting Lifestyle and Quality of Life in Methamphetamine User
11. The Comparison of The Efficacy of Methadone Maintenance Therapy With Congress 60's Group Therapy on Behavioral Disorders and Mood Symptoms of Drug Addicts
12. The Prediction of the Quality of Life of Based on Withdrawal Symptoms And Executive Function Among Methamphetamine Addicts
13. Question Time

#Psychiatry 2017

Agenda

Agenda Day 2: Psychiatry & Psychology 2017

Introduction by Chair

1. Identifying Therapeutic Mechanisms in Psychodynamic Practice
2. Public Mental Health: An Overarching Opportunity
3. Cognitive Behavioral Modification In The Treatment of Aggressive Behaviour in Children
4. Comparison of Self Esteem and Academic Achievement Between Adolescent Girls Living With Single Parent Father and Single Parent Mother
5. Effect of Dialectical Behaviour Therapy on Emotional Intelligence and Emotion Regulation of Suicidal Patients
6. Predictors of HIV-Related High-Risk Sexual Behaviour among Female Substance Users
7. Emotional Intelligence, Anger Management and Marital Adjustment Among Hypertension Patients
8. DC-MMS: The Diagnostic Checklist of Major Depression, Mania and Schizophrenia
9. Factors Associated with Irritable Bowel Syndrome among Students at Zakho Technical Institute in Northern Iraq
10. Predicting Internet Addiction Based on Depression and Social Support Among Adolescents
11. The Role of Fear of Missing out and Depression in Predicting Smartphone Addiction among Adolescents
12. Predicting the adolescents smoking based on family and friends accessibility, support and restrictions
13. Study Factor Structure, Reliability and Validity The International Index of Erectile Function (IIEF) In The Male Substance Abuse In Iran

#Psychiatry 2017

Agenda Day 1: Psychiatry & Psychology 2017

09:00 – 09:45	Exhibitions open	Registration and Refreshments
09:45 - 10:25	Depression, Functional Magnetic Resonance Imaging (FMRI) And Resting State Synchrony In Alcoholism	Dr. George Fein, President & CEO Neurobehavioral Research, Inc. United States
10:25 - 10:50	Transitional Age Youth (TAY) with Serious Mental Illness (SMI)	Dr. Timothy Van Deusen, Medical Director of the West Haven Mental Health Clinic, Assistant Professor of Psychiatry at the Yale University School of Medicine
10:50 - 11:15	Improvement of Autism Diagnostic Observation Schedule (ADOS) Scores After Comprehensive Intensive Early Interventions In A Clinical Setting.	Nils Haglund, Licensed Psychologist, Lund University, Sweden
11:15 - 11:45	Poster Review and Exhibitions	Refreshments Provided
11:45 - 12:05	Time Perspectives Explain The Relationship Between Personality Traits And Drinking Behavior	Ms. Tianna Loose, Department of Psychology, University of Nantes Chemin de la Censive du Tertre B.P. 81227; 44312 Nantes Cedex 3, France
12:05 - 12: 30	The Role Of Spirituality In Recovery Of Self-Perceived Food Addicts	Boris C Rodriguez Martin, Fundación Recal, Madrid, Spain , Associate Editor in Eating Behavior, section of two journals Frontiers in Nutrition and Frontiers in Psychology
12:30 - 12: 50	Feasibility and acceptability of mindfulness-based cognitive therapy in people with depression and cardiovascular disorders: a feasibility randomised controlled trial	Modi Alsubaie, Mood Disorders Centre, University of Exeter, Exeter, UK
12:50 - 13:20	Information, the new paradigm in neuroscience	Gabriel Crumpei, Director of the Center of Psychiatry, Psychotherapy and Counselling and President of the Catharsis Foundation, 1Faculty of Psychology and Education Sciences, Al.I. Cuza University from Iasi, Romania
13:20 - 14:20	Lunch Break with Exhibitions	Poster Viewing
14:20 - 14:45	Lived Experiences Of Runaway Girls: A Hermeneutic Phenomenological Study	Ms. Maryam Falahatpishe, Department of Health Psychology, Tehran Institute of Psychiatry- School of Behavioural Sciences and Mental Health, Iran University of Medical Sciences, Tehran, Iran
14:55 - 15:25	Assault Characteristics And Police Investigational Procedures In Three Different Categories Of Sexual Assailants	Bjarte Frode Vik, clinical psychiatrist in the Department of Neuropsychiatry at St. Olavs Hospital in Trondheim, research student at Norwegian University of Science and Technology (NTNU)
15:25 - 15:55	The Comparison Of The Efficacy Of Methadone Maintenance Therapy With Congress 60's Group Therapy On Behavioral Disorders And Mood Symptoms Of Drug Addicts	Tima Seyed Danesh, General Physician, Department of Medical Sciences, Qom Branch, Islamic Azad University, Qom, Iran
15:55 - 16:25	Slots available	
16:25 - 16:40	Slots available	
16:40- 17:00	Question Time	

