It's the largest ancient castle in the world covering a total area bigger than seven football fields. The Old Town Astronomical Clock, Orloj is the best preserved medieval astronomical clock in the world. The city is not just about history, it's a vital urban centre with a rich array of cultural offerings. Outside the capital, castles and palaces abound it also include the audacious hilltop chateau at Cesky Krumlov- which illuminate the stories of powerful dynasties whose influence was felt throughout Europe. One of the most beautiful corners of the Czech Republic is in Eastern Bohemia: the spectacular Bohemian Paradise. This area of outstanding natural beauty is notable for its massive rock formations that stick up out of the ground like so many giants, seemingly unsupported and also defying all laws of physics.