#Psychiatry 2017

Agenda Day 2: Psychiatry & Psychology 2017

Time Session	Exhibitions open	Registration and Refreshments
09:45 - 10:15	Identifying Therapeutic Mechanisms In Psychodynamic Practice	Dr George Karpetis, Program Director of the Masters of Social Work at Flinders University, Australia
10:15 - 10:45	Public Mental Health: An Overarching Opportunity	Dr. Jonathon Campion, Director for Public Mental Health and Consultant Psychiatrist at South London and Maudsley NHS Foundation Trust
10:45 - 11:15	Cognitive Behavioral Modification In The Treatment Of Aggressive Behavior In Children	Dijana Sulejmanović, Belgrade University, Serbia
11:15 - 11:45	Poster Reviews and Exhibitions	Refreshments provided
11:45 - 12:05	Comparison Of Self Esteem And Academic Achievement Between Adolescent Girls Living With Single Parent Father And Single Parent Mother	Dr. Nazish Idrees Chaudhary, clinical psychologist and diet advisor at Lahore Psychiatry Clinic and Khalid Clinic, Pakistan
12:05 - 12:30	Effect Of Dialectical Behaviour Therapy On Emotional Intelligence And Emotion Regulation Of Suicidal Patients	Dr. Nazish Idrees Chaudhary, clinical psychologist and diet advisor at Lahore Psychiatry Clinic and Khalid Clinic, Pakistan
12:30 - 13:00	Predictors Of HIV-Related High-Risk Sexual Behaviors Among Female Substance Users	Mojtaba Habibi, Member of the National Elite Foundation, Ph.D in Health Psychology, Department of Health Psychology, Tehran Institute of Psychiatry- School of Behavioural Sciences and Mental Health, Iran University of Medical Sciences, Tehran, Iran
13:00 - 14:00	Lunch Break with Exhibitions	Poster Viewing
14:00 - 14:20	Emotional Intelligence,Anger Management And Marital Adjustment Among Hypertension Patients	Aneela Nargis, Clinical Psychologist, Government College University Faisalabad ,Pakistan
14:20-14:45	Dc-Mms: The Diagnostic Checklist Of Major Depression, Mania And Schizophrenia	Dr. Nazia Nawaz, Clinical psychologists, Lecturer in the Department of Psychology at Shaheed Benazir Bhutto Women University, Peshawar, Pakistan
14:45-15:00	Factors Associated With Irritable Bowel Syndrome Among Students At Zakho Technical Institute In Northern Iraq	Mohamed Sadeq Alibrahim, Assist lecturer and Nursing department head in Zakho Technical Institute/ Duhok Polytechnic University, Iraq
15:00 - 15:15	Predicting Internet Addiction Based On Depression And Social Support Among Adolescents	Sadeq FallahTafti, Tarbiat Modares University, Iran
15:15 - 15:30	The Role Of Fear Of Missing Out And Depression In Predicting Smartphone Addiction Among Adolescents	Sadeq FallahTafti, Tarbiat Modares University, Iran
15:30 - 15:50	Predicting the adolescents smoking based on family and friends accessibility, support and restrictions	Nikzad Ghanbari, PhD Student in Clinical Psychology, Shahid Beheshti University (SBU), Tehran, Iran
15:50 - 16:05	Study Factor Structure, Reliability And Validity The International Index Of Erectile Function (IIEF) In The Male Substance Abuse In Iran	Sheida Babazadeh, University of Tehran, Iran
16:05 - 16:25	Slots available	
16:25 - 16:40	Slots available	
16:40 - 17:00	Chairman's Summing up	Close of Session

About the Speaker

George Fein:

Dr. George Fein received his Ph.D. in Cognitive and Clinical Psychology from the City University of New York in 1976. He was Professor of Medical Psychology and Radiology at UCSF from 1977 to 1999, at which time he formed Neurobehavioral Research, Inc. (NRI). He is a Professor of Medicine and Psychology at the University of Hawaii. In 2014, the Research Society on Alcoholism awarded him the Begleiter Excellence in Research Award. He has published over 200 papers on cognitive function, clinical manifestations, and neuroscience of addiction and psychiatric illness. He is committed to understanding the brain networks and mechanisms underlying and affected by addiction and mental illness, and how they can be impacted and ameliorated via varying treatment modalities. His presentation builds on cross-sectional and longitudinal studies of brain functional changes during abstinence – those studies suggest potential treatments to support attaining and maintaining abstinence, and also suggest that treatment should be tailored to the clinical history and clinical presentation of the patient.

Timothy Van Deusen:

Dr. Timothy Van Deusen has treated children, adolescents, and young adults with psychiatric illness for over 20 years in private practice and in community mental health clinics in Los Angeles and San Francisco, California, and West Haven, Connecticut. He is currently the Medical Director of the West Haven Mental Health Clinic, Attending Psychiatrist of the Young Adult Service, Residency Site Training Director at the Connecticut Mental Health Center, and Assistant Professor of Psychiatry at the Yale University School of Medicine. Dr. Van Deusen received his MD from the American University of the Caribbean and completed his psychiatry residency training at the Michael Reese Hospital in Chicago, Illinois, followed by a child and adolescent psychiatry fellowship at UCLA. He has focused his academic pursuits in TAY by teaching Yale residents and medical students, written chapters and papers on TAY, and has given presentations on TAY to psychiatric societies throughout the USA.

Tianna Loose:

Tianna Loose, raised in California, 27 years old, became a psychologist in 2014 in France. Subsequently she was awarded a doctoral contract by the Region of Pays de la Loire in order to study alcohol consumption among Francophone young people. Her work is primarily conducted at the University of Nantes, under the supervision of Pr. Didier Acier, and is co-directed by the University of Québec in Montréal, under the supervision of Pr. Ghassan El-Baalbaki. Léo Robiou Du Pont, MSc, worked on this preliminary project under Tianna's supervision. She will defend her thesis on multilevel etiological models of alcohol use among French and Canadian college students in December 2017. She has already published several articles on the topic of alcohol consumption among youth and potential determinants of drinking behaviours. Currently she holds a full time teaching-research position at the University of Nantes in clinical psychology.

Boris C Rodriguez Martin:

Psychologist in Primary Health Care Settings, Santa Clara, Cuba (1998-2007). Associate professor at the Universidad Central Marta Abreude Las Villas, Santa Clara, Cuba (2007-2015). My doctoral research focused on the study of food cravings and eating behavior. I'm working at Fundación Recal, Madrid, Spain (2015-present). My current research is focused on groups in addiction and recovery. Associate Editor in Eating Behavior, section of two journals Frontiers in Nutrition and Frontiers in Psychology

Nils Haglund:

Nils Haglund has completed his PhD in 2017 at Lund University, Sweden and is a licensed psychologist and head of the autism intervention services at habilitation centers, Skåne county, Sweden. He has published papers in reputed journals and has over 30 years of experience in treating children and adolescents with autism. He is educating personal and staff at preschools for children with autism. He is giving education to parents to children with autism in applied behaviour analysis (ABA).

Bjarte Frode Vik:

Bjarte Frode Vik, MD, is a clinical psychiatrist in the Department of Neuropsychiatry at St. Olavs Hospital in Trondheim. He is also a research student at Norwegian University of Science and Technology (NTNU) in Trondheim. His research interests include neuropsychiatry, psychotraumatology, violence and health issues, and forensic psychiatry.

Maryam Falahatpishe:

Maryam Falahatpishe is clinical psychologist at Shahid Beheshti University of Tehran (Family research institute), Iran. She received her M.A. degree of family therapy psychology from family research institute of Shahid Beheshti uinversity of Tehran, Iran.

George Karpetis:

Dr George Karpetis is a Senior Lecturer in Social Work and the Program Director of the Masters of Social Work at Flinders University, Australia. George completed his Master degree in England and his PhD in clinical social work, in Greece. He worked as a clinician for 20 years adopting the psychodynamic perspective in practice, and he is an accredited social worker in England and Australia. For the last 12 years, George has been teaching mental health and application of theories in practice. He is a practitioner-researcher studying the operationalisation process and the effectiveness of theories in his clinical, teaching and supervision practice. Currently, he is researching how implicit theories create child protection practice errors. George has been publishing in quality peer-reviewed journals, is an assessor in several journals, and a member of the editorial board of an international peer-reviewed journal.

Jonathon Campion:

Jonathan is Director for Public Mental Health and Consultant Psychiatrist at South London and Maudsley NHS Foundation Trust, and Visiting Professor of Population Mental Health at University College London. He is involved in the development and implementation of local, national and international public mental health strategy to improve coverage of evidence based interventions to treat mental disorder, prevent associated impacts, prevent mental disorder from arising, and promote mental wellbeing. In the UK, he has been involved in the development of national mental health strategy as well as assessment of the public mental health needs for regions covering more than 7 million people.

Nazish Idrees Choudary:

Nazish Idrees Chaudhary completed M.S. in clinical psychology (2016) from University of Central Punjab, Lahore, Pakistan with an honour of silver medal. She recently received an award as a token of appreciation by connected Pakistan conference August 2017 for promoting health among community voluntarily. She conducted awareness seminars, workshops, discussion groups, free mental health assessment/consultation campaigns and write blogs to eliminate stigmas/taboos associated with mental health and their victims. Her devotion started by online projects with clients around the globe as therapist, researcher/writer since 2011 at Upwork, CA. She has dealt with diverse population, provided assessment, therapeutic intervention services and improved hundreds of them. She is serving as a consultant clinical psychologist and diet advisor at Lahore Psychiatry Clinic and Khalid Clinic from last 12 months. She has done internationally certified diplomas with 150 CPD for each in Dialectical Behaviour Therapy, Nutritional and Diet Advisory & Couples/Family Therapy.

Gabriel Crumpei:

Gabriel Crumpei graduated from the Faculty of General Medicine, Gr. T. Popa University, Iaşi and the Faculty of Theology, Al. I. Cuza University, Iasi. He specialized in Psychiatry and has a PhD in Psychology. He is Director of the Center of Psychiatry, Psychotherapy and Counselling and President of the Catharsis Foundation and he coordinates the Center of Neurosciences, Iasi. He is also an External Professor at the Psychology Department at Al.I. Cuza University, Iaşi. His interests are focused in psychology, psychiatry, theology, physics and philosophy. He is author and co-author in several ISI papers, chapter books, a book and he gave many communications at national and international scientific manifestations.

Sheida Babazadeh:

Sheida Babazadeh has completed her MA at the age of 45 years from Shahid Beheshti University of Tehran. Her Master's Thesis title was Study the relationship emotion regulation, life style with sexual dysfunction in men with substance addiction: the mediating role of marital satisfaction. She is interested in future more research on addict persons marital satisfaction and sexual dysfunction.

Mojtaba Habibi:

Member of the National Elite Foundation, Ph.D in Health Psychology, Department of Health Psychology, Tehran Institute of Psychiatry- School of Behavioural Sciences and Mental Health, Iran University of Medical Sciences, Tehran, Iran. He is Assistant Professor and has more than 100 papers and books national and international. He was supervisor and co-supervisor in many thesis in Master and PhD degree. He has many researches in Iran and outside specially in Sweden and Us. He has some positions in University and other organizations. He has license for therapy from Counselling and psychology organization and has counselling centre.

Somaieh Salehi:

Lecturer& Psychologist, PhD of Counselling Psychology, Family Research Institute, Shahid Beheshti University, Tehran, Iran. She is assistant professor in Islamic Azad university. She has more than 30 papers national and international. She is a developer of Making Choices program in Iran. This program is a kind of problem solving program for children at high risk behaviours. She also has some books. She is co-supervisor for some thesis in Master degree. She is a member of APA. She has license for therapy. She has this license from Rehabilitation welfare organization and has counselling centre by her license.

Nikzad Ghanbari:

PhD Student in Clinical Psychology, Shahid Beheshti University (SBU), Tehran, Iran. He has more than 10 papers inside and outside Iran. He is a active researcher.

Aneela Nargis:

Aneela Nargis has completed her MS/M.PHIL(Clinical Psychology) at the age of 25 years from Government College University Faisalabad, Pakistan .She is the clinical psychologist.

Dijana Sulejmanović:

Dijana Sulejmanović has completed her Ma from Banja Luka University and now is student of 2nd year for PhD studies from Belgrade University. She has published more than 25 conference and journal papers.

Sadeq FallahTafti:

Sadeq FallahTafti completed his Master's in clinical psychology (family therapy) in Shahid Beheshti University two years ago and is now doing his PhD course in Tarbiat Modares University, two well-known universities in Iran. His MA thesis was on problem behaviors in adolescents which led to an excellent degree and also a few papers published in some reputed journals. He is now studying addictive problems in adolescents and youth trying to reveal some underlying factors leading to such issues for these critical populations of society. He is also a psychotherapist at some private practices and works with depressed and anxious adolescents and young adults.

Dr. Nazia Nawaz:

I recently did my Ph.D. in Clinical Psychology so as being a clinical psychologists my major area of interest is clinical disorders and its understanding in the domains of etiology, diagnosis and treatment. Psychological disorders possess much diversity in nature and there is so much to explore in the advancing era. My Ph.D. work comprises the development of a Computer based diagnostic checklist for the patients of Major Depression, Mania and Schizophrenia. The approach of developing a computer based diagnostic checklist was adopted to meet the challenges of modern world in terms of ease, quick and objective diagnosis for the said disorder.

Moreover I am serving in a Public Sector University as a Lecturer in the Department of Psychology at Shaheed Benazir Bhutto Women University, Peshawar, Pakistan since July 2011. Along with teaching I supervise the students in their internships which include detailed histories of the clients, their appropriate diagnosis and the best suitable therapeutic approach in order to deal with their problems. My basic approach to treatment is Cognitive one and more specifically the Cognitive Behavioural Therapy as it tackles and resolves the problems through multiple domains as emotions, affect and cognition. In my clinical experience I dealt a diverse population of psychopathological conditions majorly included Depression, Anxiety, Phobias, and Obsessive Compulsive Disorder etc.

I also have miscellaneous research experience in the same field. The details of my research work, publications and research presentations is as follows:

Presentations and Conferences:

- 6th Annual Muslim Mental Health Conference – Promoting Access to Mental Healthcare. Dearborn, Michigan State, USA. (4/24/14 – 4/26/14) Presenter: Effects of Memorizing Quran by Heart (Hifz) on later Academic Achievement President of UMENS (Union of Mediterranean Neonatal Societies)

Presentations and Conferences:

- Physical Appearance and Poor Hygiene Patterns: Evidence of Schizophrenic Illness. (2017). Journal of Postgraduate Medical Institute. 31 (2): 147-150.
- Effects of Memorizing Quran by Heart (Hifz) on Later Academic Achievement. (2015). Journal of Islamic Studies and Culture: American Research Institute for Policy Development. 3(1): 58-64.
- Effects of media (Television) on Mental Health. (2014). FWU Journal of Social Sciences Vol 8(1): 97-102.

Moreover, I also got more advanced exposure in the field as a Short Term Scholar in United States (US) as I get equipped with advanced and modern methods of Cognitive Behavioural Therapy. Along with that I also got experience of multiple assessment batteries involving measurement of cognition, time span, attention, concentration and much more. I could even provide the achieved certificates of the acquired skills if needed.

Moreover I also have field work experience in different Mental Health Institutes here in Pakistan. The exposure to which further groomed my learning experiences.

I hope the description would be far much enough in order to elaborate my job experience and area of interest.

Mohamed Sadeq Alibrahim:

Mohamed Sadeq Alibrahim has complete his master degree in health psychology in 2015 in American University in Northern Cyprus, Assist lecturer and Nursing department head in Zakho Technical Institute/ Duhok Polytechnic University.

About this Event

Discussion Sessions

The discussion sessions are an opportunity for informal questions and answers. This is an ideal opportunity to get advice and opinion from experts in this area. This session is not for questions about specific talks, which can be asked after the speaker's session, but for discussing either general topics or specific issues.

There are three ways you can ask questions:

1. Before the session you can submit your question to Euroscicon staff at the registration desk,
2. Before and during the session you can submit a question or comments, by email, which will be provided on the day of the event
3. During the session you can put your hand up and join in

Session breaks

All breaks and registrations will take place in the exhibition area where there will be lunch and refreshments. Please try to visit all the exhibition stands during this event. Not only do our sponsors enable Euroscicon to keep the registration fees competitive, but they are also here specifically to talk to you

Lunch

1. We have a number of dishes that are gluten free
2. We have a range of vegetarian dishes which are separated from the meat and fish dishes
3. We have a number of dishes that are diary free
4. Please note that all food has been prepared in an environment where nuts may be present.

Missing Speakers

It is unfortunate that occasionally a speaker cannot attend, most usually due to not getting visas granted, unforeseen personal events or illness. Whilst we do everything possible to ensure that our speakers are present at the event we apologise in advance if you were at a session where a speaker could not attend. We always try to keep our agendas as up to date as possible, however if a speaker cancels the night before an event or on the day, there is little we can do to rectify this.

Frequently asked questions about our events

Is the delegate list available?

- Yes this is available to everyone who attends the event and our sponsors.
- It is available in real time. To access the list please just log into your registration details or use the QR code on right of the agenda card which is provided on the day of the event.
- You will not be included in this list if you have opted out and you can do this by logging into your registration details. This list will not be sold or ever give out to third parties.

Can I have the speaker's slides?

- We cannot give out the slides from our speaker's presentations as they are deleted immediately after each event. If you require a particular set of slides please approach the speaker. We will however have a meeting report and you will be emailed when this report is published.

Can I have a notepad?

- Notepads and pens are provided in the delegate bags and at the registration desk

I don't want my photograph on any Euroscicon promotional material

- Please let our tech person know

Is there WIFI?

- Yes, please ask registration for log in details

Can I have a CPD certificate?

- CPD certificates will be available in the exhibition hall after lunch. Please remember that EuroSciCon is a small independent company with no subsidies from society memberships or academic rates for venues. We try to be as reasonably priced as possible and our delegate rates are substantially lower than comparable commercial meeting organisations

Personal belongings

- Please take care of all your personal belonging as Euroscicon cannot be held responsible if an item goes missing from the lecture theatre or the exhibition hall.
